BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2024, section 331A.03, subdivision 1, is amended to read:

Subdivision 1. **Generally.** Except as provided in subdivision 2 or section 484.085, a public notice shall be published in a qualified newspaper, and except as otherwise provided by law, in one that is likely to give notice in the affected area or to whom it is directed. When a statute or other law requires publication in a newspaper located in a designated political subdivision or area and no qualified newspaper is located there, publication shall be made in a qualified newspaper likely to give notice unless the particular statute or law expressly provides otherwise. If no qualified newspaper exists, then publication is not required.

Sec. 2. **[484.085] PUBLICATION OF NOTICE.**

Subdivision 1. **Authority.** Notwithstanding any statute specifically requiring publication of a notice in a qualified newspaper, the district court may publish a notice, summons, order, or process in judicial proceedings required by statute, rule, or court order by posting the notice, summons, order, or process on the official website of the Minnesota judicial branch

if the judicial branch determines that there is no qualified local newspaper that is likely to give notice in the affected area or to whom notice is directed.

Subd. 2. **Effect.** Publication in accordance with this section meets the definition of published notice under section 645.11.

Subd. 3. **Optional use.** Nothing in this section requires the district court to publish a notice on its website in lieu of or in addition to publication in a qualified newspaper.

Subd. 4. **Scope.** This section applies only to notices, summonses, orders, or processes in judicial proceedings that are required by statute, rule, or court order to be published by or through the district court. Nothing in this section authorizes any other person, entity, or political subdivision to post notices, summonses, orders, or processes in judicial proceedings on the website of the Minnesota judicial branch.

Subd. 5. **Form and duration.** A notice, summons, order, or process in judicial proceedings published under this section must be posted in substantially the same form and for the same period of time as required for publication in a qualified newspaper for that particular notice, summons, order, or process in judicial proceedings.

Sec. 3. Minnesota Statutes 2024, section 518A.44, is amended to read:

**518A.44 NOTICE TO PUBLIC AUTHORITY.**

The petitioner shall notify the public authority of all proceedings for dissolution with children, legal separation with children, determination of parentage, or for the custody of a child, if either party is receiving public assistance or applies for it subsequent to the commencement of the proceeding. The notice must contain the full names of the parties to the proceeding, their Social Security account numbers, and their birth dates. After receipt of the notice, the court shall set child support as provided in section 518A.35. The court may order either or both parents owing a duty of support to a child of the marriage to pay an amount reasonable or necessary for the child's support, without regard to marital misconduct. The court shall approve a child support stipulation of the parties if each party is represented by independent counsel, unless the stipulation does not meet the conditions of section 518A.35. In other cases the court shall determine and order child support in a specific dollar amount in accordance with the guidelines and the other factors set forth in section 518A.43 and any departure therefrom. The court may also order the obligor to pay child support in the form of a percentage share of the obligor's net bonuses, commissions, or other forms of compensation, in addition to, or if the obligor receives no base pay, in lieu of, an order for a specific dollar amount.

Sec. 4. Minnesota Statutes 2024, section 611A.04, subdivision 3, is amended to read:

Subd. 3. **Effect of order for restitution.** An order of restitution may be enforced by any person named in the order to receive the restitution, or by the Crime Victims Reimbursement Board in the same manner as a judgment in a civil action. Any order for restitution in favor of a victim shall also operate as an order for restitution in favor of the Crime Victims Reimbursement Board, if the board has paid reimbursement to the victim or on the victim's behalf. Filing fees for docketing an order of restitution as a civil judgment are waived for any victim named in the restitution order. An order of restitution shall be docketed as a civil judgment, in the name of any person named in the order and in the name of the Crime Victims Reimbursement Board, by the court administrator of the district court in the county in which the order of restitution was entered. Notwithstanding section 541.04 or any other law or rule to the contrary, an order of restitution docketed as a civil judgment does not expire until satisfied or otherwise discharged pursuant to a court order. The court administrator also shall notify the commissioner of revenue of the restitution debt in the manner provided in chapter 270A, the Revenue Recapture Act. A juvenile court is not required to appoint a guardian ad litem for a juvenile offender before docketing a restitution order. Interest shall accrue on the unpaid balance of the judgment as provided in section 549.09. Whether the order of restitution has been docketed or not, it is a debt that is not dischargeable in bankruptcy. A decision for or against restitution in any criminal or juvenile proceeding is not a bar to any civil action by the victim or by the state pursuant to section 611A.61 against the offender. The offender shall be given credit, in any order for judgment in favor of a victim in a civil action, for any restitution paid to the victim for the same injuries for which the judgment is awarded.

Sec. 5. Laws 2024, chapter 115, article 12, section 30, subdivision 6, is amended to read:

Subd. 6. **Reports.** By July 15, 2025, the Supreme Court Council on Child Protection must submit a progress report on the council's duties under subdivision 5 to the governor, the chief justice of the supreme court, and the chairs and ranking minority members of the legislative committees with jurisdiction over child protection. Sec. 11. Minnesota Statutes 2024, section 237.70, subdivision 7, is amended to read:

Subd. 7. **Application, notice, financial administration, complaint investigation.** The telephone assistance plan must be administered jointly by the commission, the Department of Commerce, and the local service providers in accordance with the following guidelines:

(a) The commission and the Department of Commerce shall develop an application form that must be completed by the subscriber for the purpose of certifying eligibility for telephone assistance plan credits to the local service provider. The application must contain the applicant's Social Security number. Applicants who refuse to provide a Social Security number will be denied telephone assistance plan credits. The application form must also include a statement that the applicant household is currently eligible for one of the programs that confers eligibility for the federal Lifeline Program. The application must be signed by the applicant, certifying, under penalty of perjury, that the information provided by the applicant is true.

(b) Each local service provider shall annually mail a notice of the availability of the telephone assistance plan to each residential subscriber in a regular billing and shall mail the application form to customers when requested.

The notice must state the following:

YOU MAY BE ELIGIBLE FOR ASSISTANCE IN PAYING YOUR TELEPHONE BILL IF YOU RECEIVE BENEFITS FROM CERTAIN LOW-INCOME ASSISTANCE PROGRAMS. FOR MORE INFORMATION OR AN APPLICATION FORM PLEASE CONTACT .....

(c) An application may be made by the subscriber, the subscriber's spouse, or a person authorized by the subscriber to act on the subscriber's behalf. On completing the application certifying that the statutory criteria for eligibility are satisfied, the applicant must return the application to the subscriber's local service provider. On receiving a completed application from an applicant, the subscriber's local service provider shall provide telephone assistance plan credits against monthly charges in the earliest possible month following receipt of the application. The applicant must receive telephone assistance plan credits until the earliest possible month following the service provider's receipt of information that the applicant is ineligible.

If the telephone assistance plan credit is not itemized on the subscriber's monthly charges bill for local telephone service, the local service provider must notify the subscriber of the approval for the telephone assistance plan credit.

(d) The commission shall serve as the coordinator of the telephone assistance plan and be reimbursed for its administrative expenses from the surcharge revenue pool. As the coordinator, the commission shall:

(1) establish a uniform statewide surcharge in accordance with subdivision 6;

~~(2) establish a uniform statewide level of telephone assistance plan credit that each local service provider shall extend to each eligible household in its service area;~~

~~(3)~~ (2) require each local service provider to account to the commission on a periodic basis for surcharge revenues collected by the provider, expenses incurred by the provider, not to include expenses of collecting surcharges, and credits extended by the provider under the telephone assistance plan;

~~(4)~~ (3) require each local service provider to remit surcharge revenues to the Department of Public Safety for deposit in the fund; and

~~(5)~~ (4) remit to each local service provider from the surcharge revenue pool the amount necessary to compensate the provider for expenses, not including expenses of collecting the surcharges, and telephone assistance plan credits. When it appears that the revenue generated by the maximum surcharge permitted under subdivision 6 will be inadequate to fund any particular established level of telephone assistance plan credits, the commission shall reduce the credits to a level that can be adequately funded by the maximum surcharge. Similarly, the commission may increase the level of the telephone assistance plan credit that is available or reduce the surcharge to a level and for a period of time that will prevent an unreasonable overcollection of surcharge revenues.

(e) Each local service provider shall maintain adequate records of surcharge revenues, expenses, and credits related to the telephone assistance plan and shall, as part of its annual report or separately, provide the commission and the Department of Commerce with a financial report of its experience under the telephone assistance plan for the previous year. That report must also be adequate to satisfy the reporting requirements of the federal matching plan.

Subd. 5. **Income-neutral change.** Other than as authorized in this subdivision, an initial alternative regulation plan must not permit income-neutral rate changes for price-regulated services during the plan except as is necessary to implement extended area service or any successor to that service. Any plan must provide that after the rules issued pursuant to section 237.16 are adopted, rates for price-regulated services may be increased, as approved by the commission, to the extent necessary to carry out the purpose of those rules. ~~However, rate~~

~~increases, if any, for those services must be incorporated with a universal service fund so that the effective rate for the customers of those services does not increase during the first three years of the plan.~~

Sec. 13. **REPEALER.**

Minnesota Statutes 2024, sections 237.065; 237.066; 237.067; 237.071; 237.072; 237.075, subdivisions 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11; 237.14; 237.15; 237.16, subdivision 9; 237.22; 237.231; 237.59, subdivisions 1, 1a, 2, 3, 4, 5, 6, 8, 9, and 10; 237.66, subdivisions 1, 1a, 1c, 1d, 2, 2a, and 3; 237.75; 237.766; 237.768; 237.772; and 237.775, are repealed.

**237.065 RATE FOR SCHOOL OR PURCHASING COOPERATIVE.**

Subdivision 1. **Basic service; flat rate.** Each telephone company that provides local telephone service in a service area that includes a school that has classes within the range from kindergarten to 12th grade shall provide, upon request, additional service to the school that is sufficient to ensure access to basic telephone service from each classroom and other areas within the school, as determined by the school board. Each company shall set a flat rate for this additional service that is less than the company's flat rate for an access line for a business and the same as or greater than the company's flat rate for an access line for a residence in the same local telephone service exchange. When a company's flat rates for businesses and residences are the same, the company shall use the residential rate for service to schools under this section. The rate required under this section is available only for a school that installs additional service that includes access to basic telephone service from each classroom and other areas within the school, as determined by the school board.

Subd. 2. **Basic and advanced telecommunication service; reduced rate.** (a) Notwithstanding the provisions of sections 237.09, 237.14, 237.60, subdivision 3, and 237.74, each telephone company and telecommunications carrier that provides local telephone service in a service area that includes a school that has classes within the range from kindergarten to grade 12, a public library, or a telecommunication services purchasing cooperative may provide, upon request, basic and advanced telecommunication services at reduced or no cost to that school, library, or may provide, upon request, advanced telecommunication services at reduced wholesale rates to the members of a telecommunication services purchasing cooperative. For purposes of this section, a "telecommunication services purchasing cooperative" means a cooperative organized under section 308A.210. A school or library receiving telecommunications services at reduced or no cost may not resell or sublease the discounted services. No members of a telecommunication services purchasing cooperative may resell or sublease the discounted services. A purchasing cooperative is not required to negotiate or provide a uniform rate for its members. Telecommunications services shall be provided in accordance with Public Law 104-104, and the regulations of the Federal Communications Commission adopted under the act.

(b) An agent that provides telecommunications services to a school or library may request the favorable rate on behalf of and for the exclusive benefit of the school or library. The school or library must authorize the agent to make the request of the local telephone company or telecommunications carrier. The telephone company or telecommunications carrier is not required to offer the same price discount to the agent that it would offer to the school district or library. An agent that receives a price discount for telecommunications services on behalf of a school or library may only resell or sublease the discounted services to that school or library.

(c) For the purposes of this subdivision, "school" includes a public school as defined in section 120A.05, nonpublic, and church or religious organization schools that provide instruction in compliance with sections 120A.22, 120A.24, and 120A.41.

**237.066 STATE GOVERNMENT PRICING PLANS.**

Subdivision 1. **Purpose.** A state government or Tribal government telecommunications pricing plan is authorized and found to be in the public interest as it will:

(1) provide and ensure availability of high-quality, technologically advanced telecommunications services at a reasonable cost to the state or Tribal government; and

(2) further the state telecommunications goals as set forth in section 237.011.

Subd. 2. **Program participation.** A state government or Tribal government telecommunications pricing plan may be available to serve individually or collectively: state agencies; Tribal governments; educational institutions, including public schools and Tribal schools complying with section 120A.05, subdivision 9, 11, 13, or 17, and nonpublic schools complying with sections 120A.22, 120A.24, and 120A.41; private colleges; public corporations; and political subdivisions of the state or a Tribal Nation. Plans shall be available to carry out the commissioner of administration's duties under sections 16E.17 and 16E.18 and shall also be available to those entities not using the commissioner for contracting for telecommunications services.

Subd. 3. **Rates.** Notwithstanding section 237.09, 237.14, 237.60, subdivision 3, or 237.74, a telephone company or a telecommunications carrier may, individually or in cooperation with other telephone companies or telecommunications carriers, develop and offer basic or advanced telecommunications services at discounted or reduced rates as a state government or Tribal government telecommunications pricing plan. Any telecommunications services provided under any state government or Tribal government telecommunications pricing plan shall be used exclusively

by the entities described in subdivision 2 subject to the plan solely for the entities' own use and shall not be made available to any other entities by resale, sublease, or in any other way.

Subd. 4. **Applicability to other customers.** A telephone company or telecommunications carrier providing telecommunications services under a state government or Tribal government telecommunications pricing plan is not required to provide any other person or entity those services at the rates made available to the state or Tribal government.

Subd. 5. **Commission review.** (a) The terms and conditions of any state government or Tribal government telecommunications pricing plan must be submitted to the commission for review and approval within 90 days before implementation to:

(1) ensure that the terms and conditions benefit the state or Tribal Nation and not any private entity;

(2) ensure that the rates for any telecommunications service in any state government or Tribal government telecommunications pricing plan are at or below any applicable tariffed rates; and

(3) ensure that the state telecommunications or Tribal government pricing plan meets the requirements of this section and is in the public interest.

(b) The commission shall reject any state government or Tribal government telecommunications pricing plan that does not meet the criteria in paragraph (a).

**237.067 ESTABLISHMENT EXEMPT FROM REGULATION.**

Subdivision 1. **Definition.** For purposes of this section, "establishment" means an individual hotel, motel, restaurant, lodging house, boarding house, resort, or place of refreshment licensed under chapter 157.

Subd. 2. **Exemption; conditions.** An establishment that provides telephone service to patrons on the premises of the establishment is not subject to regulation under this chapter, except that the establishment:

(1) shall comply with the requirement of section 237.06 that rates charged must be fair and reasonable;

(2) shall provide notice of charges and service providers to patrons as required in section 325F.99; and

(3) is subject to the complaint and investigation procedures of section 237.081.

**237.071 SPECIAL PRICING.**

Except as prohibited by section 237.60, subdivision 3, prices unique to a particular customer or group of customers may be allowed for noncompetitive services and for services subject to emerging competition when differences in the cost of providing a service or a service element justifies a different price for a particular customer or group of customers. Individual pricing for services subject to emerging competition may be allowed when a uniform price should not be required because of market conditions. Unique or individual prices for services or service elements in effect before July 1, 1989, are deemed to have been approved under this section.

**237.072 LIMITATION ON RATE CHANGE.**

(a) After December 15, 1997, the commission, notwithstanding any provision to the contrary, shall not allow an incumbent telephone company with more than 1,000,000 access lines in Minnesota to change its retail rates for telecommunications services without a determination of its revenue requirement pursuant to section 237.075 unless the incumbent telephone company is regulated pursuant to sections 237.76 to 237.773.

(b) If, prior to December 15, 1997, the incumbent telephone company petitions the commission to become subject to an alternative regulation plan under sections 237.76 to 237.773, paragraph (a) shall not apply to the petitioning company until 270 days after the date of the filing of the petition.

**237.075 RATE CHANGE.**

Subdivision 1. **Notice.** Unless the commission otherwise orders, no telephone company shall change a rate which has been duly established under this chapter, except upon 60 days' notice to the commission. The notice shall include statements of facts, expert opinions, substantiating documents, and exhibits, supporting the change requested, and state the change proposed to be made in the rates then in force and the time when the modified rates will go into effect. The filing

telephone company shall give written notice, as approved by the commission, of the proposed change to the governing body of each municipality and county in the area affected. All proposed changes shall be shown by filing new schedules or shall be plainly indicated upon schedules on file and in force at the time.

Subd. 2. **Suspension of proposed rate; hearing; final determination defined.** (a) Whenever there is filed with the commission as provided in subdivision 1 a schedule modifying or resulting in a change in any rate then in force, the commission may suspend the operation of the schedule by filing with the schedule of rates and delivering to the affected telephone company a statement in writing of its reasons for the suspension at any time before the rates become effective. The suspension shall not be for a longer period than ten months beyond the initial filing date except as provided in paragraph (b). During the suspension the commission shall determine whether all questions of the reasonableness of the rates requested raised by persons deemed interested or by the department can be resolved to the satisfaction of the commission. If the commission finds that all significant issues raised have not been resolved to its satisfaction, or upon petition by ten percent of the affected customers or 250 affected customers, whichever is less, it shall refer the matter to the Office of Administrative Hearings with instructions for a public hearing as a contested case pursuant to chapter 14, except as otherwise provided in this section. The commission may order that the issues presented by the proposed rate changes be bifurcated into two separate hearings as follows: (1) determination of the telephone company's revenue requirements and (2) determination of the rate design. Upon issuance of both administrative law judge reports, the issues shall again be joined for consideration and final determination by the commission. All prehearing discovery activities of state agency intervenors shall be consolidated and conducted by the Department of Commerce. If the commission does not make a final determination concerning a schedule of rates within ten months after the initial filing date, the schedule shall be deemed to have been approved by the commission; except if a settlement has been submitted to and rejected by the commission, the schedule is deemed to have been approved 12 months after the initial filing.

(b) If the commission finds that it has insufficient time during the suspension period to make a final determination of a case involving changes in general rates because of the need to make final determinations of other previously filed cases involving changes in general rates under this section or section 216B.16, the commission may extend the suspension period to the extent necessary to allow itself 20 working days to make the final determination after it has made final determinations in the previously filed cases. An extension of the suspension period under this paragraph does not alter the setting of interim rates under subdivision 3.

(c) For the purposes of this section, "final determination" means the initial decision of the commission and not any order which may be entered by the commission in response to a petition for rehearing or other further relief. The commission may further suspend rates until it determines all those petitions.

Subd. 3. **Interim rate; refund.** Notwithstanding any order of suspension of a proposed increase in rates, the commission shall order an interim rate schedule into effect not later than 60 days after the initial filing date. The commission shall order the interim rate schedule ex parte without a public hearing. Notwithstanding the provisions of sections 216.25 and 237.25, no interim rate schedule ordered by the commission pursuant to this subdivision shall be subject to an application for a rehearing or an appeal to a court until the commission has rendered its final determination. Unless the commission finds that exigent circumstances exist, the interim rate schedule shall be calculated using the proposed test-year cost of capital, rate base, and expenses, except that it shall include: (1) a rate of return on common equity for the company equal to that authorized by the commission in the company's most recent rate proceeding; (2) rate base or expense items the same in nature and kind as those allowed by a currently effective order of the commission in the company's most recent rate proceeding; and (3) no change in the existing rate design, except for products and services offered by nonregulated competitors. In the case of a company which has not been subject to a prior commission determination or has not had a general rate adjustment in the preceding three years, the commission shall base the interim rate schedule on its most recent determination concerning a similar company.

If, at the time of its final determination, the commission finds that the interim rates are in excess of the rates in the final determination, the commission shall order the company to refund the excess amount collected under the interim rate schedule, including interest on it which shall be at the rate of interest determined by the commission. The company shall commence distribution of the refund to its customers within 120 days of the final order, not subject to rehearing or appeal. If, at the time of its final determination, the commission finds that the interim rates are less than the rates in the final determination, the commission shall prescribe a method by which the company will recover

the difference in revenues from the date of the final determination to the date the new rate schedules are put into effect.

If the telephone company fails to make refunds within the period of time prescribed by the commission, the commission shall sue therefor and may recover on behalf of all persons entitled to a refund. In addition to the amount of the refund and interest due, the commission shall be entitled to recover reasonable attorney's fees, court costs and estimated cost of administering the distribution of the refund to persons entitled thereto. No suit under this subdivision shall be maintained unless instituted within two years after the end of the period of time prescribed by the commission for repayment of refunds. The commission shall not order an interim rate schedule in a general rate case into effect as provided by this subdivision until at least four months after it has made a final determination concerning any previously filed change of the rate schedule or the change has otherwise become effective under subdivision 2, unless:

(1) the commission finds that a four-month delay would unreasonably burden the company, its customers, or its shareholders and that an earlier imposition of interim rates is therefore necessary; or

(2) the company files a second general rate case at least 12 months after it has filed a previous general rate case for which the commission has extended the suspension period under subdivision 2.

Subd. 4. **Burden of proof.** The burden of proof to show that the rate change is just and reasonable shall be upon the telephone company seeking the change.

Subd. 5. **Determination after finding rate unacceptable.** If, after the hearing, the commission finds the rates to be unjust or unreasonable or discriminatory, the commission shall determine the rates to be charged or applied by the telephone company for the service in question and shall fix them by order to be served upon the telephone company. The rates shall thereafter be observed until changed, as provided by this chapter. In no event shall the rates exceed the level of rates requested by the telephone company, except that individual rates may be adjusted upward or downward. Rate design changes shall be prospective from the effective date of the new rate schedules approved by the commission.

Subd. 6. **Factors considered, generally.** The commission, in the exercise of its powers under this chapter to determine just and reasonable rates for telephone companies, shall give due consideration to the public need for adequate, efficient, and reasonable service and to the need of the telephone company for revenue sufficient to enable it to meet the cost of furnishing the service, including adequate provision for depreciation of its telephone company property used and useful in rendering service to the public, and to earn a fair and reasonable return upon the investment in the property. In determining the rate base upon which the telephone company is to be allowed to earn a fair rate of return, the commission shall give due consideration to evidence of the cost of the property when first devoted to public use, to prudent acquisition cost to the telephone company, less appropriate depreciation on each, to construction work in progress, to offsets in the nature of capital provided by sources other than the investors, and to other expenses of a capital nature. To the extent that construction work in progress is included in the rate base, the income used in determining the actual return on the telephone company property may include an allowance for funds used during construction. For purposes of determining rate base, the commission shall consider the original cost of telephone company property included in the base and shall make no allowance for its estimated current replacement value.

Subd. 7. **Advertising.** The commission shall not make an allowance for operating expenses incurred by a telephone company for institutional advertising.

Subd. 8. **Charitable contribution.** The commission shall allow as operating expenses only 50 percent of the qualified charitable contributions which the commission deems prudent for the use of any community chest, corporation, trust, fund, association, foundation, or organization, and only as long as the use is exclusively for religious, charitable, public cemetery, scientific, literary, artistic, or educational purposes or for the prevention of cruelty to children or animals. No part of a charitable contribution may inure to the benefit of any private stockholder or individual.

Subd. 9. **Election on regulation; cooperative, municipal, independent.** For the purposes of this section, "telephone company" shall not include a cooperative telephone association organized under the provisions of chapter 308A, an independent telephone company, or a municipal, unless the cooperative telephone association, independent telephone company, or municipal makes the election provided in this subdivision.

A cooperative telephone association may elect to become subject to rate regulation by the commission pursuant to this section. The election shall be (1) approved by the board of directors of the association in accordance with the procedures for amending the articles of incorporation contained in section 308A.135, excluding the filing requirements; or (2) approved by a majority of members or stockholders voting by mail ballot initiated by petition of no fewer than five percent of the members or stockholders of the association. The ballot to be used for the election shall be approved by the board of directors and the department. The department shall mail the ballots to the association's members who shall return the ballots to the department. The department will keep the ballots sealed until a date agreed upon by the department and the board of directors. On this date, representatives of the department and the association shall count the ballots. If a majority of the association's members who vote elect to become subject to rate regulation by the commission, the election shall be effective 30 days after the date the ballots are counted. For purposes of this section, the term "member or stockholder" shall mean either the member or stockholder of record or the spouse of the member or stockholder unless the association has been notified otherwise in writing.

A municipal may elect to become subject to rate regulation by the commission pursuant to this section. The election shall be (1) approved by resolution of the governing body of the municipality; or (2) approved by a majority of the customers of the municipal voting by mail ballot initiated by petition of no fewer than 20 percent of the customers of the municipal. The ballot to be used for the election shall be approved by the governing body of the municipality and the department. The department shall mail the ballots to the municipal's customers who shall return the ballots to the department. The department will keep the ballots sealed until a date agreed upon by the department and the governing body of the municipality. On this date, representatives of the department and the municipal shall count the ballots. If a majority of the customers of the municipal who vote elect to become subject to rate regulation by the commission, the election shall be effective 30 days after the date the ballots are counted. For purposes of this section, the term "customer" shall mean either the person in whose name the telephone service is registered or the spouse of the person unless the municipal utility has been notified otherwise in writing.

An independent telephone company may elect to become subject to rate regulation by the commission pursuant to this section. The election shall be (1) approved by the board of directors of the company in accordance with the procedures for amending the articles of incorporation contained in sections 302A.133 to 302A.139, excluding the filing requirements; or (2) approved by a majority of subscribers voting by mail ballot initiated by petition of no fewer than five percent of the subscribers of the company. The ballot to be used for the election shall be approved by the board of directors and the department. The department shall mail the ballots to the company's subscribers who shall return the ballots to the department. The department will keep the ballots sealed until a date agreed upon by the department and the board of directors. On this date, representatives of the department and the company shall count the ballots. If a majority of the company's subscribers who vote elect to become subject to rate regulation by the commission, the election shall be effective 30 days after the date the ballots are counted. For purposes of this section the term "subscriber" shall mean either the person in whose name the telephone service is registered or the spouse of the person unless the independent telephone company has been notified otherwise in writing.

Subd. 10. **Intervenor reimbursement.** The commission may order a telephone company to pay all or a portion of a party's intervention costs not to exceed $20,000 per intervention in any general rate case when the commission finds that the intervenor has materially assisted the commission's deliberation and the intervenor has insufficient financial resources to afford the costs of intervention. No entity which provides telephone services of any kind is eligible for reimbursement of intervention costs under this subdivision.

Subd. 11. **Recovery of expenses of segregating billing charges.** The public utilities commission shall allow each telephone company and independent telephone company subject to the requirements of section 325F.692 to automatically adjust tariffs or rates paid by information service providers to reflect the reasonable cost to the company to comply with section 325F.692.

**237.14 RATE FOR SERVICE TO OFFICER.**

A telephone company may furnish service free or at reduced rates to its officers, agents, or employees in furtherance of their employment, but it shall charge full schedule rates without discrimination for all other services.

**237.15 INVESTIGATION AND HEARING; AUTHORITY DELEGATED.**

The department shall whenever it deems the same necessary determine the value of all the property of any telephone company devoted to the public use, and in so doing it shall, after notice to the telephone company, hold such public hearing as will give all interested parties a chance to furnish evidence and be heard. For the purpose of this chapter the department is authorized to appoint engineers, examiners, experts, clerks, accountants, and other assistants as it may deem necessary at such rates of compensation as it may prescribe.

In the discharge of their duties such appointees shall have every power, of any inquisitorial nature granted in this chapter to the department. The department may conduct any number of investigations contemporaneously through its individual members or appointees, and may delegate to its individual members and employees the taking of all testimony on any investigation or hearing.

**237.16 LOCAL EXCHANGE COMPETITION, RULES.**

Subd. 9. **Universal service fund.** The commission shall establish and require contributions to a universal service fund, to be supported by all providers of telephone services, whether or not they are telephone companies under section 237.01, including, but not limited to, local telephone companies, independent telephone companies, cooperative telephone companies, municipal telephone companies, telecommunications carriers, radio common carriers, personal communication service providers, and cellular carriers. Services that should be considered for inclusion as universal include, at a minimum, single-party service including access, usage and touch-tone capability; line quality capable of carrying facsimile and data transmissions; equal access; emergency services number capability; statewide telecommunications relay service for people with hearing loss; and blocking of long-distance toll services. The fund must be administered and distributed in accordance with rules adopted by the commission and designed to preserve the availability of universal service throughout the state. Any state universal service fund must be coordinated with any federal universal service fund and be consistent with section 254(b)(1) to (5) of the federal Telecommunications Act of 1996, Public Law 104-104.

**237.22 DEPRECIATION; AMORTIZATION.**

(a) For purposes of a proceeding to determine or investigate any wholesale or retail rate, or to set any universal service support level, the commission may fix proper and adequate rates and methods of depreciation and amortization with respect to a telephone company's property.

(b) All telephone companies shall retain data in sufficient detail for the purpose of determining depreciation accruals and reserves by depreciable telephone plant account. Depreciable plant accounts are those specified by the Federal Communications Commission for the class to which a telephone company belongs. All telephone companies shall maintain, and have available for inspection by the commission upon request, adequate accounts and records related to depreciation practices as defined herein.

**237.231 SALE OF LOCAL EXCHANGE SERVICE.**

Subdivision 1. **Commission approval.** A Class A telephone company may not sell a local exchange service territory without receiving the prior consent of the commission. For the purposes of this section, a Class A telephone company is a telephone company which has annual revenues from regulated telecommunication operations of $100,000,000 or more, as defined by the Federal Communications Commission in Code of Federal Regulations, title 47, section 32.11, paragraphs (a)(1) and (e).

Subd. 2. **Notice of intended sale.** At least 90 days prior to applying to the commission for consent to a proposed sale or acquisition of a local exchange service, the selling telephone company must provide notice to its customers in that local exchange of its intent to sell and identify the affected local exchange, and the name of the proposed buyer. The notice must be on a separate document and included in the company's monthly billings to customers. The commission must approve the form of all notices.

Subd. 3. **Resident poll.** At least 60 days prior to the hearing under subdivision 4, the telephone company proposing the sale of a local exchange service must provide each of its customers with a stamped envelope addressed to the commission and must inform the customer that the customer is encouraged to comment on the quality of service that has been provided in the local exchange service territory by the telephone company over the last 12 months.

Subd. 4. **Public hearing.** At least 30 days prior to the commission's deliberations about a proposed sale or acquisition of a local exchange service territory, the commission must hold a public

hearing at a location within the affected local exchange service territory allowing the public an opportunity to be heard and to present any concerns or comments.

Subd. 5. **Requirements for consent.** The commission may not give consent to a sale of a service territory unless, at a minimum, it finds all of the following:

(1) the quality of service provided by the telephone company servicing the local exchange service territory has substantially complied with all applicable quality of service standards adopted by rule by the commission for the previous calendar year;

(2) the proposed buyer is financially responsible and capable of making necessary investments to maintain quality service at levels required by rule; and

(3) the proposed buyer demonstrates that it has an adequate number of properly trained employees to maintain service at required levels.

The commission shall, as a condition of its consent, require a proposed buyer to enter into binding commitments obligating the buyer to maintain minimum levels of investment and staffing needed to meet the commission's quality of service rules. These commitments are in addition to any other conditions that the commission may impose.

**237.59 CLASSIFICATION OF COMPETITIVE SERVICE; HEARING.**

Subdivision 1. **Emerging competitive service.** (a) The following services provided by the telephone company are subject to emerging competition unless and until reclassified as noncompetitive or subject to effective competition under this section:

(1) apartment door answering services;

(2) automatic call distribution;

(3) billing and collection services;

(4) call waiting, call forwarding, and three-way calling services for businesses with three or more lines;

(5) central office-based pricing packages providing switched business access lines which substitute for private branch exchange systems which may or may not share intelligence with customer premises equipment;

(6) command link-type services for network reconfiguring to rearrange cross-connections between channel services;

(7) custom network services and special assemblies;

(8) Digicom switchnet services for full duplex, synchronous, information transport;

(9) direct customer access services for telephone number information;

(10) teleconferencing services;

(11) inter-LATA and intra-LATA message toll service;

(12) inter-LATA and intra-LATA private line services;

(13) inter-LATA and intra-LATA wide area telephone service;

(14) mobile radio services;

(15) operator services, excluding local operator services;

(16) public pay telephone services, excluding charges for access to the central office;

(17) special construction of facilities;

(18) systems for automatic dialing; and

(19) versanet-type service access line involving continuous monitoring and transmission of data from customer's premises to the central office.

(b) A service classified as subject to emerging competition before June 1, 1994, retains that classification unless and until it is reclassified pursuant to subdivision 3 or 10.

Subd. 1a. **CLASS service.** Notwithstanding the terms of subdivision 1, paragraph (b), CLASS services may be classified as competitive services only when so classified according to subdivision 3 or 10.

Subd. 2. **Petition.** (a) A telephone company, or the commission on its own motion, may petition to have a service of that telephone company classified as subject to effective competition or emerging competition. The petition must be served on the commission, the department, the Office of the Attorney General, and any other person designated by the commission. The petition must contain at least:

(1) a list of the known alternative providers of the service available to the company's customers; and

(2) a description of affiliate relationships with any other provider of the service in the company's market.

(b) At the time the company first offers a service, it shall also file a petition with the commission for a determination as to how the service should be classified. In the event that no interested party or the commission objects to the company's proposed classification within 20 days of the filing of the petition, the company's proposed classification of the service is deemed approved. If an objection is filed, the commission shall determine the appropriate classification after a hearing conducted pursuant to section 237.61. In either event, the company may offer the new service to its customers ten days after the company files the price list and incremental cost study as provided in Minnesota Rules, parts 7811.2210 and 7812.2210.

(c) A new service may be classified as subject to effective competition or emerging competition pursuant to the criteria set forth in subdivision 5. A new service must be regulated under the emerging competition provisions if it is not integrally related to the provision of adequate local service or access to the telephone network or to the privacy, health, or safety of the company's customers, whether or not it meets the criteria set forth in subdivision 5.

Subd. 3. **Expedited proceeding.** An interested party wishing to contest the change of classification of a service must file an objection with the commission within 20 days after the filing of the petition. If no party files an objection, the service must be reclassified in accordance with the petition. If a petition is contested, a telephone company that is the subject of a petition under subdivision 2 may request that the commission determine the classification of the service through an expedited proceeding under section 237.61 or a contested case hearing. If an expedited proceeding is requested, the commission must provide interested persons an opportunity to comment on the appropriateness of the process and the merits of the petition.

When an expedited proceeding is requested, the commission shall make a final determination within 60 days of the date on which all required information required under subdivision 2 is filed, unless during the 60 days the commission finds that a material issue of fact is in dispute, in which case it shall order that a contested case hearing be conducted to evaluate the petition.

Subd. 4. **Contested case hearing.** If a contested case hearing is held under this section, the commission shall make a final determination on the petition within eight months from the date the petitioning party requests a contested case hearing or from the date the commission orders a contested case hearing under subdivision 3. When a contested case hearing is requested in the petition or when the commission acts on its own motion, this deadline may be extended for no more than 60 days by agreement of all parties or by order of the commission if the commission finds that the case cannot be completed within the required time and that without an extension there is substantial probability that the public interest will be harmed.

Subd. 5. **Criteria.** (a) If a proposed classification is objected to pursuant to subdivision 2, paragraph (b), on the basis that the service does not meet the criteria of this subdivision, the commission shall consider, in determining whether a service is subject to either effective competition or emerging competition from available alternative service providers, the following factors:

(1) the number and sizes of alternative providers of service and affiliation to other providers;

(2) the extent to which services are available from alternative providers in the relevant market;

(3) the ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions of service;

(4) the market share, the ability of the market to hold prices close to cost, and other economic measures of market power; and

(5) the necessity of the service to the well-being of the customer.

(b) In order for the commission to find a service subject to effective competition alternative services must be available to over 50 percent of the company's customers for that service.

(c) In order for the commission to find a service subject to emerging competition alternative services must be available to over 20 percent of the company's customers for that service.

Subd. 6. **Burden of proof.** The classification of a service may not be changed so as to result in lessened regulation unless it is demonstrated by a preponderance of the evidence that the criteria of subdivision 5 have been met.

Subd. 8. **Interim relief.** A telephone company that has a petition pending before the commission under this section to declare a service competitive may decrease its price for that service without notice while the commission considers the petition. A company must provide an incremental cost study if requested by the commission. The commission shall suspend a company's right under this subdivision to decrease rates if, after an expedited hearing conducted under section 237.61, the commission finds that the service is being priced below cost, or that the company has within the previous 12 months charged customers interim rates under this subdivision for the same service, and that service was determined by the commission to be noncompetitive.

Subd. 9. **Reporting requirements; exception.** A telephone company that offers only competitive services is not subject to the accounting and reporting requirements of this chapter unless otherwise ordered by the commission for good cause. A telephone company that offers both competitive and noncompetitive services is not subject to the reporting requirements with regard to its effective competition services unless otherwise ordered by the commission for good cause.

Subd. 10. **Regulation reinstated.** (a) The commission, on its own motion or upon complaint, shall reclassify a service as noncompetitive or as subject to emerging competition and reinstate, in whole or in part, rate regulation of the service if, after notice and hearing, the commission finds either:

(1) that the competitive market for that service, on review of the criteria found in subdivision 5, has failed so that rate regulation of that service is necessary to protect the interest of consumers, that it has considered the alternatives to rate regulation, and that the benefits of rate regulation outweigh the burdens of rate regulation; or

(2) that unreasonable discrimination has occurred between different areas of the state.

(b) In any proceeding to reclassify a service the person initiating the complaint has the burden of proving that the existing classification is inappropriate, except the telephone company providing the service has the burden of proving that the classification is appropriate when the proceeding is commenced by the commission on its own motion or when the complainant is the department or the attorney general.

**237.66 DISCLOSURE OF LOCAL SERVICE OPTIONS.**

Subdivision 1. **Notice to local residential customers.** A telephone company, when a residential customer initially requests service or requests a change of service, and annually in the form of a bill insert, shall advise each residential customer of the price of all service options available to that customer. The requirement of an annual notice through a bill insert does not apply to long-distance service.

Subd. 1a. **Notice to customer; right to require prior authorization.** Each residential and commercial telecommunications carrier customer may elect to require that the telephone company serving the customer receive authorization from the customer before a request to serve that customer from a different intrastate telecommunications carrier than the carrier currently serving the customer is processed.

Subd. 1c. **Timing of notice; new customer.** For new installations, a telephone company shall notify a residential or commercial customer of the right described in subdivision 1a when the customer initially requests intraexchange service. Any customer notification of the rights set forth in this section shall be provided utilizing uniform, competitively neutral language and the form, content, and style of the authorization shall be consistent with federal law and regulation and shall use language provided and approved by the public utilities commission.

Subd. 1d. **Change of election.** A customer may change the election under subdivision 1a at any time by notifying the telephone company of that decision. No separate charge may be imposed on

the customer for electing to exercise the right described in subdivision 1a or to change that election, but a telephone company may recover in rates the reasonable costs of administering the election.

Subd. 2. **Filing; exemptions.** Copies of both the written notices and information provided to customer service representatives concerning the disclosure required under subdivision 1 must be filed once every 12 months with the commission and the department. Independent telephone companies, municipalities, and cooperative telephone associations are exempt from the requirements of this subdivision unless otherwise ordered by the commission.

Subd. 2a. **Call blocking.** A telephone company, when a residential customer initially requests service, shall advise each residential customer of the availability of all blocking options including 900 number blocking and international long-distance blocking.

Subd. 3. **Enforcement.** If, after an expedited procedure conducted under section 237.61, the commission finds that a telephone company is failing to provide disclosure as required under subdivision 1, or the notification required under subdivision 1c, it shall order the company to take corrective action as necessary.

**237.75 CLASS SERVICE.**

Subdivision 1. **Definition.** For purposes of this section, "CLASS" or "custom local area signaling service" means a custom calling telephone service that is enabled through the installation or use of Signaling System 7 or similar signaling system and that includes at least the following features:

(1) automatic call back;

(2) automatic recall;

(3) calling number delivery, commonly known as "caller identification";

(4) calling number delivery blocking;

(5) customer originated call tracing;

(6) distinctive ringing/call waiting;

(7) selective call acceptance;

(8) selective call forwarding; and

(9) selective call rejection.

Subd. 2. **CLASS; terms and conditions.** By January 1, 1994, the commission shall determine the terms and conditions under which CLASS services may be provided by telephone companies in this state.

Subd. 3. **CLASS; capability and offering of service.** Each telephone company that provides local telephone service to persons located in the counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington shall obtain the capability to offer CLASS services in those counties by January 1, 1995, unless the commission approves an extension to a date certain.

**237.766 PLAN DURATION AND EXTENSION.**

Subdivision 1. **Plan duration.** An alternative regulation plan approved by the commission under section 237.764 must remain in force as approved for the term specified in the plan, which must be for no less than three years. Except as otherwise provided in this section, within six months prior to the termination of the plan the company shall give notice that it will propose a new plan, extend an existing plan, or revert to rate of return regulation.

Subd. 2. **New plan.** A new plan proposed by a company must be reviewed by the commission and, with the consent of the company, revised or approved consistent with sections 237.76 to 237.774, except that the justification of earnings levels in section 237.764, subdivision 1, paragraph (c), if required, and the provisions prohibiting rate increases at the initiation of or during the first three years of a plan contained in section 237.762, shall not apply to a new plan. Any new plan must be approved by the commission and shall contain a mechanism under which a telephone company may reduce the rates for price-regulated services below the initial rates or prices or increase the rates or prices during the term of the plan. The plan must specify the reports required of the telephone company for review of the plan and specify that the telephone company shall maintain records in sufficient detail to facilitate the review. A new plan is not an extension, which must be made pursuant to subdivision 3.

Subd. 3. **Plan extension.** (a) Notwithstanding the provisions of its plan, a telephone company operating under a plan as of May 20, 2004, may elect to extend that plan for up to three years from the expiration date of the plan or until December 31, 2007, whichever is earlier. The election is effective upon notification to customers, the commission, the department, and the Office of the Attorney General. A telephone company must provide notification of its election within 30 days of May 20, 2004, or within six months of the expiration of its current or expired plan, whichever is later. Once a telephone company has elected to exercise the option provided under this subdivision, the company may elect at any time to terminate the plan by notifying customers, the commission, the department, and the Office of the Attorney General, in writing, six months prior to the termination date. Upon termination of a plan, the company shall be regulated as provided in this chapter.

(b) A telephone company may elect to extend a plan entered into after May 20, 2004, in lieu of proposing a new plan only if the company is in substantial compliance with the plan's service quality provisions and has met its infrastructure obligations under the plan. If the company elects to extend a plan, the rates for price-regulated services shall be capped at the rate levels in effect at the time the extension commences, provided, however, exceptions to a price cap contained in the plan being extended may remain in force. Unless otherwise specified in the plan, all other provisions of the plan shall continue in effect throughout the extension period. A plan may not be extended for less than one year or more than three years, and may only be extended once.

(c) The Department of Commerce or the Office of the Attorney General may file an objection to the extension with the commission if the company is not in substantial compliance with the service quality provisions of its plan or has not met its infrastructure obligations under the plan. An objection must be filed within 45 days of the company's notice of its intention to extend the plan.

(d) If an objection is filed by the Department of Commerce or the Office of the Attorney General, the commission may hold a hearing on the issues raised in the objection. The hearings shall be completed within 30 days of the deadline for filing the objections. If the commission finds that the issues raised in the objection are valid, it may reject the extension. If the commission finds that the issues raised in the objection are not valid, it shall approve the extension. The commission shall issue its decision within 15 days of the completion of the hearings concerning the objection.

(e) If the Department of Commerce or the Office of the Attorney General does not file an objection, the commission shall approve the extension within 60 days of the company's filing of its notice of its intention to extend the plan.

Subd. 4. **Joining an existing plan.** (a) A telephone company may elect to opt into another company's plan if:

(1) the chosen plan is from a company that is larger than the electing company; or

(2) the chosen plan is from an affiliated company; and

(3) the plan is currently in effect.

(b) A telephone company electing to enter an existing plan in lieu of proposing a new plan must operate under the terms of that plan for at least three years. If the original term of the existing plan was longer than three years, then the adopting company must operate under the plan for that longer period.

(c) A telephone company that desires to adopt an existing plan must give notice to the commission at least 90 days prior to the proposed effective date of the adoption and to its customers at least 60 days prior to the proposed effective date.

(d) The Department of Commerce or the Office of the Attorney General may file an objection to a telephone company that has previously operated under a plan from electing to opt into the plan of another company if the electing company is not in substantial compliance with the service quality provisions or has not met the infrastructure obligations of its plan.

(e) If a telephone company has not previously operated under an alternative regulation plan, the rates for its price-regulated services must be capped for the first three years at the rates in effect at the time of opt in, except for any plan provisions that address exogenous changes.

(f) Within 30 days of the electing company filing notice to the commission, interested parties may file comments identifying any aspect of the adoption that the party believes is contrary to the public interest. Reply comments may be filed within 45 days following the notice to the commission. The commission shall accept the adoption unless it finds adoption of the existing plan by the electing telephone company is not in the public interest, in which case it may reject or modify the election to opt into the provisions of the existing plan. If the commission modifies the election, the electing

company may withdraw its proposed adoption of the existing plan by filing notice with the commission within 30 days of the commission's modification order.

**237.768 PERIODIC FINANCIAL REPORT.**

In addition to the reports required under section 237.766, an alternative regulation plan may require a telephone company to file with the department an annual report of financial matters for the previous calendar year on or before May 1 of each year on report forms furnished by the department in the same manner as is required of other telephone companies on August 1, 1995. In addition, any company subject to a plan shall file with the commission and department a copy of any filings it has made to the Federal Communications Commission regarding the provisions of video programming provided through a video dial tone facility in Minnesota. An alternative regulation plan may require a telephone company to maintain its accounts in accordance with the system of accounts prescribed for the company by the commission under section 237.10.

**237.772 COST STUDY METHODOLOGY.**

Subdivision 1. **Total service long-run incremental cost.** (a) For purposes of this chapter, total service long-run incremental cost (TSLRIC) means the total cost to the company of supplying a service, group of services, or basic network function. The term "long-run" means a period of time sufficient so that all inputs are avoidable based on the total increment of service, group of services, or basic network function and includes the relevant costs resulting from the company's decision to provide the service, group of services, or basic network function, holding constant the production levels of all other services, groups of services, or basic network functions provided by the company.

(b) A telephone company is not required to prepare or file TSLRIC or variable cost studies for all of its services as a prerequisite to filing a plan. However, the commission may order cost studies to be prepared for specific services as a condition of approval of the plan.

Subd. 2. **Petition for variable cost study.** To the extent that this section or the commission may require a company to provide a TSLRIC study, a company may submit a petition to the commission for permission to submit a variable cost study instead of a TSLRIC study. The commission shall grant the petition if the telephone company demonstrates:

(1) that a TSLRIC study is burdensome in relation to its annual revenue from the service involved;

(2) in the case of an existing service, that the service is no longer being offered to new customers; or

(3) if the telephone company shows other good cause.

**237.775 EXISTING PLAN NOT AFFECTED.**

An alternative regulation plan approved by the commission prior to May 1, 1997, is not subject to the amendments in Laws 1997, chapter 223; provided that a plan filed, revised, or renewed after that date is subject to those amendments.

The petition must allege that the petitioner or a child who resides with the petitioner has been subjected to domestic abuse, criminal sexual assault, sexual extortion, or harassment by the respondent, and the respondent has abandoned the respondent's interest in the contract for deed. A respondent has abandoned their interest in the contract for deed if the respondent has not physically occupied the property that is subject to the contract for deed for at least six consecutive months immediately preceding the commencement of the action under this section, and the petitioner has made all payments due on the contract for deed for at least six consecutive months immediately preceding the commencement of the action under this section.

Subd. 3. **Content of summons.** In addition to the requirements set forth under the Minnesota Rules of Civil Procedure, the summons must contain the following information:

(1) the date the contract for deed was executed;

(2) the street address of the property that is subject to the contract for deed;

(3) the name of the vendor;

(4) the names of the vendees;

(5) the date of recordation of the contract for deed, the document number, and the county in which it was recorded;

Subd. 4. **Jurisdiction.** (a) Except as provided in paragraph (b), the district court has jurisdiction over petitions seeking termination of the interest of the respondent.

(b) Unless otherwise provided by applicable law, nothing in this section infringes upon the jurisdiction of a Tribal court in the matter of a petition to terminate the interest of a respondent in a contract for deed.

Subd. 5. **Procedure.** (a) Except when a case proceeds by default, if an answer is filed and the petition is contested, the court must hold a hearing. The court must grant the petition if the petitioner demonstrates by a preponderance of the evidence that the petitioner or a child who resides with the petitioner has been subjected to domestic abuse, criminal sexual assault, sexual extortion, or harassment by the respondent, and the respondent has abandoned their interest in the contract for deed as described in subdivision 2, paragraph (a).

(b) A petitioner demonstrates that the petitioner or a child who resides with the petitioner has been subjected to domestic abuse, criminal sexual assault, sexual extortion, or harassment by the respondent if:

Subd. 6. **Defense; prejudice to the vendor.** A vendor may contest a petition filed under this section by demonstrating by a preponderance of the evidence that granting the petition to terminate the respondent's interest will prejudice the vendor. A court must not grant the petition if the court finds that the vendor will be prejudiced by a termination of the respondent's interest.

Subd. 7. **Order.** If the court grants the petition, the court shall issue an order terminating the interest of the respondent and finding that the petitioner has met the burden of showing that the petitioner or a child who resides with the petitioner has been subjected to domestic abuse, criminal sexual assault, sexual extortion, or harassment by the respondent, and the respondent has abandoned the respondent's interest in the contract for deed as described in subdivision 2, paragraph (a).

Subd. 8. **Contract for deed termination judgment.** (a) A court granting the requested relief shall prepare, or direct the petitioner or the petitioner's legal counsel to prepare and submit to the court, a proposed contract for deed termination judgment, which must provide that the respondent's interest is terminated and of no further force or effect. Upon approval

by the court and filing of the contract for deed termination judgment with the court administrator, the court administrator must provide to any party upon request certified copies of the contract for deed termination judgment. The contract for deed termination judgment must contain the following information:

(1) the date of execution of the contract for deed;

(7) whether the judgment and decree resulted from a stipulation, a default, or a trial and the appearances at the default or trial;

(8) any former name of either party;

(9) the street address and legal description of the property that is the subject of the contract for deed;

(10) if recorded, the document number of the contract for deed;

(11) if the real property is registered land, the certificate of title number of the real property;

(12) the name or names of the person or persons awarded an interest in the real property and a description of the interest awarded;

(13) liens, mortgages, encumbrances, or other interests in the real estate described in the judgment and decree;

(14) the signature of the judge and the date signed;

(15) the signature of the court administrator and the date signed; and

(16) if the judgment and decree resulted from a default, whether the petition contained the legal description of the real property and whether disposition was made in accordance with the request for relief.

(b) Notwithstanding any provision contained in the contract for deed, a respondent whose interest has been terminated has no interest as a vendee in the contract for deed.

(c) The petitioner must record the contract for deed termination judgment with the county recorder or the registrar of titles, as applicable.

(d) A contract for deed termination judgment is binding on the interest of the vendor and all vendees under the contract for deed.

Subd. 9. **Effect of termination.** (a) The termination of the respondent's interest in the contract for deed does not terminate or invalidate any other provision of the contract for deed. The respondent's interest that has been terminated shall be transferred to the petitioner by operation of law upon entry of the court's order without the necessity of any further act or conveyance.

(b) A respondent whose interest has been terminated under this section has no further liability on the contract for deed and a vendor shall have no cause of action against the respondent for damages or performance.

**EFFECTIVE DATE.** This section is effective July 1, 2026, and applies to contracts for deed entered into on or after that date.

Sec. 2. Minnesota Statutes 2024, section 559.21, is amended by adding a subdivision to read:

Subd. 10. **Applicability to section 559.206.** Nothing in this section shall apply to a vendee whose interest was terminated under section 559.206.

A bill for an act

relating to housing; providing for submetered utility service final billing for vacating tenants; modifying provisions related to the payment of rent by tenants; prohibiting listing a minor in certain eviction actions; modifying expedited eviction procedures; amending Minnesota Statutes 2024, sections 216B.023, by adding a subdivision; 504B.118; 504B.216, by adding a subdivision; 504B.321, subdivision 2; proposing coding for new law in Minnesota Statutes, chapter 504B.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2024, section 216B.023, is amended by adding a subdivision to read:

Subd. 3a. **Final billing for submetered utility service.** If, by the date the tenant vacates the unit, a landlord has not received from the utility provider the actual utility bill for utility service, the landlord may issue an estimated final utility bill to the tenant. The calculation must be based on the immediately preceding billing period for the submetered utility bill charged to the tenant, prorated for the number of days between the end of the prior billing period and the date the tenant vacates the unit. No additional fees or charges may be assessed, except that nothing in this subdivision prohibits a landlord from assessing and including in the final utility bill:

(1) an administrative billing charge authorized under subdivision 4; and

(2) a late payment charge authorized under subdivision 6, provided that the late payment charge reflects only a late fee for unpaid charges from the immediately preceding billing period.

Sec. 2. Minnesota Statutes 2024, section 504B.118, is amended to read:

**504B.118 ~~RECEIPT FOR RENT PAID IN CASH~~ PAYMENT OF RENT.**

Subdivision 1. **Definition.** For the purposes of this section, "digital payment platform" means an electronic application or system, under the direct control of the landlord or operated by a vendor under contract with the landlord, that permits a user to conduct financial transactions.

Subd. 2. **Receipt for rent paid in cash.** A landlord receiving rent or other payments from a tenant in cash must provide a written receipt for payment immediately upon receipt if the payment is made in person, or within three business days if payment in cash is not made in person.

Subd. 3. **Digital payment platforms.** (a) If a landlord requires or permits a tenant to pay rent and other charges using a digital payment platform, a landlord must offer a tenant an alternative to using the digital payment platform if the platform is not functioning. No fee may be charged to the tenant to use an alternative form of payment.

(b) If the landlord knows that the digital payment platform is not functioning, the landlord must restore access to the digital payment platform or offer an alternative means of payment as soon as practicable.

(c) A landlord is prohibited from taking any adverse action, including but not limited to filing an eviction or assessing late fees, when payment of rent or other charges is not paid because both the digital payment platform and the alternative payment method the landlord provided are not functioning for the tenant.

Subd. 4. **Affirmative defense.** The tenant has an affirmative defense against an eviction action filed for nonpayment of rent if the landlord violates this section. Upon a showing that the landlord has violated this section, the eviction action must be dismissed, and the tenant is entitled to reasonable attorney fees and any other equitable relief the court deems appropriate.

**EFFECTIVE DATE.** This section is effective August 1, 2026. Subdivision 4 applies to eviction actions filed on or after that date.

Sec. 3. **[504B.2136] MINORS AS DEFENDANTS PROHIBITED.**

(a) A residential landlord shall not list the minor child of a residential tenant as a defendant in an eviction action complaint against a residential tenant. If a minor is the only

person renting the unit from the landlord, the landlord may list the minor as a defendant in an eviction action complaint against the minor.

(b) The requirements of this section may not be waived or modified by the parties to a residential lease. Any provision, whether oral or written, of a lease or other agreement by which any provision of this section is waived by a tenant is contrary to public policy and void.

(c) The tenant shall recover from the landlord actual damages or $300, whichever is greater, for a violation of this section.

**EFFECTIVE DATE.** This section is effective August 1, 2026, and applies to eviction actions filed on or after that date.

Sec. 4. Minnesota Statutes 2024, section 504B.216, is amended by adding a subdivision to read:

Subd. 7a. **Final billing for apportioned utility service.** If, by the date the tenant vacates the unit, a landlord has not received from the utility provider the actual utility bill for utility service, the landlord may issue an estimated final utility bill to the tenant. The calculation must be based on the immediately preceding billing period for the apportioned utility bill charged to the tenant, prorated for the number of days between the end of the prior billing period and the date the tenant vacates the unit. No additional fees or charges may be assessed, except that nothing in this subdivision prohibits a landlord from assessing and including in the final utility bill:

(1) an administrative billing charge authorized under subdivision 8; and

(2) a late payment charge authorized under subdivision 9, provided that the late payment charge reflects only a late fee for unpaid charges from the immediately preceding billing period.

Sec. 5. Minnesota Statutes 2024, section 504B.321, subdivision 2, is amended to read:

Subd. 2. **Expedited procedure.** (a) In an eviction action brought under section 504B.171 or on the basis that the residential tenant engages in behavior that seriously endangers the safety of other residents, assaults the landlord or the landlord's employees or contractors, or intentionally and seriously damages the property of the landlord or a tenant, the person filing the complaint shall file an affidavit stating specific facts and instances in support of why an expedited hearing is required. For the purposes of this subdivision, "assault" has the meaning given in section 609.02, subdivision 10.

(b) The complaint and affidavit shall be reviewed by a referee or judge and scheduled for an expedited hearing only if sufficient supporting facts are stated and they meet the requirements of this paragraph.

(c) The appearance in an expedited hearing shall be not less than five days nor more than seven days from the date the summons is issued. The summons, in an expedited hearing, shall be served upon the residential tenant within 24 hours of issuance unless the court orders otherwise for good cause shown.

(d) If the court determines that the person seeking an expedited hearing did so without sufficient basis under the requirements of this subdivision, the court shall impose a civil penalty of up to ~~$500~~ $750 for abuse of the expedited hearing process.

(e) The court may only consider allegations under paragraph (a) during an expedited hearing. The court may not consolidate claims heard under the expedited procedure with any additional claims, including but not limited to breach of lease, holding over under section 504B.285, or nonpayment of rent under section 504B.291.

**EFFECTIVE DATE.** This section is effective August 1, 2026, and applies to eviction actions filed on or after that date.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2024, section 169.011, subdivision 71, is amended to read:

Subd. 71. **School bus.** (a) "School bus" means a motor vehicle used to: (1) transport pupils to or from a school defined in section 120A.22, or to or from school-related activities, by the school or a school district, or by someone under an agreement with the school or a school district; or (2) provide training on the operation of the vehicle for the purposes specified in clause (1) to employees of the school, school district, or a person under an agreement with the school or school district. A school bus does not include a motor vehicle transporting children to or from school for which parents or guardians receive direct compensation from a school district, a motor coach operating under charter carrier authority, a transit bus providing services as defined in section 174.22, subdivision 7, or a vehicle otherwise qualifying as a type III vehicle under paragraph (h), when the vehicle is properly registered and insured and being driven by an employee or agent of a school district for nonscheduled or nonregular transportation.

(b) A school bus may be type A, type B, type C, or type D, multifunction school activity bus, or type III as provided in paragraphs (c) to (h).

(c) A "type A school bus" is a van conversion or bus constructed utilizing a cutaway front section vehicle with a left-side driver's door. This definition includes two classifications:

type A-I, with a gross vehicle weight rating (GVWR) less than or equal to 14,500 pounds; and type A-II, with a GVWR greater than 14,500 pounds and less than or equal to 21,500 pounds.

(e) A "type C school bus" is constructed utilizing a chassis with a hood and front fender assembly. The entrance door is behind the front wheels. A "type C school bus" also includes a cutaway truck chassis or truck chassis with cab, with or without a left side door, and with a GVWR greater than 21,500 pounds.

(f) A "type D school bus" is constructed utilizing a stripped chassis. The entrance door is ahead of the front wheels.

Subdivision 1. **Restrictions on appearance; misdemeanor.** (a) A bus that is not used as a school bus must not be operated on a street or highway unless it is painted a color significantly different than national school bus glossy yellow.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2024, section 515B.1-103, is amended to read:

**515B.1-103 DEFINITIONS.**

In the declaration and bylaws, unless specifically provided otherwise or the context otherwise requires, and in this chapter:

(1) "Additional real estate" means real estate that may be added to a flexible common interest community.

(2) "Affiliate of a declarant" means any person who controls, is controlled by, or is under common control with a declarant.

(A) A person "controls" a declarant if the person (i) is a general partner, officer, director, or employer of the declarant, (ii) directly or indirectly or acting in concert with one or more other persons, or through one or more subsidiaries, owns, controls, holds with power to vote, or holds proxies representing, more than 20 percent of the voting interest in the declarant, (iii) controls in any manner the election of a majority of the directors of the declarant, or (iv) has contributed more than 20 percent of the capital of the declarant.

(B) A person "is controlled by" a declarant if the declarant (i) is a general partner, officer, director, or employer of the person, (ii) directly or indirectly or acting in concert with one or more other persons, or through one or more subsidiaries, owns, controls, holds with power to vote, or holds proxies representing, more than 20 percent of the voting interest in the person, (iii) controls in any manner the election of a majority of the directors of the person, or (iv) has contributed more than 20 percent of the capital of the person.

(C) Control does not exist if the powers described in this subsection are held solely as a security interest and have not been exercised.

(3) "Allocated interests" means the following interests allocated to each unit: (i) in a condominium, the undivided interest in the common elements, the common expense liability, and votes in the association; (ii) in a cooperative, the common expense liability and the ownership interest and votes in the association; and (iii) in a planned community, the common expense liability and votes in the association.

(4) "Association" means the unit owners' association organized under section 515B.3-101.

(5) "Board" or "Board of Directors" means the body, regardless of name, designated in the articles of incorporation, bylaws or declaration to act on behalf of the association, or on behalf of a master association when so identified.

(6) "CIC plat" means a common interest community plat described in section 515B.2-110.

(7) "Common elements" means all portions of the common interest community other than the units.

(8) "Common expenses" means expenditures made or liabilities incurred by or on behalf of the association, or master association when so identified, together with any allocations to reserves.

(9) "Common expense liability" means the liability for common expenses allocated to each unit pursuant to section 515B.2-108.

(10) "Common interest community" or "CIC" means contiguous or noncontiguous real estate within Minnesota that is subject to an instrument which obligates persons owning a separately described parcel of the real estate, or occupying a part of the real estate pursuant to a proprietary lease, by reason of their ownership or occupancy, to pay for (i) real estate taxes levied against; (ii) insurance premiums payable with respect to; (iii) maintenance of; or (iv) construction, maintenance, repair or replacement of improvements located on, one or more parcels or parts of the real estate other than the parcel or part that the person owns or occupies. Real estate which satisfies the definition of a common interest community is

a common interest community whether or not it is subject to this chapter. Real estate subject to a master declaration, regardless of when the master declaration was recorded, shall not collectively constitute a separate common interest community unless so stated in the master declaration.

(11) "Condominium" means a common interest community in which (i) portions of the real estate are designated as units, (ii) the remainder of the real estate is designated for common ownership solely by the owners of the units, and (iii) undivided interests in the common elements are vested in the unit owners.

(11a) "Construction defect claim" means a civil action or an arbitration proceeding based on any legal theory including, but not limited to, claims under chapter 327A for damages, indemnity, or contribution brought against a development party to assert a claim, counterclaim, cross-claim, or third-party claim for damages or loss to, or the loss of use of, real or personal property caused by a defect in the initial design or construction of an improvement to real property that is part of a common interest community, including an improvement that is constructed on additional real estate pursuant to section 515B.2-111. "Construction defect claim" does not include claims related to subsequent maintenance, repairs, alterations, or modifications to, or the addition of, improvements that are part of the common interest community, and that are contracted for by the association or a unit owner.

(12) "Conversion property" means real estate on which is located a building that at any time within two years before creation of the common interest community was occupied, in whole or in part, for (i) residential use or (ii) for residential rental purposes by persons other than purchasers and persons who occupy with the consent of purchasers.

(13) "Cooperative" means a common interest community in which the real estate is owned by an association, each of whose members is entitled to a proprietary lease by virtue of the member's ownership interest in the association.

(14) "Dealer" means a person in the business of selling units for the person's own account.

(15) "Declarant" means:

(i) if the common interest community has been created, (A) any person who has executed a declaration, or a supplemental declaration or amendment to a declaration adding additional real estate, except secured parties, a spouse holding only an inchoate interest, persons whose interests in the real estate will not be transferred to unit owners, or, in the case of a leasehold common interest community, a lessor who possesses no special declarant rights and who

is not an affiliate of a declarant who possesses special declarant rights, or (B) any person who reserves, or succeeds under section 515B.3-104 to any special declarant rights;

(ii) any person or persons acting in concert who have offered prior to creation of the common interest community to transfer their interest in a unit to be created and not previously transferred; or

(iii) if (A) a unit has been restricted to nonresidential use and sold to a purchaser who has agreed to modify or waive, in whole or in part, sections 515B.4-101 to 515B.4-118, and (B) the restriction expires or is modified or terminated such that residential use of the unit is permitted, the unit owner at the time the restriction expires or is so modified or terminated is a declarant with respect to that unit and any improvements subject to use rights by a purchaser of the unit.

(16) "Declaration" means any instrument, however denominated, that creates a common interest community.

(16a) "Development party" means an architect, contractor, construction manager, subcontractor, developer, declarant, engineer, or private inspector performing or furnishing the design, supervision, inspection, construction, coordination, or observation of the construction of any improvement to real property that is part of a common interest community, or any of the person's affiliates, officers, directors, shareholders, members, or employees.

(17) "Dispose" or "disposition" means a voluntary transfer to a purchaser of any legal or equitable interest in the common interest community, but the term does not include the transfer or release of a security interest.

(17a) "First mortgage" means either (i) if there is only one mortgage encumbering title to a unit, that mortgage, or (ii) if there are multiple mortgages encumbering title to a unit, the mortgage that is first in priority, whether by operation of applicable law or by a properly recorded agreement.

(20) "Limited common element" means a portion of the common elements allocated by the declaration or by operation of section 515B.2-109(c) or (d) for the exclusive use of one or more but fewer than all of the units.

A person (i) hired by an association to perform maintenance, repair, accounting, bookkeeping or management services, or (ii) granted authority under an instrument recorded primarily for the purpose of creating rights or obligations with respect to utilities, access, drainage, or recreational amenities, is not, solely by reason of that relationship, a master association.

(22) "Master declaration" means a written instrument, however named, (i) recorded on or after June 1, 1994, and (ii) complying with section 515B.2-121, subsection (e).

(23) "Master developer" means a person who is designated in the master declaration as a master developer or, in the absence of such a designation, the owner or owners of the real estate subject to the master declaration at the time the master declaration is recorded, except (i) secured parties and (ii) a spouse holding only an inchoate interest. A master developer is not a declarant unless the master declaration states that the real estate subject to the master declaration collectively is or collectively will be a separate common interest community.

(26) "Planned community" means a common interest community that is not a condominium or a cooperative. A condominium or cooperative may be a part of a planned community.

(26a) "Property manager" means a person with whom the association contracts to perform management services and includes, without limitation, the property manager's employees and agents.

(28) "Purchaser" means a person, other than a declarant, who by means of a voluntary transfer acquires a legal or equitable interest in a unit other than (i) a leasehold interest of less than 20 years, including renewal options, or (ii) a security interest.

(29) "Real estate" means any fee simple, leasehold or other estate or interest in, over, or under land, including structures, fixtures, and other improvements and interests that by custom, usage, or law pass with a conveyance of land though not described in the contract of sale or instrument of conveyance. "Real estate" may include spaces with or without upper or lower boundaries, or spaces without physical boundaries.

(30) "Residential use" means use as a dwelling, whether primary, secondary or seasonal, but not (i) transient use such as hotels or motels, (ii) use for residential rental purposes if the individual dwellings are not separate units or if the individual dwellings are not located on separate parcels of real estate. For purposes of this chapter, a unit is restricted to nonresidential use if the unit is subject to a restriction that prohibits residential use as defined in this section whether or not the restriction also prohibits the uses described in this paragraph.

(31) "Secured party" means the person owning a security interest as defined in paragraph (32).

(32) "Security interest" means a perfected interest in real estate or personal property, created by contract or conveyance, which secures payment or performance of an obligation. The term includes a mortgagee's interest in a mortgage, a vendor's interest in a contract for deed, a lessor's interest in a lease intended as security, a holder's interest in a sheriff's certificate of sale during the period of redemption, an assignee's interest in an assignment of leases or rents intended as security, in a cooperative, a lender's interest in a member's ownership interest in the association, a pledgee's interest in the pledge of an ownership interest, or any other interest intended as security for an obligation under a written agreement.

(33a) This definition of special declarant rights applies only to common interest communities created before August 1, 2010. "Special declarant rights" means rights reserved in the declaration for the benefit of a declarant to:

(i) complete improvements indicated on the CIC plat, planned by the declarant consistent with the disclosure statement or authorized by the municipality in which the CIC is located;

(vii) merge or consolidate a common interest community with another common interest community of the same form of ownership; or

(viii) appoint or remove any officer or director of the association, or the master association where applicable, during any period of declarant control.

(33b) This definition of special declarant rights applies only to common interest communities created on or after August 1, 2010. "Special declarant rights" means rights reserved in the declaration for the benefit of a declarant and expressly identified in the declaration as special declarant rights. Such special declarant rights may include but are not limited to the following:

(i) to complete improvements indicated on the CIC plat, planned by the declarant consistent with the disclosure statement or authorized by the municipality in which the common interest community is located, and to have and use easements for itself and its employees, agents, and contractors through the common elements for such purposes;

(v) to appoint or remove any officer or director of the association during any period of declarant control;

(vi) to utilize an alternate common expense plan as provided in section 515B.3-115(a)(2);

(vii) to grant common element licenses as provided in section 515B.2-109(e); or

(viii) to review, and approve or disapprove, the exterior design, materials, size, site location, and other exterior features of buildings and other structures, landscaping and other exterior improvements, located within the common interest community, and any modifications or alterations thereto.

Special declarant rights shall not be reserved or utilized for the purpose of evading any limitation or obligation imposed on declarants by this chapter.

(34) "Time share" means a right to occupy a unit or any of several units during three or more separate time periods over a period of at least three years, including renewal options, whether or not coupled with a fee title interest in the common interest community or a specified portion thereof.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2024, section 515B.2-119, is amended to read:

**515B.2-119 TERMINATION OF COMMON INTEREST COMMUNITY.**

(a) Except as otherwise provided in this chapter, a common interest community may be terminated as follows:

(1) if a common interest community consists entirely of detached, single-family dwellings that does not include any common elements and the association has no maintenance obligations for any building that contains a dwelling, the common interest community may

be terminated only by the written agreement of unit owners of units to which at least 67 percent of the votes in the association are allocated, provided that agreement shall be deemed to have been provided by any unit owner who has not otherwise indicated a preference and whose written refusal to agree is not received by the association within 60 days after the association has provided notice of the proposed termination by certified United States mail, postage prepaid, and return receipt requested. Termination of the common interest community does not relieve the association of its obligations under any contract other than the declaration; or

(2) a common interest community not subject to clause (1) may be terminated only by agreement of unit owners of units to which at least 80 percent of the votes in the association are allocated, and 80 percent of the first mortgagees of units (each mortgagee having one vote per unit financed), or any larger percentage the declaration specifies. The declaration may specify a smaller percentage only if all of the units are restricted to nonresidential use.

(b) An agreement to terminate shall be evidenced by a written agreement, executed in the same manner as a deed by the number of unit owners and first mortgagees of units required by subsection (a). The agreement shall specify a date after which the agreement shall be void unless recorded before that date. The agreement shall also specify a date by which the termination of the common interest community and the winding up of its affairs must be accomplished. A certificate of termination executed by the association evidencing the termination shall be recorded on or before the termination date, or the agreement to terminate shall be revoked. The agreement to terminate, or a memorandum thereof, and the certificate of termination shall be recorded in every county in which a portion of the common interest community is situated and is effective only upon recording.

(c) In the case of a condominium or planned community containing only units having upper and lower boundaries, a termination agreement may provide that all of the common elements and units of the common interest community must be sold following termination. If, pursuant to the agreement, any real estate in the common interest community is to be sold following termination, the termination agreement shall set forth the minimum terms of sale acceptable to the association.

(d) In the case of a condominium or planned community containing any units not having upper and lower boundaries, a termination agreement may provide for sale of the common elements, but it may not require that the units be sold following termination, unless the original declaration provided otherwise or all unit owners whose units are to be sold consent to the sale. If, pursuant to the agreement, any real estate in the common interest community

is to be sold following termination, the termination agreement shall set forth the minimum terms of sale acceptable to the association.

(e) The association, on behalf of the unit owners, shall have authority to contract for the sale of real estate in a common interest community pursuant to this section, subject to the required approval. The agreement to terminate shall be deemed to grant to the association a power of attorney coupled with an interest to effect the conveyance of the real estate on behalf of the holders of all interests in the units, including without limitation the power to execute all instruments of conveyance and related instruments. Until the sale has been completed, all instruments in connection with the sale have been executed and the sale proceeds distributed, the association shall continue in existence with all powers it had before termination.

(1) The instrument conveying or creating the interest in the common interest community shall include as exhibits (i) an affidavit of the secretary of the association certifying that the approval required by this section has been obtained and (ii) a schedule of the names of all unit owners in the common interest community as of the date of the approval.

(2) Proceeds of the sale shall be distributed to unit owners and secured parties as their interests may appear, in accordance with subsections (h), (i), (j), and (k).

(3) Unless otherwise specified in the agreement of termination, until the association has conveyed title to the real estate, each unit owner and the unit owner's successors in interest have an exclusive right to occupancy of the portion of the real estate that formerly constituted the unit. During the period of that occupancy, each unit owner and the unit owner's successors in interest remain liable for all assessments and other obligations imposed on unit owners by this chapter, the declaration or the bylaws.

(f) The legal description of the real estate constituting the common interest community shall, upon the date of recording of the certificate of termination referred to in subsection (b), be as follows:

(1) In a planned community utilizing a CIC plat complying with section 515B.2-110(d)(1) and (2), the lot and block description contained in the CIC plat, and any amendments thereto, subject to any subsequent conveyance or taking of a fee interest in any part of the property.

(2) In a condominium or cooperative, or a planned community utilizing a CIC plat complying with section 515B.2-110(c), the underlying legal description of the real estate as set forth in the declaration creating the common interest community, and any amendments thereto, subject to any subsequent conveyance or taking of a fee interest in any part of the property.

(3) The legal description referred to in this subsection shall apply upon the recording of the certificate of termination. The recording officer for each county in which the common interest community is located shall index the property located in that county in its records under the legal description required by this subsection from and after the date of recording of the certificate of termination. In the case of registered property, the registrar of titles shall cancel the existing certificates of title with respect to the property and issue one or more certificates of title for the property utilizing the legal description required by this subsection.

(g) In a condominium or planned community, if the agreement to terminate provides that the real estate constituting the common interest community is not to be sold following termination, title to the common elements and, in a common interest community containing only units having upper and lower boundaries described in the declaration, title to all the real estate in the common interest community, vests in the unit owners upon termination as tenants in common in proportion to their respective interest as provided in subsection (k), and liens on the units shift accordingly. While the tenancy in common exists, each unit owner and the unit owner's successors in interest have an exclusive right to occupancy of the portion of the real estate that formerly constituted the unit.

(h) The proceeds of any sale of real estate pursuant to subsection (e), together with the assets of the association, shall be held by the association as trustee for unit owners, secured parties and other holders of liens on the units as their interests may appear. Before distributing any proceeds, the association shall have authority to deduct from the proceeds of sale due with respect to the unit (i) unpaid assessments levied by the association with respect to the unit, (ii) unpaid real estate taxes or special assessments due with respect to the unit, and (iii) the share of expenses of sale and winding up of the association's affairs with respect to the unit.

(i) Following termination of a condominium or planned community, creditors of the association holding liens on the units perfected before termination may enforce those liens in the same manner as any lienholder, in order of priority based upon their times of perfection. All other creditors of the association are to be treated as if they had perfected liens on the units immediately before termination.

(j) In a cooperative, the declaration may provide that all creditors of the association have priority over any interests of unit owners and creditors of unit owners. In that event, following termination, creditors of the association holding liens on the cooperative which were perfected before termination may enforce their liens in the same manner as any lienholder, in order of priority based upon their times of perfection. All other creditors of the association shall be treated as if they had perfected a lien against the cooperative immediately before

termination. Unless the declaration provides that all creditors of the association have that priority:

(1) the lien of each creditor of the association which was perfected against the association before termination becomes, upon termination, a lien against each unit owner's interest in the unit as of the date the lien was perfected;

(2) any other creditor of the association is to be treated upon termination as if the creditor had perfected a lien against each unit owner's interest immediately before termination;

(3) the amount of the lien of an association's creditor described in paragraphs (1) and (2) against each of the unit owners' interest shall be proportionate to the ratio which each unit's common expense liability bears to the common expense liability of all of the units;

(4) the lien of each creditor of each unit owner which was perfected before termination continues as a lien against that unit owner's interest in the unit as of the date the lien was perfected; and

(5) the assets of the association shall be distributed to all unit owners and all lienholders as their interests may appear in the order described in this section. Creditors of the association are not entitled to payment from any unit owner in excess of the amount of the creditor's lien against that unit owner's interest.

(k) The respective interest of unit owners referred to in subsections (e), (f), (g), (h) and (i) are as follows:

(1) Except as provided in paragraph (2), the respective interests of unit owners are the fair market values of their units, allocated interests, and any limited common elements immediately before the termination, as determined by one or more independent appraisers selected by the association. The decision of the independent appraisers must be distributed to the unit owners and becomes final unless disapproved within 30 days after distribution by unit owners of units to which 25 percent of the votes in the association are allocated. The proportion of any unit's interest to that of all units is determined by dividing the fair market value of that unit by the total fair market values of all the units.

(2) If any unit or any limited common element is destroyed to the extent that an appraisal of the fair market value thereof before destruction cannot be made, the interests of all unit owners shall be measured by: (i) in a condominium, their allocations of common element interests immediately before the termination, (ii) in a cooperative, their respective ownership interests immediately before the termination, and (iii) in a planned community, their respective allocations of common expenses immediately before the termination.

(l) In a condominium or planned community, except as provided in subsection (m), foreclosure or enforcement of a lien or encumbrance against the entire common interest community does not terminate, of itself, the common interest community, and foreclosure or enforcement of a lien or encumbrance against a portion of the common interest community does not withdraw that portion from the common interest community.

(m) In a condominium or planned community, if a lien or encumbrance against a portion of the real estate comprising the common interest community has priority over the declaration and the lien or encumbrance has not been partially released, the parties foreclosing the lien or encumbrance, upon foreclosure, may record an instrument excluding the real estate subject to that lien or encumbrance from the common interest community.

(n) Following the termination of a common interest community in accordance with this section, the association shall be dissolved in accordance with law.

**EFFECTIVE DATE.** This section is effective January 1, 2027, and applies to all terminations under this section initiated on or after that date.

Sec. 3. Minnesota Statutes 2024, section 515B.3-102, is amended to read:

**515B.3-102 POWERS AND DUTIES OF UNIT OWNERS' ASSOCIATION.**

(a) Except as provided in subsections (b), (c), (d), (e), and (f) and subject to the provisions of the declaration or bylaws, the association shall have the power to:

(1) adopt, amend and revoke rules and regulations not inconsistent with the articles of incorporation, bylaws and declaration, as follows: (i) regulating the use of the common elements; (ii) regulating the use of the units, and conduct of unit occupants, which may jeopardize the health, safety or welfare of other occupants, which involves noise or other disturbing activity, or which may damage the common elements or other units; (iii) regulating or prohibiting animals; (iv) regulating changes in the appearance of the common elements and conduct which may damage the common interest community; (v) regulating the exterior appearance of the common interest community, including, for example, balconies and patios, window treatments, and signs and other displays, regardless of whether inside a unit; (vi) implementing the articles of incorporation, declaration and bylaws, and exercising the powers granted by this section; and (vii) otherwise facilitating the operation of the common interest community. Rules and regulations adopted must be reasonable. An association must give unit owners no less than 21 days' notice before the association votes to adopt, amend, or revoke a rule or regulation to review and comment on the proposed change. Notice may be provided in any reasonable manner. An association may adopt a temporary rule without

notice in exigent circumstances, provided the board acts as soon as practicable to give the requisite notice to unit owners before adopting the rule permanently. Nothing in this chapter prevents the unit owners from asking the board to adopt, amend, or revoke a rule or regulation;

(2) adopt and amend budgets for revenues, expenditures and reserves, and levy and collect assessments for common expenses from unit owners;

(3) hire and discharge managing agents and other employees, agents, and independent contractors;

(4) institute, defend, or intervene in litigation or administrative proceedings (i) in its own name on behalf of itself or two or more unit owners on matters affecting the common elements or other matters affecting the common interest community or, (ii) with the consent of the owners of the affected units on matters affecting only those units;

(5) make contracts and incur liabilities;

(6) regulate the use, maintenance, repair, replacement, and modification of the common elements and the units;

(7) cause improvements to be made as a part of the common elements, and, in the case of a cooperative, the units;

(8) acquire, hold, encumber, and convey in its own name any right, title, or interest to real estate or personal property, but (i) common elements in a condominium or planned community may be conveyed or subjected to a security interest only pursuant to section 515B.3-112, or (ii) part of a cooperative may be conveyed, or all or part of a cooperative may be subjected to a security interest, only pursuant to section 515B.3-112;

(9) grant or amend easements for public utilities, public rights-of-way or other public purposes, and cable television or other communications, through, over or under the common elements; grant or amend easements, leases, or licenses to unit owners for purposes authorized by the declaration; and, subject to approval by a vote of unit owners other than declarant or its affiliates, grant or amend other easements, leases, and licenses through, over or under the common elements;

(10) impose and receive any payments, fees, or charges for the use, rental, or operation of the common elements, other than limited common elements, and for services provided to unit owners;

(11) ~~impose interest and late charges for late payment of assessments and, after notice and an opportunity to be heard before the board or a committee appointed by it, levy~~

~~reasonable fines for violations of the declaration, bylaws, and rules and regulations of the association, provided that attorney fees and costs must not be charged or collected from a unit owner who disputes a fine or assessment and, if after the homeowner requests a hearing and a hearing is held by the board or a committee of the board, the board does not adopt a resolution levying the fine or upholding the assessment against the unit owner or owner's unit;~~ unless, at a board meeting, a greater amount is approved by owners of units to which a majority of the votes in the association are allocated, impose a fine not to exceed $100 for a single violation of the declaration, bylaws, and rules and regulations, except the association may impose a fine greater than $100 for a subsequent violation for the same conduct, or if the violation:

(i) has a serious and immediate impact on the health or safety of a resident, occupant, or guest;

(ii) causes physical damage to another unit or a common element; or

(iii) involves using the property for financial enrichment, including renting or offering for rent a unit in violation of the declaration, bylaws, or a rule or regulation prohibiting short-term or long-term rentals.

A unit owner pursuant to section 515B.3-115(g) or 515B.3-1151(g), after receiving notice of a violation or a notice of an assessment, has the opportunity to be heard before the board or a committee appointed by it to contest the fine or assessment. A unit owner, within 30 days after receipt of the notice, must request a hearing, unless the declaration provides for a different period. The unit owner has the right to be advised by an attorney or a designated representative at the hearing. If a hearing is requested by a unit owner, attorney fees and costs must not be charged or collected from a unit owner unless the hearing is held and the board or committee adopts a final resolution upholding the fine or assessment against the unit owner or owner's unit. The association must provide, in any reasonable manner, a copy of the final resolution within 30 days of its adoption. The resolution must contain an explanation for upholding the fine or assessment to the unit owner.

If the association's governing documents authorize the association to impose fines for violations of the governing documents, an association must provide a list of fines for common violations of the governing documents and a description of the remedies available to the association to every unit owner in any reasonable manner, including but not limited to electronic mailing or posting on the association's website, including when the schedule is amended by the association;

(12) impose reasonable charges for the review, preparation and recordation of amendments to the declaration~~,~~ or resale certificates required by section 515B.4-107, ~~statements of unpaid assessments,~~ or furnishing copies of association records;

(13) provide for the indemnification of its officers and directors, and maintain directors' and officers' liability insurance;

(14) provide for reasonable procedures governing the conduct of meetings and election of directors;

(15) exercise any other powers conferred by law, or by the declaration, articles of incorporation or bylaws; ~~and~~

(16) exercise any other powers necessary and proper for the governance and operation of the association;

(17) impose interest only on delinquent assessments for common expenses or special assessments not to exceed eight percent; and

(18) impose a fee for late payment of common expenses and special assessments not to exceed the greater of $20 or five percent of the amount owed.

(b) Notwithstanding subsection (a) the declaration or bylaws may not impose limitations on the power of the association to deal with the declarant which are more restrictive than the limitations imposed on the power of the association to deal with other persons.

(c) An association that levies a fine pursuant to subsection (a)(11), or an assessment pursuant to section 515B.3-115(g), or 515B.3-1151(g), must provide a dated, written notice to a unit owner that:

(1) states the amount and reason for the fine or assessment;

(2) for fines levied under section 515B.3-102(a)(11), specifies: (i) the violation for which a fine is being levied and the date of the levy; and (ii) the specific section of the declaration, bylaws, rules, or regulations allegedly violated;

(3) for assessments levied under section 515B.3-115(g) or 515B.3-1151(g), identifies: (i) the damage caused; and (ii) the act or omission alleged to have caused the damage;

(4) states that ~~all~~ unpaid fines for certain violations subject to section 515B.3-116(h), and all assessments are liens which, if not satisfied, could lead to foreclosure of the lien against the owner's unit;

(5) describes the unit owner's right to be heard by the board or a committee appointed by the board and the steps a unit owner must take to schedule the hearing;

(6) states that if the assessment, fine, late fees, and other allowable charges are not paid, the amount may increase as a result of the imposition of attorney fees and other collection costs; and

(7) informs the unit owner that homeownership ~~assistance~~ advice is available from the Minnesota Homeownership Center and dispute resolution and other information services are available from the common interest community ombudsperson.

(d) Notwithstanding subsection (a), powers exercised under this section must comply with sections 500.215, 500.216, and 500.217.

(e) Notwithstanding subsection (a)(4) or any other provision of this chapter, the association, before instituting litigation or arbitration involving construction defect claims against a development party, shall:

(1) mail or deliver written notice of the anticipated commencement of the action to each unit owner at the addresses, if any, established for notices to owners in the declaration and, if the declaration does not state how notices are to be given to owners, to the owner's last known address. The notice shall specify the nature of the construction defect claims to be alleged, the relief sought, and the manner in which the association proposes to fund the cost of pursuing the construction defect claims; and

(2) obtain the approval of owners of units to which a majority of the total votes in the association are allocated. Votes allocated to units owned by the declarant, an affiliate of the declarant, or a mortgagee who obtained ownership of the unit through a foreclosure sale are excluded. The association may obtain the required approval by a vote at an annual or special meeting of the members or, if authorized by the statute under which the association is created and taken in compliance with that statute, by a vote of the members taken by electronic means or mailed ballots. If the association holds a meeting and voting by electronic means or mailed ballots is authorized by that statute, the association shall also provide for voting by those methods. Section 515B.3-110(c) applies to votes taken by electronic means or mailed ballots, except that the votes must be used in combination with the vote taken at a meeting and are not in lieu of holding a meeting, if a meeting is held, and are considered for purposes of determining whether a quorum was present. Proxies may not be used for a vote taken under this paragraph unless the unit owner executes the proxy after receipt of the notice required under subsection (e)(1) and the proxy expressly references this notice.

(f) The association may intervene in a litigation or arbitration involving a construction defect claim or assert a construction defect claim as a counterclaim, crossclaim, or third-party claim before complying with subsections (e)(1) and (e)(2) but the association's complaint

in an intervention, counterclaim, crossclaim, or third-party claim shall be dismissed without prejudice unless the association has complied with the requirements of subsection (e) within 90 days of the association's commencement of the complaint in an intervention or the assertion of the counterclaim, crossclaim, or third-party claim.

(g) An association may not refuse to accept payment from an owner of any amount for any assessment, fine, or fee, except if the association has commenced a foreclosure under chapter 580 or 581. Acceptance of a payment does not constitute a waiver of any claim or defense the association may assert. Nothing in this paragraph affects the unit owner's right to reinstate under section 580.30.

(h) A payment by a unit owner must be applied to assessments for common expenses and special assessments first before it is applied to fines, fees, or other assessments, except that the payment can be applied:

(1) in a different manner upon the agreement of the unit owner and the association; or

(2) by the association to fines that remain unpaid for more than 120 days if the fine is for a violation that:

(i) has a serious and immediate impact on the health or safety of a resident, occupant, or guest;

(ii) causes physical damage to another unit or a common element; or

(iii) involves using the property for financial enrichment, including renting or offering for rent a unit in violation of the declaration, bylaws, or a rule or regulation prohibiting short-term or long-term rentals, as provided under subsection (a)(11).

An association must consider offering a reasonable payment plan for a delinquency.

(i) A board must allow a unit owner to present, orally or in writing, a grievance to the board or a committee appointed by the board on a matter other than a fine governed under subsection (a)(11), or an application to alter a unit under section 515B.3-107(e). The board must make a good faith effort to resolve the grievance or, if resolution is not achieved, refer the unit owner to the common interest community ombudsperson. An association may not impose any fees or charges on the unit owner for making the presentation.

**EFFECTIVE DATE.** This section is effective January 1, 2027, and applies to action taken by an association on or after that date.

Sec. 4. Minnesota Statutes 2025 Supplement, section 515B.3-103, is amended to read:

**515B.3-103 BOARD OF DIRECTORS, OFFICERS AND DECLARANT CONTROL.**

(a) An association shall be governed by a board of directors whose appointment or election shall occur no later than the date of creation of the common interest community and shall be reflected in the association's records. Except as expressly prohibited by the declaration, the articles of incorporation, bylaws, subsection (b), or other provisions of this chapter, the board may act in all instances on behalf of the association. In the performance of their duties, the officers and directors are required to exercise (i) if appointed by the declarant, the care required of fiduciaries of the unit owners and (ii) if elected by the unit owners, the care required of a director by section 302A.251, 308B.455, 308C.455, or 317A.251, as applicable. The officers and directors appointed by the declarant shall have a duty to fulfill, and to cause the association to fulfill, their respective obligations under the declaration, bylaws, articles of incorporation, and this chapter and to enforce the provisions of the declaration, bylaws, articles of incorporation, and this chapter against all unit owners, including the declarant and its affiliates, in a uniform and fair manner. The standards of conduct for officers and directors set forth in this subsection shall also apply to the officers and directors of master associations in the exercise of their duties on behalf of the master association.

(b) The board may not act unilaterally to amend the declaration, to terminate the common interest community, to elect directors to the board, or to determine the qualifications, powers and duties, or terms of office of directors, but the board may fill vacancies in its membership created other than by removal by the vote of the association members for the unexpired portion of any term.

(c) The declaration may provide for a period of declarant control of the association, during which a declarant, or persons designated by the declarant, may appoint and remove the officers and directors of the association. The period of declarant control begins on the date of creation of the common interest community and terminates upon the earliest of the following events: (i) five years after the date of the first conveyance of a unit to a unit owner other than a declarant in the case of a flexible common interest community or three years in the case of any other common interest community, (ii) the declarant's voluntary surrender of control by giving written notice to the unit owners pursuant to section 515B.1-115, or (iii) the conveyance of 75 percent of the units to unit owners other than a declarant.

(d) The board shall cause a meeting of the unit owners to be called, as follows:

(1) If the period of declarant control has terminated pursuant to subsection (c), a meeting of the unit owners shall be called and held within 60 days after said termination, at which the board shall be appointed or elected by all unit owners, including declarant, subject to the requirements of subsection (e).

(2) If 50 percent of the units that a declarant is authorized by the declaration to create have been conveyed prior to the termination of the declarant control period, a meeting of the unit owners shall be called and held within 60 days thereafter, at which not less than 33-1/3 percent of the members of the board shall be elected by unit owners other than a declarant or an affiliate of a declarant.

(3) If the board fails or refuses to cause a meeting of the unit owners required to be called pursuant to subsection (d), then the unit owners other than a declarant and its affiliates may cause the meeting to be called pursuant to the applicable provisions of the law under which the association was created. The declarant and its affiliates shall be deemed to be present at the meeting for purposes of establishing a quorum regardless of their failure to attend the meeting.

(e) Following the termination of any period of declarant control, the unit owners shall appoint or elect the board. All unit owners, including the declarant and its affiliates, may cast the votes allocated to any units owned by them. The board shall thereafter be subject to the following:

(1) Unless otherwise approved by a vote of unit owners other than the declarant or an affiliate of the declarant, a majority of the directors shall be unit owners or a natural person designated by a unit owner that is not a natural person, other than a declarant or an affiliate of a declarant. The remaining directors need not be unit owners unless required by the articles of incorporation or bylaws.

(2) Subject to the requirements of subsection (e)(1), the articles of incorporation or bylaws may authorize the declarant or a person designated by the declarant to appoint one director, who need not be a member. The articles of incorporation or bylaws shall not be amended to change or terminate the authorization to appoint one director without the written consent of the declarant or other person possessing the power to appoint.

(3) Subject to the requirements of subsection (e)(1), the articles of incorporation or bylaws may authorize special classes of directors and director voting rights, as follows: (i) classes of directors, (ii) the appointment or election of directors in certain classes by certain classes of members, or (iii) class voting by classes of directors on issues affecting only a certain class or classes of members, units, or other parcels of real estate, or to otherwise

protect the legitimate interest of such class or classes. No person may utilize such special classes or class voting for the purpose of evading any limitation imposed on declarants by this chapter.

(4) The board shall elect the officers. The directors and officers shall take office upon election. Elections of directors must occur regularly, as provided in section 515B.3-108. Each term of a director must not exceed three years, provided there is no limit on the number of terms a director may serve. The terms of directors must be staggered, unless the duration of the terms is one year or less. If filling a vacancy on the board of directors, the director will serve the remainder of the term vacated until a new election is held at the end of the term as provided in section 515B.3-108.

(f) In determining whether the period of declarant control has terminated under subsection (c), or whether unit owners other than a declarant are entitled to elect members of the board of directors under subsection (d), the percentage of the units conveyed shall be calculated using as a numerator the number of units conveyed and as a denominator the number of units subject to the declaration plus the number of units which the declarant is authorized by the declaration to create on any additional real estate. The percentages referred to in subsections (c) and (d) shall be calculated without reference to units that are auxiliary to other units, such as garage units or storage units. A person shall not use a master association or other device to evade the requirements of this section.

(g) Except as otherwise provided in this subsection, all meetings of the board of directors must be open to the unit owners. ~~To the extent practicable,~~ The board shall give reasonable notice to the unit owners of the date, time, and place of a board meeting. The board must make the meeting agenda, and contracts or other documents the board intends to approve or disapprove at the board meeting, available to unit owners in any reasonable manner, including but not limited to electronic mailing or posting on the association's website. The requirement to make documents available to unit owners does not apply to documents related to items discussed at a closed meeting of the board. If the date, time, and place of meetings are provided for in the declaration, articles, or bylaws, announced at a previous meeting of the board, posted in a location accessible to the unit owners and designated by the board from time to time, or if an emergency requires immediate consideration of a matter by the board, notice is not required. "Notice" has the meaning given in section 317A.011, subdivision 14. Before any action is taken on an agenda item at any board meeting open to unit owners, a unit owner, or a person designated in writing by the owner, must be permitted to speak at a time designated by the board on an agenda item. To the extent known, a unit owner must make a good faith attempt to notify the board in advance of the owner's intent

to speak on an agenda item at the meeting. Nothing prohibits a unit owner from requesting that an item be added to the agenda or providing a written comment to the board in advance of the meeting. The board may place a reasonable limit on the time a member is allowed to speak and may, after a warning by the chair of the meeting, expel any person who disrupts the meeting or causes a disturbance. A board may not impose a fine for exercising the right to speak or provide a written statement. Meetings may be closed to discuss the following:

(1) personnel matters;

(2) pending or potential litigation, arbitration or other potentially adversarial proceedings, between unit owners, between the board or association and unit owners, or other matters in which any unit owner may have an adversarial interest, if the board determines that closing the meeting is necessary to discuss strategy or to otherwise protect the position of the board or association or the privacy of a unit owner or occupant of a unit; or

(3) criminal activity arising within the common interest community if the board determines that closing the meeting is necessary to protect the privacy of the victim or that opening the meeting would jeopardize investigation of the activity.

Nothing in this subsection imposes a duty on the board to provide special facilities for meetings. The failure to give notice as required by this subsection shall not invalidate the board meeting or any action taken at the meeting. The minutes of any part of a meeting that is closed under this subsection may be kept confidential at the discretion of the board. For the purposes of this subsection, an association is not required to issue a notice or keep minutes for a meeting between board members, or between one or more board members and officers, if the subject of the meeting is solely to discuss issues related to basic maintenance, or daily operations and management of the association, in accordance with their duties as outlined in the governing documents, provided the meeting does not result in a vote or formal action by the board.

In addition to conflict of interest provisions set forth in the statute under which the association was organized, the following standards apply to elected boards:

(1) a board member must not participate in deliberations regarding or vote on the approval or disapproval of a contract to which the association is or may be a party where the board member or a member of the family of a board member has a material financial interest in the contract or is likely to realize a material financial gain as a result of entering into the contract. For the purposes of this section, "member of the family" has the meaning given in section 317A.255, subdivision 4;

(2) a board member must not solicit or accept any money or other compensation from any person as an inducement for the board member to vote in favor of the approval of a contract for property maintenance, construction, repair, or reconstruction services that is binding on the association. If an association has authorized a property manager to enter into contracts on behalf of the association, the property manager must not solicit or accept any money or other compensation from any person as an inducement to the property manager to enter into a contract for property maintenance, construction, repair, or reconstruction services that is binding on the association; and

(3) prior to entering into any contract for property maintenance, construction, repair, or reconstruction services with an estimated cost exceeding $50,000, the board or property managers must solicit a minimum of three written competitive bids. All bids from a person affiliated with a board member, a member of the family of a board member, a property manager, or any member of the family of a property manager or employee must be disclosed prior to consideration or a vote on the bids. A written record of the disclosures must be retained and recorded in the meeting minutes.

(h) The board must review all bids and select a vendor based on reasonable business criteria, including but not limited to, the cost of the project, the contractor's qualifications, available warranties, the extent to which the bidder has met the bid solicitation requirements, and the length of time estimated to complete the project.

(i) An association is not obligated to comply with the bidding requirements of this subsection if:

(1) multiple bids cannot be obtained despite reasonable efforts;

(2) emergency repairs are required to protect the health or safety of the unit owners;

(3) there has been significant damage to the property that must be addressed without delay to prevent further damage to the property;

(4) the work is covered by a warranty;

(5) the vendor is the only available vendor capable of providing the required goods or services; or

(6) the cost of materials does not exceed $50,000 and labor is performed at no charge by volunteers.

(j) The association must maintain a record of the bid selection process, including the criteria used, and the contracts awarded for the last six years, and make those records available to unit owners at cost or as otherwise provided in section 515B.3-118.

(k) A contract entered into by a declarant with a property manager shall terminate no later than 12 months after the declarant control period has ended. A contract entered into by an association with a property manager after the declarant control period has ended that does not automatically renew may be terminated by the association, with or without cause, upon three months' written notice. An association may decline to renew an automatically renewing contract for another term, provided the association gives written notice to the other party no less than three months before the date the contract will automatically renew.

**EFFECTIVE DATE.** This section is effective January 1, 2027, and applies to all association activities on or after that date.

Sec. 5. Minnesota Statutes 2024, section 515B.3-106, is amended to read:

**515B.3-106 BYLAWS; ANNUAL REPORT.**

(a) A common interest community shall have bylaws which comply with this chapter and the statute under which the association is incorporated. The bylaws and any amendments may be recorded, but need not be recorded to be effective unless so provided in the bylaws.

(b) The bylaws shall provide that, in addition to any statutory requirements:

(6) a statement of the total past due assessments on all units, current as of not more than 60 days prior to the date of the meeting.

Sec. 6. Minnesota Statutes 2024, section 515B.3-107, is amended to read:

**515B.3-107 UPKEEP OF COMMON INTEREST COMMUNITY.**

(a) Except to the extent provided by the declaration, this subsection or section 515B.3-113, the association is responsible for the maintenance, repair and replacement of the common elements, and each unit owner is responsible for the maintenance, repair and replacement of the unit owner's unit. Damage to the common elements or any unit as a result of the acts or omissions of a unit owner or the association, including damage resulting from the unit owner's or association's lack of maintenance or failure to perform necessary repairs or replacement, is the responsibility of the unit owner or association responsible for causing the damage, or whose agents or invitees caused the damage.

(b) The association's board of directors shall prepare and approve a written preventative maintenance plan, maintenance schedule, and maintenance budget for the common elements. The association shall follow the approved preventative maintenance plan. The association's board may amend, modify, or replace an approved preventative maintenance plan or an approved maintenance schedule from time to time. The association must provide all unit owners with a paper copy, electronic copy, or electronic access to the preventative maintenance plan, the maintenance schedule, and any amendments or modifications to or replacements of the preventative maintenance plan and the maintenance schedule. If a common interest community was created on or before August 1, 2017, the association's board of directors shall have until January 1, 2019, to comply with the requirements of this subsection.

(c) The association shall have access through and into each unit for purposes of performing maintenance, repair or replacement for which the association may be responsible. The association and any public safety personnel shall also have access for purposes of abating or correcting any condition in the unit which violates any governmental law, ordinance or regulation, which may cause material damage to or jeopardize the safety of

the common interest community, or which may constitute a health or safety hazard for occupants of units.

(d) Neither the association, nor any unit owner other than the declarant or its affiliates, is subject to a claim for payment of expenses incurred in connection with any additional real estate.

(e) An association with authority under the declaration to approve or disapprove a request by a unit owner who has a right granted under this chapter, or the declaration, to make alterations to the owner's unit must establish, by rule or regulation, a fair, reasonable, and expeditious procedure for making any decision on the proposed alteration. The association must provide the procedure to a unit owner who requests an alteration. Unless the declaration, bylaws, or rules and regulations provide for a different period, the board or a committee appointed by the board must make a decision within 90 days after submission of an application that contains all the information required or any additional information or changes to the proposal requested by the association's board. A decision must be in writing, must be made in accordance with the standards of conduct for directors set forth in the statute under which the association is organized, and must be reasonable.

(f) An association has no authority to regulate the parking of a unit owner or a guest, tenant, or invitee of the unit owner within an improved public right of way that a unit of government maintains and repairs, except that the association may, in its declaration or by rule or regulation, require compliance with all applicable statutes, laws, and ordinances. Absent legislative authorization, a unit of government does not have the authority to delegate its police powers to a private entity. If an association is an authorized delegatee, the delegation is valid for a period not to exceed five years, at which time it may be renewed upon application by the association and agreement of the unit of government. As used in this subsection, "personal vehicle" means an automobile with a gross vehicle weight of less than 26,001 pounds that is used for personal pleasure, travel, or commuting to and from a place of work, including but not limited to a van, pickup truck, small truck, ambulance, law enforcement vehicle, emergency response vehicle, or utility company vehicle. A personal vehicle does not include a motor home, a self-propelled recreational vehicle, or a commercial vehicle used primarily for commercial business unless otherwise stated in this section. A unit owner or resident must be permitted to park a personal or work vehicle on the portion of the unit owner's property or the portion of the limited common element allocated to the unit that was originally designed or subsequently modified for the parking of vehicles, provided the vehicle, when parked, does not encroach on another unit owner's property, fully or partially block access to a pedestrian walkway, or interfere with the association's

ability to maintain roads, driveways, parking spaces, common elements, or limited common elements.

**EFFECTIVE DATE.** This section is effective January 1, 2027.

Sec. 7. Minnesota Statutes 2024, section 515B.3-115, is amended to read:

**515B.3-115 ASSESSMENTS FOR COMMON EXPENSES; CIC CREATED BEFORE AUGUST 1, 2010.**

(a) The obligation of a unit owner to pay common expense assessments shall be as follows:

(1) If a common expense assessment has not been levied, the declarant shall pay all operating expenses of the common interest community, and shall fund the replacement reserve component of the common expenses as required by subsection (b).

(2) If a common expense assessment has been levied, all unit owners, including the declarant, shall pay the assessments allocated to their units, subject to the following:

(i) If the declaration so provides, a declarant's liability, and the assessment lien, for the common expense assessments, exclusive of replacement reserves, on any unit owned by the declarant may be limited to 25 percent or more of any assessment, exclusive of replacement reserves, until the unit or any building located in the unit is substantially completed. Substantial completion shall be evidenced by a certificate of occupancy in any jurisdiction that issues the certificate.

(ii) If the declaration provides for a reduced assessment pursuant to paragraph (2)(i), the declarant shall be obligated, within 60 days following the termination of the period of declarant control, to make up any operating deficit incurred by the association during the period of declarant control. The existence and amount, if any, of the operating deficit shall be determined using the accrual basis of accounting applied as of the date of termination of the period of declarant control, regardless of the accounting methodology previously used by the association to maintain its accounts.

(b) The replacement reserve component of the common expenses shall be funded for each unit in accordance with the projected annual budget required by section 515B.4-102(a)(23) provided that the funding of replacement reserves with respect to a unit shall commence no later than the date that the unit or any building located within the unit boundaries is substantially completed. Substantial completion shall be evidenced by a certificate of occupancy in any jurisdiction that issues the certificate.

(c) After an assessment has been levied by the association, assessments shall be levied at least annually, based upon a budget approved at least annually by the association. The association shall make available in any reasonable manner a copy of the proposed budget prior to the meeting at which the budget is scheduled to be discussed and approved.

(d) Except as modified by subsections (a)(1) and (2), (e), (f), and (g), all common expenses shall be assessed against all the units in accordance with the allocations established by the declaration pursuant to section 515B.2-108.

(e) Unless otherwise required by the declaration:

(1) any common expense associated with the maintenance, repair, or replacement of a limited common element shall be assessed against the units to which that limited common element is assigned, equally, or in any other proportion the declaration provides;

(2) any common expense or portion thereof benefiting fewer than all of the units may be assessed exclusively against the units benefited, equally, or in any other proportion the declaration provides;

(3) the costs of insurance may be assessed in proportion to risk or coverage, and the costs of utilities may be assessed in proportion to usage;

(4) subject to section 515B.3-102(a)(11), reasonable attorney fees and costs incurred by the association in connection with (i) the collection of assessments against a unit owner, and (ii) the enforcement of this chapter, the articles, bylaws, declaration, or rules and regulations against a unit owner, may be assessed against the unit owner's unit subject to section 515B.3-116(h); and

(5) fees, charges, late charges, fines and interest may be assessed as provided in section 515B.3-116(a).

(f) Assessments levied under section 515B.3-116 to pay a judgment against the association may be levied only against the units in the common interest community at the time the judgment was entered, in proportion to their common expense liabilities.

(g) If any damage to the common elements or another unit is caused by the act or omission of any unit owner, or occupant of a unit, or their invitees, the association may assess the costs of repairing the damage exclusively against the unit owner's unit to the extent not covered by insurance.

(h) Subject to any shorter period specified by the declaration or bylaws, if any installment of an assessment becomes more than 60 days past due, then the association may, upon ten days' written notice to the unit owner, declare the entire amount of the assessment

immediately due and payable in full, except that any portion of the assessment that represents installments that are not due and payable without acceleration as of the date of reinstatement must not be included in the amount that a unit owner must pay to reinstate under section 580.30 or chapter 581.

(i) If common expense liabilities are reallocated for any purpose authorized by this chapter, common expense assessments and any installment thereof not yet due shall be recalculated in accordance with the reallocated common expense liabilities.

(j) An assessment against fewer than all of the units must be levied within three years after the event or circumstances forming the basis for the assessment, or shall be barred.

(k) An association must adopt a collection policy and provide a copy to all unit owners. The collection policy must require, at a minimum:

(1) three separate notifications to a unit owner before the account is referred to a law firm or collection agency for collections, including at least one notification sent by certified mail to the unit owner's registered address; and

(2) a law firm, engaged by the board to foreclose an association's lien for assessments, to send the notice required pursuant to section 580.021 by United States mail and certified mail to the unit owner.

~~(k)~~ (l) This section applies only to common interest communities created before August 1, 2010.

**EFFECTIVE DATE.** This section is effective January 1, 2027.

Sec. 8. Minnesota Statutes 2024, section 515B.3-1151, is amended to read:

**515B.3-1151 ASSESSMENTS FOR COMMON EXPENSES; CIC CREATED ON OR AFTER AUGUST 1, 2010.**

(a) The association shall approve an annual budget of common expenses at or prior to the conveyance of the first unit in the common interest community to a purchaser and annually thereafter. The annual budget shall include all customary and necessary operating expenses and replacement reserves for the common interest community, consistent with this section and section 515B.3-114. For purposes of replacement reserves under subsection (b), until an annual budget has been approved, the reserves shall be paid based upon the budget contained in the disclosure statement required by section 515B.4-102. The obligation of a unit owner to pay common expenses shall be as follows:

(1) If a common expense assessment has not been levied by the association, the declarant shall pay all common expenses of the common interest community, including the payment of the replacement reserve component of the common expenses for all units in compliance with subsection (b).

(2) If a common expense assessment has been levied by the association, all unit owners, including the declarant, shall pay the assessments levied against their units, except as follows:

(i) The declaration may provide for an alternate common expense plan whereby the declarant's common expense liability, and the corresponding assessment lien against the units owned by the declarant, is limited to: (A) paying when due, in compliance with subsection (b), an amount equal to the full share of the replacement reserves allocated to units owned by the declarant, as set forth in the association's annual budget approved as provided in this subsection; and (B) paying when due all accrued expenses of the common interest community in excess of the aggregate assessments payable with respect to units owned by persons other than a declarant; provided, that the alternate common expense plan shall not affect a declarant's obligation to make up any operating deficit pursuant to item (iv), and shall terminate upon the termination of any period of declarant control unless terminated earlier pursuant to item (iii).

(ii) The alternate common expense plan may be authorized only by including in the declaration and the disclosure statement required by section 515B.4-102 provisions authorizing and disclosing the alternate common expense plan as described in item (i), and including in the disclosure statement either (A) a statement that the alternate common expense plan will have no effect on the level of services or amenities anticipated by the association's budget contained in the disclosure statement, or (B) a statement describing how the services or amenities may be affected.

(iii) A declarant shall give notice to the association of its intent to utilize the alternate common expense plan and a commencement date after the date the notice is given. The alternate common expense plan shall be valid only for periods after the notice is given. A declarant may terminate its right to utilize the alternate common expense plan prior to the termination of the period of declarant control only by giving notice to the association and the unit owners at least 30 days prior to a selected termination date set forth in the notice.

(iv) If a declarant utilizes an alternate common expense plan, that declarant shall cause to be prepared and delivered to the association, at the declarant's expense, within 90 days after the termination of the period of declarant control, an audited balance sheet and profit and loss statement certified to the association and prepared by an accountant having the

qualifications set forth in section 515B.3-121(b). The audit shall be binding on the declarant and the association.

(v) If the audited profit and loss statement shows an accumulated operating deficit, the declarant shall be obligated to make up the deficit within 15 days after delivery of the audit to the association, and the association shall have a claim against the declarant for an amount equal to the deficit until paid. A declarant who does not utilize an alternate common expense plan is not liable to make up any operating deficit. If more than one declarant utilizes an alternate common expense plan, all declarants who utilize the plan are jointly and severally liable to the association for any operating deficit.

(vi) The existence and amount, if any, of the operating deficit shall be determined using the accrual method of accounting applied as of the date of termination of the period of declarant control, regardless of the accounting methodology previously used by the association to maintain its accounts.

(vii) Unless approved by a vote of the unit owners other than the declarant and its affiliates, the operating deficit shall not be made up, prior to the election by the unit owners of a board of directors pursuant to section 515B.3-103(d), through the use of a special assessment described in subsection (c) or by assessments described in subsections (e), (f), and (g).

(viii) The use by a declarant of an alternate common expense plan shall not affect the obligations of the declarant or the association as provided in the declaration, the bylaws, or this chapter, or as represented in the disclosure statement required by section 515B.4-102, except as to matters authorized by this chapter.

(b) The replacement reserves required by section 515B.3-114 shall be paid to the association by each unit owner for each unit owned by that unit owner in accordance with the association's annual budget approved pursuant to subsection (a), regardless of whether an annual assessment has been levied or whether the declarant has utilized an alternate common expense plan under subsection (a)(2). Replacement reserves shall be paid with respect to a unit commencing as of the later of (1) the date of creation of the common interest community or (2) the date that the structure and exterior of the building containing the unit, or the structure and exterior of any building located within the unit boundaries, but excluding the interior finishing of the structure itself, are substantially completed. If the association has not approved an annual budget as of the commencement date for the payment of replacement reserves, then the reserves shall be paid based upon the budget contained in the disclosure statement required by section 515B.4-102.

(c) After an assessment has been levied by the association, assessments shall be levied at least annually, based upon an annual budget approved by the association. The association shall make available, in any reasonable manner, a copy of the proposed budget prior to the meeting at which the budget is scheduled to be discussed and approved. In addition to and not in lieu of annual assessments, an association may, if so provided in the declaration, levy special assessments against all units in the common interest community based upon the same formula required by the declaration for levying annual assessments. Special assessments may be levied only (1) to cover expenditures of an emergency nature, (2) to replenish underfunded replacement reserves, (3) to cover unbudgeted capital expenditures or operating expenses, or (4) to replace certain components of the common interest community described in section 515B.3-114(a), if such alternative method of funding is approved under section 515B.3-114(a)(5). The association may also levy assessments against fewer than all units as provided in subsections (e), (f), and (g). An assessment under subsection (e)(2) for replacement reserves is subject to the requirements of section 515B.3-1141(a)(5).

(d) Except as modified by subsections (a), clauses (1) and (2), (e), (f), and (g), all common expenses shall be assessed against all the units in accordance with the allocations established by the declaration pursuant to section 515B.2-108.

(e) Unless otherwise required by the declaration:

(1) any common expense associated with the maintenance, repair, or replacement of a limited common element shall be assessed against the units to which that limited common element is assigned, equally, or in any other proportion the declaration provides;

(2) any common expense or portion thereof benefiting fewer than all of the units may be assessed exclusively against the units benefited, equally, or in any other proportion the declaration provides;

(3) the costs of insurance may be assessed in proportion to risk or coverage, and the costs of utilities may be assessed in proportion to usage;

(4) subject to section 515B.3-102(a)(11), reasonable attorney fees and costs incurred by the association in connection with (i) the collection of assessments, and (ii) the enforcement of this chapter, the articles, bylaws, declaration, or rules and regulations, against a unit owner, may be assessed against the unit owner's unit, subject to section 515B.3-116(h); and

(5) fees, charges, late charges, fines, and interest may be assessed as provided in section 515B.3-116(a).

(f) Assessments levied under section 515B.3-116 to pay a judgment against the association may be levied only against the units in the common interest community at the time the judgment was entered, in proportion to their common expense liabilities.

(g) If any damage to the common elements or another unit is caused by the act or omission of any unit owner, or occupant of a unit, or their invitees, the association may assess the costs of repairing the damage exclusively against the unit owner's unit to the extent not covered by insurance.

(h) Subject to any shorter period specified by the declaration or bylaws, if any installment of an assessment becomes more than 60 days past due, then the association may, upon ten days' written notice to the unit owner, declare the entire amount of the assessment immediately due and payable in full, except that any portion of the assessment that represents installments that are not due and payable without acceleration as of the date of reinstatement must not be included in the amount that a unit owner must pay to reinstate under section 580.30 or chapter 581.

(i) If common expense liabilities are reallocated for any purpose authorized by this chapter, common expense assessments and any installment thereof not yet due shall be recalculated in accordance with the reallocated common expense liabilities.

(j) An assessment against fewer than all of the units must be levied within three years after the event or circumstances forming the basis for the assessment, or shall be barred.

(k) An association must adopt a collection policy and provide a copy to all unit owners. The collection policy must require, at a minimum:

(1) three separate notifications to a unit owner before the account is referred to a law firm or collection agency for collections, including at least one notification sent by certified mail to the unit owner's registered address; and

(2) a law firm, engaged by the board to foreclose an association's lien for assessments, to send the notice required pursuant to section 580.021 by United States mail and certified mail to the unit owner.

~~(k)~~ (l) This section applies only to common interest communities created on or after August 1, 2010.

**EFFECTIVE DATE.** This section is effective January 1, 2027.

Sec. 9. Minnesota Statutes 2024, section 515B.3-116, is amended to read:

**515B.3-116 LIEN FOR ASSESSMENTS.**

(a) The association has a lien on a unit for any assessment levied against that unit from the time the assessment becomes due. If an assessment is payable in installments, the full amount of the assessment is a lien from the time the first installment thereof becomes due. Unless the declaration otherwise provides, fees, charges, fines as specified in subsection (h), and late charges~~, fines and interest charges pursuant to section 515B.3-102(a)(10), (11) and (12)~~ are liens, and are enforceable as assessments, under this section. Recording of the declaration constitutes record notice and perfection of any assessment lien under this section, and no further recording of any notice of or claim for the lien is required.

(b) Subject to subsection (c), a lien under this section is prior to all other liens and encumbrances on a unit except (i) liens and encumbrances recorded before the declaration and, in a cooperative, liens and encumbrances which the association creates, assumes, or takes subject to, (ii) any first mortgage encumbering the fee simple interest in the unit, or, in a cooperative, any first security interest encumbering only the unit owner's interest in the unit, (iii) liens for real estate taxes and other governmental assessments or charges against the unit, and (iv) a master association lien under section 515B.2-121(h). This subsection shall not affect the priority of mechanic's liens.

(c) If a first mortgage on a unit is foreclosed, the first mortgage was recorded after June 1, 1994, and no owner or person who acquires the owner's interest in the unit redeems pursuant to chapter 580, 581, or 582, the holder of the sheriff's certificate of sale from the foreclosure of the first mortgage or any person who acquires title to the unit by redemption as a junior creditor shall take title to the unit subject to a lien in favor of the association for unpaid assessments for common expenses levied pursuant to section 515B.3-115(a), (e)(1) to (3), (f), and (i) which became due, without acceleration, during the six months immediately preceding the end of the owner's period of redemption. The common expenses shall be based upon the association's then current annual budget, notwithstanding the use of an alternate common expense plan under section 515B.3-115(a)(2). If a first security interest encumbering a unit owner's interest in a cooperative unit which is personal property is foreclosed, the secured party or the purchaser at the sale shall take title to the unit subject to unpaid assessments for common expenses levied pursuant to section 515B.3-115(a), (e)(1) to (3), (f), and (i) which became due, without acceleration, during the six months immediately preceding the first day following either the disposition date pursuant to section 336.9-610 or the date on which the obligation of the unit owner is discharged pursuant to section 336.9-622.

(d) Proceedings to enforce an assessment lien shall be instituted within three years after the last installment of the assessment becomes payable, or shall be barred.

(e) The unit owner of a unit at the time an assessment is due shall be personally liable to the association for payment of the assessment levied against the unit. If there are multiple owners of the unit, they shall be jointly and severally liable.

(f) This section does not prohibit actions to recover sums for which subsection (a) creates a lien nor prohibit an association from taking a deed in lieu of foreclosure.

(g) The association shall furnish to a unit owner or the owner's authorized agent upon written request of the unit owner or the authorized agent a statement setting forth the amount of unpaid assessments currently levied against the owner's unit. If the unit owner's interest is real estate, the statement shall be in recordable form. The statement shall be furnished within ten business days after receipt of the request and is binding on the association and every unit owner.

(h) The association's lien may be foreclosed as provided in this subsection~~.~~, provided that an association may not commence foreclosure unless common expenses and special assessments and fines that meet the conditions for exception to the limit specified in section 515B.3-102(a)(11), are delinquent for more than three months.

(1) In a condominium or planned community, regardless of when the condominium or planned community was created, the association's lien may be foreclosed in a like manner as a mortgage containing a power of sale pursuant to chapter 580, or by action pursuant to chapter 581. The association shall have a power of sale to foreclose the lien pursuant to chapter 580, except that any portion of the assessment that represents attorney fees or costs shall not be included in the amount a unit owner must pay to reinstate under section 580.30 or chapter 581.

(2) In a cooperative whose unit owners' interests are real estate, the association's lien shall be foreclosed in a like manner as a mortgage on real estate as provided in paragraph (1).

(3) In a cooperative whose unit owners' interests in the units are personal property, the association's lien shall be foreclosed in a like manner as a security interest under article 9 of chapter 336. In any disposition pursuant to section 336.9-610 or retention pursuant to sections 336.9-620 to 336.9-622, the rights of the parties shall be the same as those provided by law, except (i) notice of sale, disposition, or retention shall be served on the unit owner 90 days prior to sale, disposition, or retention, (ii) the association shall be entitled to its reasonable costs and attorney fees not exceeding the amount provided by section 582.01,

subdivision 1a, (iii) the amount of the association's lien shall be deemed to be adequate consideration for the unit subject to disposition or retention, notwithstanding the value of the unit, and (iv) the notice of sale, disposition, or retention shall contain the following statement in capital letters with the name of the association or secured party filled in:

"THIS IS TO INFORM YOU THAT BY THIS NOTICE (fill in name of association or secured party) HAS BEGUN PROCEEDINGS UNDER MINNESOTA STATUTES, CHAPTER 515B, TO FORECLOSE ON YOUR INTEREST IN YOUR UNIT FOR THE REASON SPECIFIED IN THIS NOTICE. IF YOU DO NOT DO ONE OR THE OTHER OF THE ABOVE THINGS WITHIN THE TIME PERIOD SPECIFIED IN THIS NOTICE, YOUR OWNERSHIP RIGHTS IN YOUR UNIT WILL TERMINATE AT THE END OF THE PERIOD, YOU WILL LOSE ALL THE MONEY YOU HAVE PAID FOR YOUR UNIT, YOU WILL LOSE YOUR RIGHT TO POSSESSION OF YOUR UNIT, YOU MAY LOSE YOUR RIGHT TO ASSERT ANY CLAIMS OR DEFENSES THAT YOU MIGHT HAVE, AND YOU WILL BE EVICTED. IF YOU HAVE ANY QUESTIONS ABOUT THIS NOTICE, CONTACT AN ATTORNEY IMMEDIATELY."

(4) In any foreclosure pursuant to chapter 580, 581, or 582, the rights of the parties shall be the same as those provided by law, except (i) the period of redemption for unit owners shall be six months from the date of sale or a lesser period authorized by law, (ii) in a foreclosure by advertisement under chapter 580, the foreclosing party shall be entitled to costs and disbursements of foreclosure and attorney fees authorized by the declaration or bylaws, notwithstanding the provisions of section 582.01, subdivisions 1 and 1a, (iii) in a foreclosure by action under chapter 581, the foreclosing party shall be entitled to costs and disbursements of foreclosure and attorney fees as the court shall determine, and (iv) the amount of the association's lien shall be deemed to be adequate consideration for the unit subject to foreclosure, notwithstanding the value of the unit.

(i) If a holder of a sheriff's certificate of sale, prior to the expiration of the period of redemption, pays any past due or current assessments, or any other charges lienable as assessments, with respect to the unit described in the sheriff's certificate, then the amount paid shall be a part of the sum required to be paid to redeem under section 582.03.

(j) In a cooperative, if the unit owner fails to redeem before the expiration of the redemption period in a foreclosure of the association's assessment lien, the association may bring an action for eviction against the unit owner and any persons in possession of the unit, and in that case section 504B.291 shall not apply.

(k) An association may assign its lien rights in the same manner as any other secured party.

**EFFECTIVE DATE.** This section is effective January 1, 2027, and applies to foreclosures commenced on or after that date.

Sec. 10. **[515B.3-125] LEGAL FEES; NOTICE REQUIRED.**

(a) If an association elects to refer a unit owner's inquiry to the association's legal counsel, the association must notify the unit owner in advance that the association:

(c) If the common interest community is subject to a master declaration and governed by a master association to which has been delegated any of the association's powers under section 515B.3-102(a)(2), then the financial information required to be disclosed under subsection (b) may be disclosed on a consolidated basis.

(d) The association, within ten days after a request by a unit owner, or the unit owner's authorized representative, shall furnish the certificate required in subsection (a). The association may charge a reasonable fee for furnishing the certificate and any association documents related thereto. A unit owner providing a certificate pursuant to subsection (a) is not liable to the purchaser for any erroneous information provided by the association and included in the certificate. A unit owner who has acquired title to a unit pursuant to section 515B.3-104 including, but not limited to, a unit owner who has acquired title through foreclosure or a deed in lieu of foreclosure, must indicate to the association in connection with a request for a resale disclosure certificate whether the requesting unit owner is or is not a declarant. The unit owner, not the association, is liable for any damage, loss, or other consequence arising out of the incorrect representation of its declarant status.

(e) A purchaser is not liable for any unpaid common expense assessments, including special assessments, if any, not set forth in the certificate required in subsection (a). A purchaser is not liable for the amount by which the annual or special assessments exceed the amount of annual or special assessments stated in the certificate for assessments payable in the year in which the certificate was given, except to the extent of any increases subsequently approved in accordance with the declaration or bylaws. A unit owner is not liable to a purchaser for the failure of the association to provide the certificate, or a delay by the association in providing the certificate in a timely manner.

(f) A purchaser should be aware of the following information:

(1) purchasing a unit in the common interest community will impact property rights and may impose certain obligations on a unit owner;

(2) governing documents for a common interest community dictate how decisions will be made related to the property, including financial decisions, maintenance decisions, and restrictions on the use of the property, which may include but not be limited to restrictions on parking, appearance, noise, smoking, pets, and rental of your unit;

Sec. 13. Minnesota Statutes 2024, section 515B.4-116, is amended to read:

**515B.4-116 RIGHTS OF ACTION; RETALIATION PROHIBITED; ATTORNEY'S FEES.**

(a) In addition to any other rights to recover damages, attorney's fees, costs or expenses, whether authorized by this chapter or otherwise, if a declarant, an association, or any other person violates any provision of this chapter, or any provision of the declaration, bylaws, or rules and regulations any person or class of persons adversely affected by the failure to comply has a claim for appropriate relief. Subject to the requirements of section 515B.3-102, the association shall have standing to pursue claims on behalf of the unit owners of two or more units.

(b) The court may award reasonable attorney's fees and costs of litigation to the prevailing party. Punitive damages may be awarded for a willful failure to comply.

(c) As a condition precedent to any construction defect claim, the parties to the claim must submit the matter to mediation before a mutually agreeable neutral third party. For the purposes of this section, mediation has the meaning given under the General Rules of Practice, rule 114.02 (7). If the parties are not able to agree on a neutral third-party mediator from the roster maintained by the Minnesota Supreme Court, the parties may petition the district court in the jurisdiction in which the common interest community is located to appoint a mediator. The applicable statute of limitations and statute of repose for an action based on breach of a warranty imposed by this section, or any other action in contract, tort, or other law for any injury to real or personal property or bodily injury or wrongful death arising out of the alleged construction defect, is tolled from the date that any party makes a written demand for mediation under this section until the latest of the following:

(1) five business days after mediation is completed; or

(2) 180 days.

Notwithstanding the foregoing, mediation shall not be required prior to commencement of a construction defect claim if the parties have completed home warranty dispute resolution under section 327A.051.

(d) The remedies provided for under this chapter are not exclusive and do not abrogate any remedies under other statutes or the common law, notwithstanding whether those remedies are referred to in this chapter.

(e) An association may not retaliate against a unit owner for asserting any right the unit owner has under this chapter or other law. For the purposes of this section, "retaliation" means to restrict any right or privilege a unit owner has, or impose any fine, penalty, or other charge on a unit owner, not authorized under the declaration, bylaws, or rules or regulations. Retaliation does not include commencing a foreclosure action for a fine that remains unpaid after the time allowed for payment, after the board has adopted a resolution upholding a fine under section 515B.3-102(a)(11).

(f) A disclosure by the association of data in violation of the Safe at Home program under section 5B.05, paragraph (d), is a violation of this chapter.

**EFFECTIVE DATE.** This section is effective January 1, 2027.

Sec. 14. **[515B.5-101] LOCAL GOVERNMENT REGULATIONS.**

Subdivision 1. **Definition.** For purposes of this section, "local government" means a county; a town; a municipality as defined in section 462.352, subdivision 2; a joint planning board; or a public corporation, including the Metropolitan Council.

Subd. 2. **Prohibited regulations.** Except as required by state or federal law or rule, a local government must not condition approval of a residential building permit or conditional use permit, residential subdivision development or residential planned unit development, or any other permit related to residential development on the:

(1) creation of a homeowners association;

(2) inclusion of any service, feature, or common property necessitating a homeowners association, unless requested by the developer;

(3) inclusion of any terms in a homeowners association declaration, bylaws, articles of incorporation, or any other governing document; or

(4) adoption or revocation of, or amendment to, a rule or regulation governing the homeowners association or its members.

Subd. 3. **Exemptions.** Nothing in this section prohibits:

(1) a local government from requiring the maintenance or insurance of common elements; or

(2) a project applicant from providing an easement to access public infrastructure.

**EFFECTIVE DATE.** This section is effective January 1, 2027, for all common interest communities created on or after that date.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. **CONSTITUTIONAL AMENDMENT PROPOSED.**

An amendment to the Minnesota Constitution is proposed to the people. If the amendment is adopted, article XI, section 8, will read:

Sec. 8. The permanent school fund of the state consists of (a) the proceeds of lands granted by the United States for the use of schools within each township, (b) the proceeds derived from swamp lands granted to the state, (c) all cash and investments credited to the permanent school fund and to the swamp land fund, and (d) all cash and investments credited to the internal improvement land fund and the lands therein. No portion of these lands shall be sold otherwise than at public sale, and in the manner provided by law. All funds arising from the sale or other disposition of the lands, or income accruing in any way before the sale or disposition thereof, shall be credited to the permanent school fund. Within limitations prescribed by law, the fund shall be invested ~~to secure the maximum return consistent with the maintenance of the perpetuity of the fund. The principal of the permanent school fund shall be perpetual and inviolate forever. This does not prevent the sale of investments at less than the cost to the fund; however, all losses not offset by gains shall be repaid to the fund from the interest and dividends earned thereafter. The net interest and dividends arising from the fund shall be distributed~~ and managed as a perpetual financial resource for the sole purpose of apportioning money to the different school districts of the state. Management

of the fund shall be designed to provide annual distributions while preserving the purchasing power of the fund over time and balancing the needs of current and future beneficiaries. Reasonable and necessary administrative costs associated with managing the fund or school trust lands may be paid from the fund in the manner prescribed by law. The distribution policy shall be prescribed by law and consistent with the aforementioned principles. Distributions from the fund shall be apportioned to the different school districts of the state in a manner prescribed by law.

A board of investment consisting of the governor, the state auditor, the secretary of state, and the attorney general is constituted for the purpose of administering and directing the investment of all state funds. The board shall not permit state funds to be used for the underwriting or direct purchase of municipal securities from the issuer or the issuer's agent.

Sec. 2. **SUBMISSION TO VOTERS.**

(a) The proposed amendment must be submitted to the people at the 2026 state general election. The question submitted must be:

"Shall the Minnesota Constitution be amended to increase the funding going to all school districts from the permanent school fund, which is a fund that supports school districts without raising individual income or property taxes, effective July 1, 2027?

Yes .....

No ..... "

(b) The title required under Minnesota Statutes, section 204D.15, subdivision 1, for the question submitted to the people under paragraph (a) shall be: "Increasing funding to school districts."

Sec. 3. Minnesota Statutes 2024, section 11A.16, subdivision 5, is amended to read:

Subd. 5. **Calculation of ~~income~~ distributable amount.** ~~As of the end of each fiscal year,~~ (a) The state board shall calculate the ~~investment income earned by~~ distributable amount of the permanent school fund. The ~~investment income earned by the fund~~ distributable amount shall equal ~~the amount of interest on debt securities, dividends on equity securities, and interest earned on certified monthly earnings prior to the transfer to the Department of Education. Gains and losses arising from the sale of securities shall be apportioned as follows:~~ 4.5 percent of the average net asset value of the permanent school fund as of the end of the preceding three fiscal years.

~~(a) If the sale of securities results in a net gain during a fiscal year, the gain shall be apportioned in equal installments over the next ten fiscal years to offset net losses in those years. If any portion of an installment is not needed to recover subsequent losses identified in paragraph (b) it shall be added to the principal of the fund.~~

~~(b) If the sale of securities results in a net loss during a fiscal year, the net loss shall be recovered first from the gains in paragraph (a) apportioned to that fiscal year. If these gains are insufficient, any remaining net loss shall be recovered from interest and dividend income in equal installments over the following ten fiscal years.~~

(b) The director shall report by August 15 the distributable amount to the Legislative Permanent School Fund Commission established in section 127A.30 and the commissioner of education.

Sec. 4. Minnesota Statutes 2024, section 11A.16, subdivision 6, is amended to read:

Subd. 6. **Disposition of ~~income~~ distributable amount.** ~~Notwithstanding provisions of section 11A.12,~~ The ~~income~~ commissioner of management and budget shall transfer the distributable amount of the permanent school fund as calculated pursuant to subdivision 5~~, shall be credited to the permanent school fund, and transferred~~ to the school endowment fund as needed for payments made pursuant to section 127A.32.

Sec. 5. Minnesota Statutes 2024, section 127A.32, is amended to read:

**127A.32 SCHOOL ENDOWMENT FUND; DESIGNATION.**

For the purpose of aid to public schools, a school endowment fund is established.

The school endowment fund shall consist of the ~~income~~ distributable amounts from the permanent school fund. The commissioner may accept for and on behalf of the permanent school fund a donation of cash, marketable securities, or other personal property. A noncash donation, other than a donation of marketable securities, must be disposed of for cash as soon as the commissioner can obtain fair market value for the donation. Marketable securities may be disposed of at the discretion of the State Board of Investment consistent with sections 11A.16 and 11A.24. A cash donation and the cash receipts from a donation disposed of for cash must be credited immediately to the permanent school fund. Earnings from marketable securities are earnings of the permanent school fund.

The total amount of leave used under this section may not exceed three hours in a 12-month period, and must be determined by the employee. A state employee seeking leave from work under this section must provide 14 days' notice to the appointing authority. This leave must not affect the employee's vacation leave, pension, compensatory time, personal vacation days, sick leave, earned overtime accumulation, or cause a loss of seniority. ~~For the purposes of this section, "state employee" does not include an employee of the Minnesota State Colleges and Universities.~~

Sec. 2. Minnesota Statutes 2024, section 135A.012, is amended to read:

**135A.012 ~~HIGHER EDUCATION~~ EDUCATIONAL ATTAINMENT GOAL.**

Subdivision 1. **Purpose.** This section sets a goal for postsecondary education and workforce training credential attainment for Minnesota residents.

Subd. 2. **Postsecondary credentials.** The number of Minnesota residents ages ~~25 to 44~~ 24 to 55 years who hold postsecondary ~~or industry-recognized~~ credentials should be increased to at least ~~70~~ 75 percent by ~~2025~~ the end of the 2040 calendar year, with subgoals for critical educational benchmarks in early childhood and kindergarten through grade 12 education to be established under subdivision 6.

Subd. 3. **Rights not created.** The attainment goal in this section is not to the exclusion of any other goals and does not confer a right or create a claim for any person.

Subd. 4. **Data development and analyses.** The Office of Higher Education shall work with the state demographer's office to measure progress towards the attainment of the goal specified in subdivision 2. The United States Census Bureau data shall be used to calculate the number of individuals in the state who hold a postsecondary degree. The Office of Higher Education~~,~~ and the state demographer's office~~, the Department of Employment and Economic Development, and the Department of Labor and Industry~~ shall develop a methodology to estimate the number of individuals that hold a credential awarded by a postsecondary institution or, when possible, recognized by an industry authority as their highest credential using data available at the time that the analysis is completed.

(b) Meeting and maintaining the goal of ~~70~~ 75 percent of Minnesota residents ages ~~25 to 44~~ 24 to 55 years holding a postsecondary or, when possible, industry-recognized credential will likely be difficult without achieving attainment rates that are comparable across all race and ethnicity groups and regions of the state, using existing statewide economic development regions, and by gender. The Office of Higher Education shall utilize benchmarks of ~~30~~ 50 percent ~~or higher~~ and ~~50~~ 75 percent ~~or higher~~ to report progress by ~~race and ethnicity groups~~ these subpopulations toward meeting the educational attainment rate goal of ~~70~~ 75 percent. The Office of Higher Education will additionally report on interim progress of these subpopulations toward the 75 percent goal in 2031 and 2036.

Subd. 6. **Implementation and coordination.** The Office of Higher Education, in collaboration with the Minnesota P-20 Education Partnership, shall jointly implement, monitor, assess, and report on progress toward meeting the attainment goal established under subdivision 2. Activities under this subdivision include but are not limited to:

(1) ongoing consultation with relevant stakeholders;

(3) collaborating with other state agencies and additional key stakeholders to ensure alignment with other statewide goals and priorities; and

(4) identifying subgoals for critical benchmarks in early childhood and kindergarten through grade 12 education that assist in reaching the attainment goal.

Sec. 7. **[15E.25] POWERS AND DUTIES.**

Subdivision 1. **Authorized powers and responsibilities.** The inspector general is authorized and responsible to:

(1) establish standards and best practices concerning the operation, investigations, and fraud prevention processes of agency inspectors general, and periodically review agency compliance with these standards and best practices. Agencies must follow standards developed by the inspector general under this clause;

(2) facilitate information sharing between agencies, including coordinating investigations that involve multiple agencies and designating a lead agency, coordinating and assisting agency identification and review of suspicious documents and data anomalies, and alerting other agencies when a person suspected of committing fraud against any agency program may also be participating in, or applying to participate in, a program administered by another agency;

(3) evaluate the performance of agency inspector general offices and recommend improvements, as needed, to the agency's head and inspector general. An agency head that receives a recommendation under this clause must report annually to the chairs and ranking minority members of the legislative committees with jurisdiction over the agency regarding the agency's implementation of the inspector general's recommendations until the inspector general notifies the agency head and the chairs and ranking members that the recommendation was resolved in a satisfactory manner;

(4) conduct inspections, evaluations, and investigations of agencies and programs, with a focus on recipients of public funds and publicly funded services, to: (i) identify fraud and misuse; (ii) make recommendations for changes to programs to prevent fraud and misuse; and (iii) protect the integrity of the use of public funds, data, and systems;

(5) refer matters for civil, criminal, or administrative action to the Office of the Inspector General Anti-Fraud and Waste Bureau under section 15E.27, the Bureau of Criminal Apprehension, the attorney general's office, the United States Department of Justice for federal programs, or other appropriate authorities;

(6) recommend legislative or policy changes to improve program efficiency and effectiveness;

(7) publish reports on completion of an investigation summarizing findings, recommendations, and outcomes of the inspector general's activities;

(8) investigate any private entity or local unit of government administering a state program, or any private recipient of state funds or services, to ensure the proper use of state funds and compliance with all other laws and requirements applicable to funds or services provided by the state;

(9) submit an annual report summarizing the work of the office to the Legislative Inspector General Advisory Commission and make the report publicly available by posting the report on the inspector general's website;

(10) alert relevant agency heads when the inspector general has a reasonable suspicion that fraud or misuse is being committed that constitutes a credible allegation, whether or not the inspector general is conducting an investigation, as provided in subdivision 3; and

(11) establish and maintain a current exclusion list in a format readily accessible to agencies that identifies each program and individual for which the inspector general has obtained a court order to freeze or cease distribution of funds or made a recommendation under clause (10) to freeze or cease distribution of funds.

Subd. 2. **Relationship to powers and duties of other agencies.** (a) The inspector general has authority to investigate fraud and misuse of public funds across all programs administered by agencies.

(b) The inspector general may perform the inspector general's duties and apply the inspector general's authority without obtaining approval from another agency.

(c) The Department of Human Services has primary responsibility to investigate fraud in the Medicaid program, but the inspector general has authority to conduct independent investigations related to the Medicaid program as necessary.

(d) The Department of Children, Youth, and Families has primary responsibility to investigate fraud in child care programs under chapters 142D and 142E, but the inspector general has authority to conduct independent investigations related to the child care programs under chapters 142D and 142E.

(e) The Department of Health has primary responsibility to investigate fraud related to women, infants, and children (WIC) and food support programs, but the inspector general has authority to conduct independent investigations related to WIC and food support programs.

(f) The inspector general has concurrent authority over program integrity assessments that are related to fraud or misuse.

(g) The inspector general must refer all credible reports from the public about potential fraud or misuse to the legislative auditor, and to the commissioner of human services for reports related to Medicaid. The inspector general may coordinate investigations with the legislative auditor, and the commissioner of human services for investigations related to Medicaid, when coordination conserves resources and does not compromise an investigation.

(h) The Department of Information Technology Services shall provide services to the Office of the Inspector General, under a managed services contract, according to section 16E.016.

(i) Nothing in this chapter may be construed to limit or interfere with the legislative auditor's authority or responsibility.

(j) When issuing findings or recommending sanctions with respect to an investigation concerning a program administered by the Department of Education, the inspector general must consider the commissioner of education's authority to impose sanctions and related requirements under section 127A.21. The inspector general must not investigate policy decisions on instruction, curriculum, personnel, or other discretionary policy decisions made by a school district; charter school; cooperative unit as defined by section 123A.24, subdivision 2; or any library, library system, or library district defined in section 134.001.

Subd. 3. **Alerting agency of issue; seeking a court order to freeze funds.** (a) If the agency does not have primary investigative authority under subdivision 2, the inspector general shall investigate and, if the inspector general has a reasonable suspicion that fraud or misuse is occurring, then the inspector general may, at the inspector general's discretion, alert the agency head and seek a court order to freeze or stop distribution of public funds, including any applicable due process and appeal rights, working in cooperation with the agency where practical and where it would not jeopardize an investigation.

(b) If the agency has primary investigative authority under subdivision 2 but the inspector general is not satisfied that the agency's internal investigation is adequate or proceeding quickly enough, the inspector general may independently investigate and, if the inspector general has a reasonable suspicion that fraud or misuse is being committed, may make a recommendation to the agency to freeze or cease distribution of funds and notify the appropriate law enforcement agencies.

(c) If an agency head does not act on a recommendation to freeze or cease distribution of funds as requested, after reasonable notice and consistent with any applicable interagency agreements under section 19, unless prohibited by federal requirements, the inspector general

may, at the inspector general's discretion, seek a court order to freeze or stop distribution of public funds, consistent with applicable due process and appeal rights.

(d) If public funds are stopped or frozen pursuant to this subdivision, the inspector general, working with and through the applicable agency, must ensure that any person whose public funds are interrupted and who is not implicated in the suspected fraud or misuse receive notice of their rights related to continued receipt of the public funds, services, or programs for which they are eligible.

**EFFECTIVE DATE.** Subdivision 2, paragraph (c), and subdivision 3, paragraphs (b) and (c), are effective January 1, 2027, or upon federal approval from the Centers for Medicare and Medicaid Services, whichever is later. Subd. 2. **Jurisdiction.** (a) As used in this subdivision:

(1) "law enforcement agency" has the meaning given in section 626.84, subdivision 1, paragraph (f);

(2) "public employee" means a person employed by or acting for an agency or a county, municipality, or other subdivision or governmental instrumentality of the state for the purpose of exercising their respective powers and performing their respective duties, and who is not a public officer. Public employee includes a member of a charter commission; and

(3) "public officer" has the meaning given in section 609.415, subdivision 1, clause (1), paragraphs (a), (d), (e), and (f), and also includes a member of a governing board of a county, municipality, or other subdivision of the state, or other governmental instrumentality within the state.

(b) The Office of the Inspector General Anti-Fraud and Waste Bureau has jurisdiction to initiate inquiries and conduct investigations into suspected fraudulent activity, misuse, or criminal misconduct involving:

(1) a state agency;

(2) a public officer exercising official powers or performing official duties;

(3) a public employee;

(4) a program or service funded or administered by the state;

(5) a public assistance benefit; or

(6) public funds.

(c) At the inspector general's discretion, the bureau may respond to the request of a law enforcement agency to exercise law enforcement duties in cooperation with the law enforcement agency that has jurisdiction over the particular matter.

Subd. 3. **Coordination with other law enforcement agencies.** (a) The bureau must develop policies for notifying, coordinating with, and referring investigations to other law enforcement agencies with concurrent jurisdiction.

(b) The Department of Human Services and the state Medicaid Fraud Control Unit have primary responsibility to investigate suspected fraudulent activity in the Medicaid program. The bureau may work with the Department of Human Services, the state Medicaid Fraud Control Unit, the Financial Crimes and Fraud Section of the Bureau of Criminal Apprehension, and other state agencies and law enforcement agencies in cases involving suspected fraudulent activity in the Medicaid program. The bureau also has authority to conduct independent investigations into suspected fraudulent activity in the Medicaid program.

(c) If the bureau arrests a person, the bureau must notify the law enforcement agency with jurisdiction over the location where the offense occurred and, if different, the law enforcement agency with jurisdiction over the location where the arrest took place. The bureau is responsible for issuing any citations, filing any required reports, and delivering an arrested person to a county jail or other appropriate facility unless the bureau and a law enforcement agency with concurrent jurisdiction enter an agreement under which the other law enforcement agency acts as the lead agency.

(d) Following an arrest made by the bureau, the bureau is responsible for any subsequent investigation unless:

(1) the bureau is responding to a law enforcement agency's request to exercise its duties in cooperation with the law enforcement agency that has jurisdiction over the particular matter; or

(2) the bureau and a law enforcement agency with concurrent jurisdiction enter an agreement under which the other law enforcement agency acts as the lead agency.

Subd. 4. **Policy for notice of investigations.** The bureau must develop a policy for notifying the law enforcement agency with primary jurisdiction when it has initiated investigation of any person within the jurisdiction of that agency.

Subd. 5. **Chief law enforcement officer.** If the inspector general establishes a law enforcement agency under this section, the inspector general shall appoint a peace officer employed full time to be the chief law enforcement officer and to be responsible for the management of the bureau. The chief law enforcement officer may appoint, discipline, and discharge all employees of the bureau. All police managerial and supervisory personnel must be full-time employees of the bureau. Supervisory personnel must be on duty and available any time peace officers of the bureau are on duty.

Subd. 6. **Compliance.** Except as otherwise provided in this section, the bureau shall comply with all statutes and administrative rules relating to the operation and management of a law enforcement agency.

Subd. 7. **Powers and duties; limitations.** Powers and duties for civil or administrative enforcement provided to the inspector general or the Office of the Inspector General under this chapter do not apply to the bureau. The inspector general must not delegate the auxiliary powers described in section 15E.30, such as the power to issue subpoenas, perform inspections without a warrant, and impose penalties, to the bureau and must not exercise those auxiliary powers at the direction of the bureau. Nothing in this subdivision prohibits:

(1) the inspector general from disseminating data to the bureau if there is reason to believe that the data are evidence of criminal activity within the bureau's jurisdiction; or

(2) the bureau from referring a matter to the inspector general for appropriate regulatory investigation.

Subd. 8. **Evidence, documentation, and related materials.** If the bureau seeks evidence, documentation, and related materials pertinent to an investigation, and the matter is located

outside of this state, the bureau may designate representatives, including officials of the state where the matter is located, to secure the matter or inspect the matter on its behalf.

Subd. 9. **Annual report on activities and cost-effectiveness.** By February 1 of each year, the chief law enforcement officer of the bureau shall report to the governor, the inspector general, and the chairs and ranking minority members of the legislative committees with jurisdiction over state government policy and finance, and public safety policy and finance, on the activities and cost-effectiveness of the bureau since the previous report, including but not limited to:

Peace officers assigned to the Office of the Inspector General under this subdivision have statewide jurisdiction to conduct criminal investigations into matters described in subdivision 2 and have the same powers of arrest as those possessed by a sheriff.

(b) Peace officers assigned to the Office of the Inspector General under this subdivision remain employees of the same entity that employed them before the assignment authorized under this section. Those officers are not employees of the Office of the Inspector General.

(c) Peace officers assigned to the Office of the Inspector General under this subdivision are subject to annual performance reviews conducted by the inspector general or an operational supervisor designated by the inspector general.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2024, section 79.34, subdivision 3, is amended to read:

Subd. 3. **Withdrawal from association.** An insurer may withdraw from the reinsurance association only upon ceasing to be authorized by license issued by the commissioner of commerce to transact workers' compensation insurance in this state and when all workers' compensation insurance policies issued by such insurer have expired; a self-insurer may withdraw from the reinsurance association only upon ceasing to be approved to self-insure workers' compensation liability in this state pursuant to section 176.181.

An insurer or self-insurer which withdraws or whose membership in the reinsurance association is terminated shall continue to be bound by the plan of operation. Upon withdrawal or termination, all unpaid premiums which have been charged to the withdrawing or terminated member and any other outstanding amounts owed shall be payable as of the effective date of the withdrawal or termination.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2024, section 79.34, subdivision 4, is amended to read:

Subd. 4. **Liabilities of insolvent members.** An unsatisfied net liability to the reinsurance association of an insolvent member shall be ~~assumed by and apportioned among the remaining members of the reinsurance association as provided in the plan of operation~~ governed by the plan of operation effective at the time a member is declared insolvent by a state regulatory authority or a court of competent jurisdiction, whichever comes earlier. The reinsurance association shall have all rights allowed by law on behalf of the remaining members against the estate or funds of the insolvent member for sums due the reinsurance association.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2024, section 79.35, is amended to read:

**79.35 DUTIES; RESPONSIBILITIES; POWERS.**

The reinsurance association shall do the following on behalf of its members:

(1) assume 100 percent of the liability as provided in section 79.34;

(2) establish procedures by which members shall promptly report to the reinsurance association each claim which, on the basis of the injury sustained, may reasonably be anticipated to involve liability to the reinsurance association if the member is held liable under chapter 176. Solely for the purpose of reporting claims, the member shall in all instances consider itself legally liable for the injury. The member shall advise the reinsurance association of subsequent developments likely to materially affect the interest of the reinsurance association in the claim;

(3) maintain relevant loss and expense data relative to all liabilities of the reinsurance association and require each member to furnish statistics in connection with liabilities of the reinsurance association at the times and in the form and detail as may be required by the plan of operation;

(4) calculate and charge to members a total premium sufficient to cover the expected liability which the reinsurance association will incur, together with incurred or estimated to be incurred operating and administrative expenses for the period to which this premium applies. Each member shall be charged a premium established by the board as sufficient to cover the reinsurance association's incurred liabilities and expenses in excess of the member's selected retention limit. Each member shall be charged a proportion of the total premium calculated for its selected retention limit in an amount equal to its proportion of the exposure base of all members during the period to which the reinsurance association premium will

apply. The exposure base shall be determined by the board and is subject to the approval of the commissioner of labor and industry. In determining the exposure base, the board shall consider, among other things, equity, administrative convenience, records maintained by members, amenability to audit, and degree of risk refinement. ~~Each member shall also be charged a premium determined by the board to equitably distribute excess or deficient premiums from previous periods including any excess or deficient premiums resulting from a retroactive change in the prefunded limit.~~ The premiums charged to members shall not be unfairly discriminatory as defined in section 79.074. All premiums shall be approved by the commissioner of labor and industry;

(5) require and accept the payment of premiums from members of the reinsurance association;

(6) receive and distribute all sums required by the operation of the reinsurance association;

(7) establish procedures for reviewing claims procedures and practices of members of the reinsurance association. If the claims procedures or practices of a member are considered inadequate to properly service the liabilities of the reinsurance association, the reinsurance association may undertake, or may contract with another person, including another member, to adjust or assist in the adjustment of claims which create a potential liability to the association. The reinsurance association may charge the cost of the adjustment under this paragraph to the member, except that any penalties or interest incurred under sections 176.183, 176.221, 176.225, and 176.82 as a result of actions by the reinsurance association after it has undertaken adjustment of the claim shall not be charged to the member but shall be included in the ultimate loss and listed as a separate item; ~~and~~

(8) provide each member of the reinsurance association with an annual report of the operations of the reinsurance association in a form the board of directors may specify~~.~~;

(9) equitably distribute excess or deficient premiums from previous periods to members based on amounts determined by the board. All excess or deficient premiums shall be approved by the commissioner of labor and industry;

(10) distribute excess surplus as recommended by the board and approved by order of the commissioner of labor and industry consistent with section 79.362; and

(11) collect deficiency assessments as recommended by the board and approved by order of the commissioner of commerce consistent with section 79.362.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2024, section 79.36, is amended to read:

**79.36 ADDITIONAL POWERS.**

In addition to the powers granted in section 79.35, the reinsurance association may do the following:

(1) sue and be sued. A judgment against the reinsurance association shall not create any direct liability against the individual members of the reinsurance association. The reinsurance association shall provide in the plan of operation for the indemnification, to the extent provided in the plan of operation, of the members, members of the board of directors of the reinsurance association, and officers, employees and other persons lawfully acting on behalf of the reinsurance association;

(2) reinsure all or any portion of its potential liability~~, including potential liability in excess of the prefunded limit,~~ with reinsurers licensed to transact insurance in this state or otherwise approved by the commissioner of labor and industry;

(3) provide for appropriate housing, equipment, and personnel as may be necessary to assure the efficient operation of the reinsurance association;

(4) contract for goods and services, including but not limited to independent claims management, actuarial, investment, and legal services from others within or without this state to assure the efficient operation of the reinsurance association;

(5) adopt operating rules, consistent with the plan of operation, for the administration of the reinsurance association, enforce those operating rules, and delegate authority as necessary to assure the proper administration and operation of the reinsurance association;

(6) intervene in or prosecute at any time, including but not limited to intervention or prosecution as subrogee to the member's rights in a third-party action, any proceeding under this chapter or chapter 176 in which liability of the reinsurance association may, in the opinion of the board of directors of the reinsurance association or its designee, be established, or the reinsurance association affected in any other way;

(7) the net proceeds derived from intervention or prosecution of any subrogation interest, or other recovery, shall first be used to reimburse the reinsurance association for amounts paid or payable pursuant to this chapter, together with any expenses of recovery, including attorney's fees, and any excess shall be paid to the member or other person entitled thereto, as determined by the board of directors of the reinsurance association, unless otherwise ordered by a court;

(8) hear and determine complaints of a company or other interested party concerning the operation of the reinsurance association; and

(9) perform other acts not specifically enumerated in this section which are necessary or proper to accomplish the purposes of the reinsurance association and which are not inconsistent with sections 79.34 to 79.40 or the plan of operation.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 5. Minnesota Statutes 2024, section 79.362, is amended to read:

**79.362 WORKERS' COMPENSATION REINSURANCE ASSOCIATION EXCESS SURPLUS DISTRIBUTION OR DEFICIENCY ASSESSMENT.**

Subdivision 1. **Scope.** This section governs excess surplus distributions and deficiency assessment of the reinsurance association. An excess surplus distribution is not a distribution of excess premiums to members. The reinsurance association may not distribute excess surplus or assess members due to a deficiency except as provided for in this section. For purposes of this section, "insured employers" includes employers insured by insurer members and employers insured by the assigned risk plan.

Subd. 2. **Declaration of distribution or assessment.** (a) The board may declare an excess surplus distribution to self-insurer members and insured employers. The board shall determine the amount of excess surplus and set a timeline, a distribution rate for self-insurer members, and a distribution rate for insured employers as applied to the distribution exposure bases of self-insurer members and insured employers. The board shall notify the commissioner of labor and industry of the amount of excess surplus and recommended distribution rates and, if the commissioner is in agreement with the board's recommendation, the commissioner shall issue an order approving the recommended distribution.

(b) An order of the commissioner of ~~the Department of~~ labor and industry relating to the ~~distribution of~~ excess surplus distribution of the Workers' Compensation Reinsurance Association shall be reviewed by the commissioner of commerce. The commissioner of commerce may amend, approve, or reject an order or issue further orders to accomplish the purposes of this section ~~79.361 and Laws 1993, chapter 361, section 2~~. The commissioner of commerce may not change the amount of the distribution ordered by the commissioner of labor and industry without agreement of the commissioner of labor and industry.

(c) If the board determines that an excess surplus distribution resulted in inadequate funds being available to pay claims that arose during the period upon which the distribution was calculated, the board shall determine the amount of the deficiency. The board shall

notify the commissioner of commerce of the amount of deficiency and recommend assessment rates and the time period for an assessment for self-insurer members and insured employers. The commissioner of commerce shall order an assessment at the rates and for the time period necessary to eliminate the deficiency with consideration of potential financial hardship to employers. The assessment rates shall be applied to the exposure bases of self-insured employers and insured employers. All assessments under this section are payable to the association. The commissioner of commerce may issue orders necessary to administer this section.

Subd. 3. **Administration of distribution or assessment.** The reinsurance association may consider the actual and reasonable costs of distribution or assessment in determining the amount to be distributed or assessed. The excess surplus distribution or deficiency assessment may not be retroactive and applies only prospectively. Self-insurer members, insurer members, and the Minnesota Workers' Compensation Insurers Association must provide any information to the reinsurance association that the association determines necessary to administer this section. Any part of the excess surplus distribution not distributed within one year due to the inability to identify or locate insured employers remains with the reinsurance association and must not be distributed to its members.

Subd. 4. **Plan of operation.** The reinsurance association's plan of operation must provide the method for determining rates and exposure bases, the method for excess surplus distribution, and the method of collecting a deficiency assessment. For multiyear distributions or assessments, the exposure bases and rates shall be recalculated for each policy year of the excess surplus distribution or deficiency assessment.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2024, section 79.38, subdivision 1, is amended to read:

Subdivision 1. **Provisions.** The plan of operation shall provide for all of the following:

(a) the establishment of necessary facilities;

(b) the management and operation of the reinsurance association;

(c) a preliminary premium, payable by each member in proportion to its total premium in the year preceding the inauguration of the reinsurance association, for initial expenses necessary to commence operation of the reinsurance association;

(d) procedures to be utilized in charging premiums~~, including adjustments from excess or deficient premiums from prior periods~~;

(e) procedures governing the actual payment of premiums to the reinsurance association;

(f) reimbursement of each member of the board by the reinsurance association for actual and necessary expenses incurred on reinsurance association business;

(g) the composition, terms, compensation and other necessary rules consistent with section 79.37 for boards of directors of the reinsurance association;

(h) the investment policy of the reinsurance association; ~~and~~

(i) the method for determining rates and exposure bases, the method for excess surplus distribution, and the method of collecting a deficiency assessment; and

~~(i)~~ (j) any other matters required by or necessary to effectively implement sections 79.34 to 79.40.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2024, section 175A.05, is amended by adding a subdivision to read:

Subd. 4. **Active compensation judges.** If the number of Workers' Compensation Court of Appeals judges available to hear a case is insufficient to constitute a quorum and retired judges are not available to meet the quorum requirement, the chief judge of the Workers' Compensation Court of Appeals may, with the consent of the chief judge of the Court of Administrative Hearings, assign an active compensation judge from that court to hear any case properly assigned to a judge of the Workers' Compensation Court of Appeals. The compensation judge assigned to the case may act on that case with the full powers of a judge of the Workers' Compensation Court of Appeals. A compensation judge performing this service shall receive pay and expenses, calculated on an hourly basis, in the amount and manner provided by law for judges serving on the Workers' Compensation Court of Appeals. This compensation will be paid as an adjustment to the judge's normal compensation from the Court of Administrative Hearings. The Workers' Compensation Court of Appeals will reimburse the Court of Administrative Hearings based on the number of hours spent performing this service and any other expenditures incurred.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2024, section 176.011, subdivision 15, is amended to read:

Subd. 15. **Occupational disease.** (a) "Occupational disease" means a mental impairment as defined in paragraph (d) or physical disease arising out of and in the course of employment

peculiar to the occupation in which the employee is engaged and due to causes in excess of the hazards ordinary of employment and shall include undulant fever. Physical stimulus resulting in mental injury and mental stimulus resulting in physical injury shall remain compensable. Mental impairment is not considered a disease if it results from a disciplinary action, work evaluation, job transfer, layoff, demotion, promotion, termination, retirement, or similar action taken in good faith by the employer. Ordinary diseases of life to which the general public is equally exposed outside of employment are not compensable, except where the diseases follow as an incident of an occupational disease, or where the exposure peculiar to the occupation makes the disease an occupational disease hazard. A disease arises out of the employment only if there be a direct causal connection between the conditions under which the work is performed and if the occupational disease follows as a natural incident of the work as a result of the exposure occasioned by the nature of the employment. An employer is not liable for compensation for any occupational disease which cannot be traced to the employment as a direct and proximate cause and is not recognized as a hazard characteristic of and peculiar to the trade, occupation, process, or employment or which results from a hazard to which the worker would have been equally exposed outside of the employment.

(b) If immediately preceding the date of disablement or death, an employee was employed on active duty with an organized fire or police department of any municipality, as a member of the Minnesota State Patrol, conservation officer service, state crime bureau, as a forest officer by the Department of Natural Resources, correctional officer or security counselor employed by the state or a political subdivision at a corrections, detention, or secure treatment facility, or sheriff or full-time deputy sheriff of any county, and the disease is that of myocarditis, coronary sclerosis, pneumonia or its sequel, and at the time of employment such employee was given a thorough physical examination by a licensed doctor of medicine, and a written report thereof has been made and filed with such organized fire or police department, with the Minnesota State Patrol, conservation officer service, state crime bureau, Department of Natural Resources, Department of Corrections, or sheriff's department of any county, which examination and report negatived any evidence of myocarditis, coronary sclerosis, pneumonia or its sequel, the disease is presumptively an occupational disease and shall be presumed to have been due to the nature of employment. If immediately preceding the date of disablement or death, any individual who by nature of their position provides emergency medical care, or an employee who was employed as a licensed police officer under section 626.84, subdivision 1; firefighter; paramedic; correctional officer or security counselor employed by the state or a political subdivision at a corrections, detention, or secure treatment facility; emergency medical technician; or licensed nurse providing

emergency medical care; and who contracts an infectious or communicable disease to which the employee was exposed in the course of employment outside of a hospital, then the disease is presumptively an occupational disease and shall be presumed to have been due to the nature of employment and the presumption may be rebutted by substantial factors brought by the employer or insurer. Any substantial factors which shall be used to rebut this presumption and which are known to the employer or insurer at the time of the denial of liability shall be communicated to the employee on the denial of liability.

(c) A firefighter on active duty with an organized fire department who is unable to perform duties in the department by reason of a disabling cancer of a type caused by exposure to heat, radiation, or a known or suspected carcinogen, as defined by the International Agency for Research on Cancer, and the carcinogen is reasonably linked to the disabling cancer, is presumed to have an occupational disease under paragraph (a). If a firefighter who enters the service after August 1, 1988, is examined by a physician prior to being hired and the examination discloses the existence of a cancer of a type described in this paragraph, the firefighter is not entitled to the presumption unless a subsequent medical determination is made that the firefighter no longer has the cancer.

(d) For the purposes of this chapter, "mental impairment" means a diagnosis of post-traumatic stress disorder by a licensed psychiatrist ~~or~~, psychologist, or psychiatric mental health nurse practitioner. For the purposes of this chapter, "post-traumatic stress disorder" means the condition as described in the most recently published edition of the Diagnostic and Statistical Manual of Mental Disorders by the American Psychiatric Association. For purposes of section 79.34, subdivision 2, one or more compensable mental impairment claims arising out of a single event or occurrence shall constitute a single loss occurrence.

(e) If, preceding the date of disablement or death, an employee who was employed on active duty as: a licensed police officer; a firefighter; a paramedic; an emergency medical technician; a licensed nurse employed to provide emergency medical services outside of a medical facility; a public safety dispatcher; a correctional officer or security counselor employed by the state or a political subdivision at a corrections, detention, or secure treatment facility; a sheriff or full-time deputy sheriff of any county; or a member of the Minnesota State Patrol is diagnosed with a mental impairment as defined in paragraph (d), and had not been diagnosed with the mental impairment previously, then the mental impairment is presumptively an occupational disease and shall be presumed to have been due to the nature of employment. This presumption may be rebutted by substantial factors brought by the employer or insurer. Any substantial factors that are used to rebut this presumption and that

are known to the employer or insurer at the time of the denial of liability shall be communicated to the employee on the denial of liability. The mental impairment is not considered an occupational disease if it results from a disciplinary action, work evaluation, job transfer, layoff, demotion, promotion, termination, retirement, or similar action taken in good faith by the employer.

**EFFECTIVE DATE.** This section is effective for dates of injury on or after October 1, 2026.

Sec. 9. Minnesota Statutes 2024, section 176.081, subdivision 9, is amended to read:

Subd. 9. **Retainer agreement.** An attorney who is hired by an employee to provide legal services with respect to a claim for compensation made pursuant to this chapter shall prepare a retainer agreement in which the provisions of this section are specifically set out and provide a copy of this agreement to the employee. The retainer agreement shall provide a space for the signature of the employee. A signed agreement shall raise a conclusive presumption that the employee has read and understands the statutory fee provisions. No fee shall be awarded pursuant to this section in the absence of a signed retainer agreement.

The retainer agreement shall contain a notice to the employee regarding the maximum fee allowed under this section in ten-point type, which shall read:

Notice of Maximum Fee

The maximum fee allowed by law for legal services is 20 percent of the first ~~$130,000~~ $275,000 of compensation awarded to the employee subject to a cumulative maximum fee of ~~$26,000~~ $55,000 for fees related to the same injury.

The employee shall take notice that the employee is under no legal or moral obligation to pay any fee for legal services in excess of the foregoing maximum fee.

**EFFECTIVE DATE.** This section is effective the day following final enactment and applies to dates of injury on or after October 1, 2024.

Sec. 10. Minnesota Statutes 2024, section 176.101, subdivision 2a, is amended to read:

Subd. 2a. **Permanent partial disability.** (a) Compensation for permanent partial disability is as provided in this subdivision. Permanent partial disability must be rated as a percentage of the whole body in accordance with rules adopted by the commissioner under section 176.105. During the 2026 regular legislative session, and every even-year legislative session thereafter, the Workers' Compensation Advisory Council must consider whether the

permanent partial disability schedule in paragraph (b) represents adequate compensation for permanent impairment.

(b) The percentage determined pursuant to the rules adopted under section 176.105 must be multiplied by the corresponding amount in the following table:

| Impairment Rating (percent) | Amount |
|---|---|
| less than 5.5 | ~~114,260~~ $ 137,240 |
| 5.5 to less than 10.5 | ~~121,800~~ 146,297 |
| 10.5 to less than 15.5 | ~~129,485~~ 155,527 |
| 15.5 to less than 20.5 | ~~137,025~~ 164,584 |
| 20.5 to less than 25.5 | ~~139,720~~ 167,821 |
| 25.5 to less than 30.5 | ~~147,000~~ 176,565 |
| 30.5 to less than 35.5 | ~~150,150~~ 180,348 |
| 35.5 to less than 40.5 | ~~163,800~~ 196,744 |
| 40.5 to less than 45.5 | ~~177,450~~ 213,139 |
| 45.5 to less than 50.5 | ~~177,870~~ 213,643 |
| 50.5 to less than 55.5 | ~~181,965~~ 218,562 |
| 55.5 to less than 60.5 | ~~209,475~~ 251,605 |
| 60.5 to less than 65.5 | ~~237,090~~ 284,774 |
| 65.5 to less than 70.5 | ~~264,600~~ 317,817 |
| 70.5 to less than 75.5 | ~~292,215~~ 350,986 |

| | | ~~567,840~~ |
| | 95.5 up to and including 100 | 682,045 |

An employee may not receive compensation for more than a 100 percent disability of the whole body, even if the employee sustains disability to two or more body parts.

(c) Permanent partial disability is payable upon cessation of temporary total disability under subdivision 1. If the employee requests payment in a lump sum, then the compensation must be paid within 30 days. This lump-sum payment may be discounted to the present value calculated up to a maximum five percent basis. If the employee does not choose to receive the compensation in a lump sum, then the compensation is payable in installments at the same intervals and in the same amount as the employee's temporary total disability rate on the date of injury. Permanent partial disability is not payable while temporary total compensation is being paid.

**EFFECTIVE DATE.** This section is effective for dates of injury on or after October 1, 2026.

Sec. 11. Minnesota Statutes 2024, section 176.155, subdivision 1, is amended to read:

Subdivision 1. **Employer's physician.** (a) The injured employee must submit to examination by the employer's physician, if requested by the employer, and at reasonable times thereafter upon the employer's request. Examinations shall not be conducted in hotel or motel facilities. The examination must be scheduled at a location within 150 miles of the employee's residence unless the employer can show cause to the office to order an examination at a location further from the employee's residence. The employee is entitled upon request to have a personal physician or unpaid witness present at any such examination. Each party shall defray the cost of that party's physician or witness.

(b) Any report or written statement made by the employer's physician as a result of an examination of the employee, regardless of whether the examination preceded the injury or was made subsequent to the injury or whether litigation is pending, must be served upon the employee and the attorney representing the employee, if any, no later than 14 calendar days within the issuance of the report or written statement.

(c) The employer shall pay reasonable travel expenses incurred by the employee in attending the examination including mileage, parking, and, if necessary, lodging and meals. The employer shall also pay the employee for any lost wages resulting from attendance at the examination.

(d) A self-insured employer or insurer who is served with a claim petition pursuant to section 176.271, subdivision 1, or 176.291, shall schedule any necessary examinations of the employee, if an examination by the employer's physician or health care provider is necessary to evaluate benefits claimed. The examination shall be completed and the report of the examination shall be served on the employee and filed with the commissioner within 120 days of service of the claim petition. Any request for a good cause extension pursuant to paragraph (e) must be made within 120 days of service of the claim petition, except that a request may be made after 120 days of service of a claim petition in the following circumstances:

(1) a change to the employee's claim regarding the nature and extent of the injury;

(2) a change to the permanency benefits claimed by the employee, including a change in permanent partial disability percentage;

(3) a new claim for indemnity benefits; or

(4) the employment relationship is not admitted by the uninsured employer.

(e) No evidence relating to the examination or report shall be received or considered by the commissioner, a compensation judge, or the court of appeals in determining any issues unless the report has been served and filed as required by this section, unless a written extension has been granted by the commissioner or compensation judge. The commissioner or a compensation judge shall extend the time for completing the adverse examination and filing the report upon good cause shown. The extension must not be for the purpose of delay and the insurer must make a good faith effort to comply with this subdivision. Good cause shall include but is not limited to:

(1) that the extension is necessary because of the limited number of physicians or health care providers available with expertise in the particular injury or disease, or that the extension is necessary due to the complexity of the medical issues, or

(2) that the extension is necessary to gather additional information which was not included on the petition as required by section 176.291.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 12. Minnesota Statutes 2024, section 176.221, subdivision 1, is amended to read:

Subdivision 1. **Commencement of payment.** Within 14 days of notice to or knowledge by the employer of an injury compensable under this chapter the payment of temporary total compensation shall commence. Within 14 days of notice to or knowledge by an

employer of a new period of temporary total disability which is caused by an old injury compensable under this chapter, the payment of temporary total compensation shall commence; provided that the employer or insurer may file for an extension with the commissioner within this 14-day period, in which case the compensation need not commence within the 14-day period but shall commence no later than 30 days from the date of the notice to or knowledge by the employer of the new period of disability. Commencement of payment by an employer or insurer does not waive any rights to any defense the employer has on any claim or incident either with respect to the compensability of the claim under this chapter or the amount of the compensation due. Where there are multiple employers, the first employer shall pay, unless it is shown that the injury has arisen out of employment with the second or subsequent employer. Liability for compensation under this chapter may be denied by the employer or insurer by giving the employee written notice of the denial of liability. If liability is denied for an injury which is required to be reported to the commissioner under section 176.231, subdivision 1, the denial of liability must be filed with the commissioner and served on the employee within 14 days after notice to or knowledge by the employer of an injury which is alleged to be compensable under this chapter. If the employer or insurer has commenced payment of compensation under this subdivision but determines within ~~60~~ 90 days of notice to or knowledge by the employer of the injury that the disability is not a result of a personal injury, payment of compensation may be terminated upon the filing of a notice of denial of liability within ~~60~~ 90 days of notice or knowledge. After the ~~60-day~~ 90-day period, payment may be terminated only by the filing of a notice as provided under section 176.239. Upon the termination, payments made may be recovered by the employer if the commissioner or compensation judge finds that the employee's claim of work related disability was not made in good faith. A notice of denial of liability must state in detail the facts forming the basis for the denial and specific reasons explaining why the claimed injury or occupational disease was determined not to be within the scope and course of employment and shall include the name and telephone number of the person making this determination.

**EFFECTIVE DATE.** This section is effective for dates of injury on or after October 1, 2026.

Sec. 13. Minnesota Statutes 2024, section 176.322, is amended to read:

**176.322 DECISIONS BASED ON STIPULATED FACTS.**

If the parties agree to a stipulated set of facts and only legal issues remain, the commissioner or compensation judge may determine the matter without a hearing based

upon the stipulated facts and the determination is appealable to the court of appeals pursuant to sections 176.421 and 176.442. In any case where a stipulated set of facts has been submitted to the Court of Administrative Hearings pursuant to this section, upon receipt of the file or the stipulated set of facts the chief administrative law judge shall immediately assign the case to a compensation judge for a determination. The commissioner or compensation judge shall issue a determination within 60 days after receipt of the stipulated facts.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 14. **REPEALER.**

Minnesota Statutes 2024, sections 79.34, subdivision 2a; 79.361; and 79.363, are repealed.

**79.34 CREATION OF REINSURANCE ASSOCIATION.**

Subd. 2a. **Deficiency.** If the board determines that a distribution of excess surplus resulted in inadequate funds being available to pay claims that arose during the period upon which that distribution was calculated, the board shall determine the amount of the deficiency. The deficiency shall be made up by imposing an assessment rate against self-insured members and policyholders of insurer members. The board shall notify the commissioner of commerce of the amount of the deficiency and recommend an assessment rate. The commissioner shall order an assessment at a rate and for the time period necessary to eliminate the deficiency. The assessment rate shall be applied to the exposure base of self-insured employers and insured employers. The assessment may not be retroactive and applies only prospectively. The assessment may be spread over a period of time that will cause the least financial hardship to employers. All assessments under this subdivision are payable to the association. The commissioner may issue orders necessary to administer this section.

**79.361 POST-1992 DISTRIBUTION OF WORKERS' COMPENSATION REINSURANCE ASSOCIATION SURPLUS.**

Subdivision 1. **Scope.** This section governs the distribution of excess surplus of the Workers' Compensation Reinsurance Association declared after January 1, 1993. A distribution of excess surplus is declared on the date the board votes to make a distribution. No distribution of excess surplus other than that provided by this section may be made.

Subd. 2. **Self-insured.** A self-insurer shall receive a distribution of excess surplus in an amount equal to the self-insurer's share of the premiums paid to the Workers' Compensation Reinsurance Association for the period and for each retention layer for which the distribution is made.

Subd. 3. **Insured employers.** A policyholder, other than a policyholder insured by the assigned risk plan or the State Fund Mutual Insurance Company, shall receive a refund of a share of the distribution equal to the policyholder's share of the annual total earned Minnesota workers' compensation insurance premium, as reported to the commissioner of commerce in the most recent annual statements of insurers, including the assigned risk plan and the State Fund Mutual Insurance Company.

Subd. 4. **Assigned risk plan.** A policyholder of the assigned risk plan shall receive a refund of a share of the distribution equal to the policyholder's share of the annual total earned Minnesota workers' compensation insurance premium, as reported to the commissioner of commerce in the most recent annual statements of insurers, including the assigned risk plan and the State Fund Mutual Insurance Company.

Subd. 5. **State Fund Mutual Insurance Company.** A policyholder of the State Fund Mutual Insurance Company shall receive a refund of a share of the distribution equal to the policyholder's share of the annual total earned Minnesota workers' compensation insurance premium, as reported to the commissioner of commerce in the most recent annual statements of insurers, including the assigned risk plan and the state fund mutual insurance company.

Subd. 6. **Distribution defined.** For the purpose of subdivisions 3 to 5, "distribution" means a distribution described in subdivision 1 minus a distribution to self-insurers under subdivision 2.

Subd. 7. **Policyholder.** For the purpose of this section "policyholder" means a workers' compensation insurance policyholder in the calendar year preceding a declaration of excess surplus by the board of the reinsurance association.

Subd. 8. **Information required.** Insurers and the Workers' Compensation Insurers Rating Association of Minnesota must provide the Workers' Compensation Reinsurance Association with information necessary to administer and calculate the refunds to policyholders governed by this section within 60 days of a request by the association. For the purpose of this subdivision, "insurer" includes the assigned risk plan.

Subd. 9. **Refund due date.** Policyholders must receive the refund within 60 days of the day the reinsurance association receives the information required to be provided by subdivision 8.

Subd. 10. **Unclaimed refund.** Any part of the refund not distributed within one year after the due date of a refund under this section due to the inability to identify or locate policyholders remains with the Workers' Compensation Reinsurance Association.

Subd. 11. **Costs of distribution.** The reinsurance association may pay the actual and reasonable costs of the refunds made under this section from earnings on a declared excess surplus prior to its distribution.

**79.363 DISTRIBUTION OF EXCESS SURPLUS.**

The distribution of excess surplus of the Workers' Compensation Reinsurance Association is not a distribution of excess premiums to members. Any excess surplus not refunded according to Laws 1993, chapter 361, section 2, must be returned to the association and must not be distributed to its members. Any excess surplus not distributed or refunded according to section 79.361 must be retained by the association and must not be distributed to members.

Pursuant to Rule 40, Senator Jasinski cast the negative vote on behalf of the following Senator: Kreun.

The motion prevailed. So the appointments were confirmed.

Subdivision 1. **Grounds for revocation, suspension, or denial.** (a) The Professional Educator Licensing and Standards Board or Board of School Administrators, whichever has jurisdiction over a teacher's licensure, may, on the written complaint of the school board employing a teacher, a teacher organization, or any other interested person, refuse to issue, refuse to renew, suspend, or revoke a teacher's license to teach for any of the following causes:

(1) immoral character or conduct;

(2) failure, without justifiable cause, to teach for the term of the teacher's contract;

(3) gross inefficiency or willful neglect of duty;

(4) failure to meet licensure requirements; or

(5) fraud or misrepresentation in obtaining a license.

The written complaint must specify the nature and character of the charges.

(b) The Professional Educator Licensing and Standards Board or Board of School Administrators, whichever has jurisdiction over a teacher's licensure, shall refuse to issue, refuse to renew, or automatically revoke a teacher's license to teach without the right to a hearing upon receiving a certified copy of a conviction showing that the teacher has been convicted of child abuse, as defined in section 609.185, sex trafficking in the first degree under section 609.322, subdivision 1, sex trafficking in the second degree under section 609.322, subdivision 1a, engaging in hiring, or agreeing to hire a minor to engage in prostitution under section 609.324, subdivision 1, sexual abuse under section 609.342, 609.343, 609.344, 609.345, 609.3451, subdivision 3, or 617.23, subdivision 3, solicitation of children to engage in sexual conduct or communication of sexually explicit materials to children, or grooming under section 609.352, interference with privacy under section 609.746 or harassment or stalking under section 609.749 and the victim was a minor, using minors in a sexual performance under section 617.246, possessing pornographic works involving a minor under section 617.247, or any other offense not listed in this paragraph that requires the person to register as a predatory offender under section 243.166, or a crime under a similar law of another state or the United States. The board shall send notice of this licensing action to the district in which the teacher is currently employed.

(c) A person whose license to teach has been revoked, not issued, or not renewed under paragraph (b), may petition the board to reconsider the licensing action if the person's conviction for child abuse or sexual abuse is reversed by a final decision of the court of

appeals or the supreme court or if the person has received a pardon for the offense. The petitioner shall attach a certified copy of the appellate court's final decision or the pardon to the petition. Upon receiving the petition and its attachment, the board shall schedule and hold a disciplinary hearing on the matter under section 214.10, subdivision 2, unless the petitioner waives the right to a hearing. If the board finds that, notwithstanding the reversal of the petitioner's criminal conviction or the issuance of a pardon, the petitioner is disqualified from teaching under paragraph (a), clause (1), the board shall affirm its previous licensing action. If the board finds that the petitioner is not disqualified from teaching under paragraph (a), clause (1), it shall reverse its previous licensing action.

(d) For purposes of this subdivision, the Professional Educator Licensing and Standards Board is delegated the authority to suspend or revoke coaching licenses.

Sec. 3. Minnesota Statutes 2024, section 122A.20, subdivision 2, is amended to read:

The report must be made to the appropriate licensing board within ten days after the discharge, suspension, or resignation has occurred. The licensing board to which the report is made must investigate the report for violation of subdivision 1 and the reporting board, administrator, or authorizer must cooperate in the investigation. Notwithstanding any provision in chapter 13 or any law to the contrary, upon written request from the licensing board having jurisdiction over the license, a board, charter school, authorizer, charter school executive director, or school superintendent shall provide the licensing board with information about the teacher or administrator from the district's files, any termination or disciplinary proceeding, any settlement or compromise, or any investigative file. Upon written request from the appropriate licensing board, a board or school superintendent may, at the discretion

of the board or school superintendent, solicit the written consent of a student and the student's parent to provide the licensing board with information that may aid the licensing board in its investigation and license proceedings. The licensing board's request need not identify a student or parent by name. The consent of the student and the student's parent must meet the requirements of chapter 13 and Code of Federal Regulations, title 34, section 99.30. The licensing board may provide a consent form to the district. Any data transmitted to any board under this section is private data under section 13.02, subdivision 12, notwithstanding any other classification of the data when it was in the possession of any other agency.

(b) The licensing board to which a report is made must transmit to the Attorney General's Office any record or data it receives under this subdivision for the sole purpose of having the Attorney General's Office assist that board in its investigation. When the Attorney General's Office has informed an employee of the appropriate licensing board in writing that grounds exist to suspend or revoke a teacher's license to teach, that licensing board must consider suspending or revoking or decline to suspend or revoke the teacher's or administrator's license within 45 days of receiving a stipulation executed by the teacher or administrator under investigation or a recommendation from an administrative law judge that disciplinary action be taken.

(c) The Professional Educator Licensing and Standards Board and Board of School Administrators must report to the appropriate law enforcement authorities a revocation, suspension, or agreement involving a loss of license, relating to a teacher or administrator's inappropriate sexual conduct with a minor. For purposes of this section, "law enforcement authority" means a police department, county sheriff, or Tribal police department. (h) The agency may use either a family assessment or investigation to determine whether the child is safe when responding to a report resulting from birth match data under section 260E.03, subdivision 23, paragraph (c). If the child subject of birth match data is determined to be safe, the agency shall consult with the county attorney to determine the appropriateness of filing a petition alleging the child is in need of protection or services under section 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is determined not to be safe, the agency and the county attorney shall take appropriate action as required under section 260C.503, subdivision 2.

The board shall send notice of this licensing action to the district in which the teacher is currently employed.

(c) A person whose license to teach has been revoked, not issued, or not renewed under paragraph (b), may petition the board to reconsider the licensing action if the person's conviction for child abuse or sexual abuse is reversed by a final decision of the court of appeals or the supreme court or if the person has received a pardon for the offense. Sec. 3. **[325M.36] SOCIAL MEDIA BEHAVIORAL THREAT ASSESSMENT AND REPORTING.**

Subdivision 1. **Social media behavioral threat assessment and reporting; requirements.** (a) A social media platform must review publicly available user-generated content and if a social media platform becomes aware of any information that a mass violence event is threatened, or has taken place, is taking place, or is likely to take place, in Minnesota or to be committed by or committed against an individual or group located in Minnesota, it shall immediately report its suspicion to the Minnesota Fusion Center (MNFC) and provide all relevant information available.

(b) Nothing in this section prevents a social media platform from any other reporting normally done in the course of business or as required by law, including contacting local, state, or national law enforcement; school safety centers; or other facilities or individuals.

(c) For the purposes of this section, a "mass violence event" means a communicated, demonstrated, or reasonably inferred threat of injury likely to cause death, or the threat of killing or attempting to kill using targeted violence, mass casualty violence, or terrorism, against an identified or reasonably identifiable individual or group, a location, an institution,

or an event, where the violence is likely to result in death and where the facts and circumstances indicate a credible intent, capability, or preparation to carry out the threatened act.

(d) Information that must be provided in an immediate manner to the MNFC under this section shall be reported within 24 hours of the social media platform becoming aware of the information, or sooner if the information indicates an imminent mass violence event will occur in less than 24 hours.

Subd. 2. **Enforcement.** (a) If a social media platform violates this section, the attorney general may bring an enforcement action under paragraph (b).

(b) The attorney general may bring an enforcement action against a social media platform to enforce a provision of this section in accordance with section 8.31. (c) Any social media platform that violates this section is subject to an injunction and any other equitable relief, and is liable for a civil penalty of not more than $1,000,000 for each violation.

Subd. 4. **Immunity from liability.** This section does not create a unique cause of action for an individual. A social media platform that uses currently available technology and follows the requirements of this section is not liable to an individual or any persons for the criminal actions of another based on the requirements or standards in this section.

Sec. 4. **[325M.40] STOP HARMS FROM ADDICTIVE SOCIAL MEDIA.**

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given.

(2) display of a profile-based feed;

(3) push notifications, whether audible, visual, or tactile, designed to call the attention of the account holder to newly posted content, user responses to content posted by the account holder, or other specific activities or events related to the account holder's account, but not including notifications for the purposes of alerting the account holder to incoming calls, text messages, email messages, or similar messages sent by human contact and delivered by means of any application;

(h) "Parent" means any parent under state law or any legal guardian or legal custodian of a child who is a resident of the state.

(i) "Personal information" means information about an account holder collected online that comprises personal information within the meaning of the Children's Online Privacy Protection Act, United States Code, title 15, section 6501(8), and the implementing regulations at Code of Federal Regulations, title 16, section 312.2. Personal information also includes any record of or derived from online activity or history, search history, or online communications of an account holder with respect to any application, website, or covered social media platform; any photograph or biometric information that is used or could reasonably be used to identify the account holder, including but not limited to fingerprints, voiceprints, iris or retina imagery scans, facial templates, or gait imagery or metrics; and any geolocation information associated with an account holder or with a device of an account holder. Personal information does not include an express search term, request, or selection submitted by the account holder during the current session on the covered social media platform; an identifier used solely for the purpose of directing personal communications to or from the account holder; information that comprises account holder-selected or parent-selected settings relating to privacy, accessibility, or blocking of age-inappropriate content; or technical information concerning the account holder's device.

(j) "Profile-based feed" means a feed in which the material presented has been selected or prioritized by the covered social media platform for display to an account holder based in whole or in part on personal information of that account holder, except that inclusion in a feed of content created by a third party that is displayed to the account holder because the account holder has taken an affirmative step to select the third party's content for inclusion in the feed displayed to the account holder, such as by following, friending, or engaging in similar actions in relation to the third party and not otherwise selected or prioritized for display to the account holder based on personal information, shall not render the feed a profile-based feed. Additionally, exclusion by a covered social media platform of certain content from the feed of an account holder based on information about or any estimate of the age of an account holder solely for the purpose of excluding content that (1) is obscene as to children age 15 or younger, or (2) by policy of the covered social media platform is not suitable for presentation to children of that age shall not render that feed a profile-based feed.

(k) "Social media platform" means an Internet website or application that is open to the public, allows a user to create an account, enables an account holder to communicate with other users for the primary purpose of posting and viewing information, comments, messages, images, or videos, and utilizes addictive interface features, provides profile-based feeds, or

utilizes personal information to display targeted paid commercial advertising. Social media platform does not include:

(1) a broadband Internet access service as defined by the Federal Communications Commission;

(2) an online service, website, or application where the exclusive function is the support of communications, including email, video conference capabilities, or direct messaging consisting of text, photographs, pictures, images, or videos only between the sender and recipients specifically identified by the sender, without displaying or posting publicly or to other users not specifically identified as the recipients by the sender;

(3) an online service, application, or website with content consisting primarily of information or content that is not user generated; or

(4) a streaming service, online video game, e-commerce, or other Internet website where the content is not user generated, but where interactive functions enable chat, comments, reviews, or other interactive functionality that is incidental to, directly related to, or dependent upon the non-user-generated content.

(l) "Targeted paid commercial advertising" means paid commercial advertising that has been selected or prioritized for display to an account holder based in whole or in part on account activity or personal information of the account holder by or with the participation of the covered social media platform, except that advertising selected for display to an account holder shall not constitute targeted paid commercial advertising if that selection process considers information about or an estimate of the age of the account holder solely for the purpose of excluding advertisements that by law or policy of the covered social media platform are not suitable for presentation to a child of that age.

(m) "Verifiable parental consent" has the meaning established in the Children's Online Privacy Protection Act, United States Code, title 15, section 6501(9), and the implementing regulations under Code of Federal Regulations, title 16, section 312.5.

Subd. 2. **Age estimation; requirements.** (a) When a new account holder has been on the covered social media platform for 25 hours or more within a six-month period, the covered social media platform has 14 days to estimate the age of the account holder using reasonable efforts, taking into consideration available technology and the data in the possession of the covered social media platform. If the covered social media platform is able to conclude with a percentage confidence score of 80 percent or greater that the user is 16 years old or older, the covered social media platform may treat the account holder to

be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(b) When a new account holder has been on the covered social media platform for 50 hours or more within a six-month period, the covered social media platform has 14 days to use reasonable efforts to revise the covered social media platform's initial estimate of the age of the account holder. If the covered social media platform is able to conclude with a percentage confidence score of 90 percent or more that the account holder is 16 years of age or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(c) A covered social media platform shall update its estimate of the age of each account holder after every six months that the account holder is on the platform, or as often as the covered social media platform applies any form of data analytics or artificial intelligence to update the covered social media platform's estimate of any other demographic characteristics of the account holder for any reason, whichever period is shorter. If the covered social media platform is able to conclude with a percentage confidence score of 90 percent or more that the account holder is 16 years of age or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(d) Nothing in this section shall be construed to create any duty on the part of a covered social media platform to request, collect, or retain any information from or about any account holder, except as provided under subdivision 7. The age estimate required by this section shall be derived based on information collected by the covered social media platform in the ordinary course of operation of the covered social media platform, and a covered social media platform shall have no obligation under this section to estimate the age of an account holder who has had an account with the covered social media platform continuously for at least seven years or to take any action with respect to the account.

Subd. 3. **Creation and maintenance of account of a child.** (a) A covered social media platform shall require applicants for an account to provide the month and year of their birth date as part of the account application process, and shall not provide a default birthdate in any form or query used to obtain that information.

(b) A covered social media platform may not create an account for a user identified as a child pursuant to this section, or change the terms and conditions of an account of a child,

without first obtaining verifiable parental consent. A covered social media platform that is required to treat an account holder as a child pursuant to subdivision 2 must not maintain an account of a child without verifiable consent consistent with the process in subdivision 6, paragraph (c). Information collected for the purpose of obtaining verifiable parental consent shall not be used for any purpose other than obtaining verifiable parental consent and shall not be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

(c) A covered social media platform shall provide clear, simple, and easy-to-locate information through a link about the creation or maintenance of an account of a child and include that information in the terms and services agreement.

Subd. 4. **Privacy and parental limitations for account of a child.** (a) An account for a child shall have all privacy settings set by default at the most private levels.

(b) A covered social media platform may not change the privacy settings of an account of a child so long as the account holder remains a child.

(c) In the course of obtaining verifiable parental consent for the establishment or continuation of an account of a child, a covered social media platform shall prominently provide and explain an option for the parent to:

(1) monitor the amount of time the child spends using the covered social media platform;

(2) set daily and weekly time limits on use of the covered social media platform; and

(3) set limits on times of day when the covered social media platform can be accessed by the child.

(d) Information collected on the account of a child by the social media platform shall not at any time be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

Subd. 5. **Prohibition on addictive interface; presentation of paid commercial advertising.** (a) A covered social media platform may not present addictive interface features in the display or feed of any account of a child.

(b) A covered social media platform may not present targeted paid commercial advertising in the display or feed of any account of a child.

Subd. 6. **Termination of an account of a child.** (a) A covered social media platform shall terminate an account of a child within no more than seven days after receipt of a request for termination from the account holder.

(b) A covered social media platform shall terminate the account of a child within 14 days of the receipt of a request for termination from a parent of the account holder. Upon receipt of the parent's request, the covered social media platform shall verify that the requesting party is a parent of the account holder by whatever means of verification the covered social media platform uses for purposes of ascertaining the validity of verifiable parental consent. A covered social media platform shall provide clear, simple, and easy-to-locate means for the parent of any child to request termination of any account of a child.

(c) A covered social media platform must terminate an account if it concludes, consistent with the age estimation requirements in subdivision 2, that an account holder is a child unless verifiable parental consent is obtained for the account. The covered social media platform shall provide 30 days from the date of the notice for the account holder to dispute the age classification or to provide verifiable parental consent. If an account holder disputes his or her classification as a child, a covered social media platform may rely on any commercially reasonable process to resolve the dispute. A covered social media platform shall make a reasonable determination of the dispute within 30 days of the completion of that process. In the event a covered social media platform concludes, after considering a dispute, that the covered social media platform is obligated to terminate an account, it shall terminate that account within seven days of making that determination.

Subd. 7. **Verifiable parental consent; records.** A covered social media platform must retain documentation sufficient to reasonably establish that it has obtained verifiable parental consent as required under this section.

Subd. 8. **Contract provisions.** (a) Contracts formed in violation of this section are void and unenforceable. No part of this section may be waived in a contract or terms of service agreement.

(b) If a covered social media platform permits a child to open or continue an account on the platform in the absence of parental consent sufficient for the formation of a binding contract with a minor under ordinary principles of contract law under the laws of this state, any purported contract pertaining to the account is void and unenforceable as contrary to public policy, including but not limited to any arbitration provision, limitation of liability, or limitation of remedies, without regard to whether the covered social media platform had actual or constructive knowledge that the account holder was a child.

Subd. 9. **Enforcement; remedies.** (a) A child or parent shall have a private right of action for a violation of this section. The court may award declaratory or injunctive relief,

general and special damages, court costs and fees, reasonable attorney fees, and any other appropriate relief as a result of a negligent, reckless, or knowing violation of this section.

(b) If a covered social media platform's violation was reckless or knowing, a child or parent who prevails on a claim based on any violation of this section shall be entitled to recover actual damages or $10,000 in statutory damages, whichever is greater.

(c) If a covered social media platform's violation was part of a consistent pattern of reckless or knowing conduct, punitive damages may be awarded.

(d) A covered social media platform shall not be liable for any violation of this section if it has used reasonable efforts, taking into consideration available technology and the data in possession of the covered social media platform, to comply with the requirements of this section.

(e) A civil action for damages for a violation of this section must be brought within three years of the date the plaintiff knew, or reasonably should have known, of the alleged violation. However, this limitation period for the action shall be tolled until the holder of an account of a child reaches the age of 18.

Subd. 10. **Deceptive trade practices.** Any knowing or reckless violation of this section shall constitute a deceptive trade practice and a violation of section 325D.44. The attorney general shall have enforcement authority under section 8.31.

**EFFECTIVE DATE.** This section is effective July 1, 2027, and applies to accounts created before, on, or after that date.

(3) push notifications, whether audible, visual, or tactile, designed to call the attention of the account holder to newly posted content, user responses to content posted by the account holder, or other specific activities or events related to the account holder's account, but not including notifications for the purposes of alerting the account holder to incoming calls, text messages, email messages, or similar messages sent by human contact and delivered by means of any application;

(4) autoplay video or video that begins to play without the account holder first clicking on the video or on a play button for that video;

(6) display of awards, badges, tiers, or any form of recognition of the account holder based on hours spent by the account holder on the covered social media platform, numbers of followers, numbers of postings, frequency or regularity of postings, or any other metric of usage or performance on the covered social media platform.

(i) "Personal information" means information about an account holder collected online that comprises personal information within the meaning of the Children's Online Privacy Protection Act, United States Code, title 15, section 6501(8), and the implementing regulations at Code of Federal Regulations, title 16, section 312.2. Personal information also includes any record of or derived from online activity or history, search history, or online communications of an account holder with respect to any application, website, or covered social media platform; any photograph or biometric information that is used or could reasonably be used to identify the account holder, including but not limited to fingerprints, voiceprints, iris or retina imagery scans, facial templates, or gait imagery or metrics; and any geolocation information associated with an account holder or with a device of an account holder. Personal information does not include an express search term, request, or selection submitted by the account holder during the current session on the covered social media platform; an identifier used solely for the purpose of directing personal communications to or from the account holder; information that comprises account holder-selected or parent-selected settings relating to privacy, accessibility, or blocking of age-inappropriate content; or technical information concerning the account holder's device.

Additionally, exclusion by a covered social media platform of certain content from the feed of an account holder based on information about or any estimate of the age of an account holder solely for the purpose of excluding content that (1) is obscene as to children age 15 or younger, or (2) by policy of the covered social media platform is

(k) "Social media platform" means an Internet website or application that is open to the public, allows a user to create an account, enables an account holder to communicate with other users for the primary purpose of posting and viewing information, comments, messages, images, or videos, and utilizes addictive interface features, provides profile-based feeds, or utilizes personal information to display targeted paid commercial advertising. Social media platform does not include:

(1) a broadband Internet access service as defined by the Federal Communications Commission;

(2) an online service, website, or application where the exclusive function is the support of communications, including email, video conference capabilities, or direct messaging consisting of text, photographs, pictures, images, or videos only between the sender and recipients specifically identified by the sender, without displaying or posting publicly or to other users not specifically identified as the recipients by the sender;

(3) an online service, application, or website with content consisting primarily of information or content that is not user generated; or

(m) "Verifiable parental consent" has the meaning established in the Children's Online Privacy Protection Act, United States Code, title 15, section 6501(9), and the implementing regulations under Code of Federal Regulations, title 16, section 312.5.

Subd. 2. **Age estimation; requirements.** (a) When a new account holder has been on the covered social media platform for 25 hours or more within a six-month period, the covered social media platform has 14 days to estimate the age of the account holder using reasonable efforts, taking into consideration available technology and the data in the possession of the covered social media platform. If the covered social media platform is able to conclude with a percentage confidence score of 80 percent or greater that the user is 16 years old or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(b) When a new account holder has been on the covered social media platform for 50 hours or more within a six-month period, the covered social media platform has 14 days to use reasonable efforts to revise the covered social media platform's initial estimate of the age of the account holder. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(c) A covered social media platform shall update its estimate of the age of each account holder after every six months that the account holder is on the platform, or as often as the covered social media platform applies any form of data analytics or artificial intelligence to update the covered social media platform's estimate of any other demographic characteristics of the account holder for any reason, whichever period is shorter. If the covered social media platform is able to conclude with a percentage confidence score of 90 percent or more that the account holder is 16 years of age or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(d) Nothing in this section shall be construed to create any duty on the part of a covered social media platform to request, collect, or retain any information from or about any account holder, except as provided under subdivision 7. The age estimate required by this section shall be derived based on information collected by the covered social media platform in the ordinary course of operation of the covered social media platform, and a covered social media platform shall have no obligation under this section to estimate the age of an account holder who has had an account with the covered social media platform continuously for at least seven years or to take any action with respect to the account.

Subd. 3. **Creation and maintenance of account of a child.** (a) A covered social media platform shall require applicants for an account to provide the month and year of their birth date as part of the account application process, and shall not provide a default birthdate in any form or query used to obtain that information.

(b) A covered social media platform may not create an account for a user identified as a child pursuant to this section, or change the terms and conditions of an account of a child, without first obtaining verifiable parental consent. A covered social media platform that is required to treat an account holder as a child pursuant to subdivision 2 must not maintain an account of a child without verifiable consent consistent with the process in subdivision 6, paragraph (c). Information collected for the purpose of obtaining verifiable parental consent shall not be used for any purpose other than obtaining verifiable parental consent and shall not be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

(c) A covered social media platform shall provide clear, simple, and easy-to-locate information through a link about the creation or maintenance of an account of a child and include that information in the terms and services agreement.

Subd. 4. **Privacy and parental limitations for account of a child.** (a) An account for a child shall have all privacy settings set by default at the most private levels.

(b) A covered social media platform may not change the privacy settings of an account of a child so long as the account holder remains a child.

(c) In the course of obtaining verifiable parental consent for the establishment or continuation of an account of a child, a covered social media platform shall prominently provide and explain an option for the parent to:

(1) monitor the amount of time the child spends using the covered social media platform;

(2) set daily and weekly time limits on use of the covered social media platform; and

(3) set limits on times of day when the covered social media platform can be accessed by the child.

(d) Information collected on the account of a child by the social media platform shall not at any time be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

Subd. 5. **Prohibition on addictive interface; presentation of paid commercial advertising.** (a) A covered social media platform may not present addictive interface features in the display or feed of any account of a child.

(b) A covered social media platform may not present targeted paid commercial advertising in the display or feed of any account of a child.

Subd. 6. **Termination of an account of a child.** (a) A covered social media platform shall terminate an account of a child within no more than seven days after receipt of a request for termination from the account holder.

(b) A covered social media platform shall terminate the account of a child within 14 days of the receipt of a request for termination from a parent of the account holder. Upon receipt of the parent's request, the covered social media platform shall verify that the requesting party is a parent of the account holder by whatever means of verification the covered social media platform uses for purposes of ascertaining the validity of verifiable parental consent. A covered social media platform shall provide clear, simple, and easy-to-locate means for the parent of any child to request termination of any account of a child.

(c) A covered social media platform must terminate an account if it concludes, consistent with the age estimation requirements in subdivision 2, that an account holder is a child unless verifiable parental consent is obtained for the account. The covered social media platform shall provide 30 days from the date of the notice for the account holder to dispute the age classification or to provide verifiable parental consent. If an account holder disputes his or her classification as a child, a covered social media platform may rely on any commercially reasonable process to resolve the dispute. A covered social media platform shall make a reasonable determination of the dispute within 30 days of the completion of that process. In the event a covered social media platform concludes, after considering a dispute, that the covered social media platform is obligated to terminate an account, it shall terminate that account within seven days of making that determination.

Subd. 7. **Verifiable parental consent; records.** A covered social media platform must retain documentation sufficient to reasonably establish that it has obtained verifiable parental consent as required under this section.

Subd. 8. **Contract provisions.** (a) Contracts formed in violation of this section are void and unenforceable. No part of this section may be waived in a contract or terms of service agreement.

(b) If a covered social media platform permits a child to open or continue an account on the platform in the absence of parental consent sufficient for the formation of a binding contract with a minor under ordinary principles of contract law under the laws of this state, any purported contract pertaining to the account is void and unenforceable as contrary to

public policy, including but not limited to any arbitration provision, limitation of liability, or limitation of remedies, without regard to whether the covered social media platform had actual or constructive knowledge that the account holder was a child.

Subd. 9. **Enforcement; remedies.** (a) A child or parent shall have a private right of action for a violation of this section. The court may award declaratory or injunctive relief, general and special damages, court costs and fees, reasonable attorney fees, and any other appropriate relief as a result of a negligent, reckless, or knowing violation of this section.

(b) If a covered social media platform's violation was reckless or knowing, a child or parent who prevails on a claim based on any violation of this section shall be entitled to recover actual damages or $10,000 in statutory damages, whichever is greater.

(c) If a covered social media platform's violation was part of a consistent pattern of reckless or knowing conduct, punitive damages may be awarded.

(d) A covered social media platform shall not be liable for any violation of this section if it has used reasonable efforts, taking into consideration available technology and the data in possession of the covered social media platform, to comply with the requirements of this section.

(e) A civil action for damages for a violation of this section must be brought within three years of the date the plaintiff knew, or reasonably should have known, of the alleged violation. However, this limitation period for the action shall be tolled until the holder of an account of a child reaches the age of 18.

Subd. 10. **Deceptive trade practices.** Any knowing or reckless violation of this section shall constitute a deceptive trade practice and a violation of section 325D.44. The attorney general shall have enforcement authority under section 8.31.

or personal information of the account holder by or with the participation of the covered social media platform, except that advertising selected for display to an account holder shall not constitute targeted paid commercial advertising if that selection process considers information about or an estimate of the age of the account holder solely for the purpose of excluding advertisements that by law or policy of the covered social media platform are not suitable for presentation to a child of that age.

(m) "Verifiable parental consent" has the meaning established in the Children's Online Privacy Protection Act, United States Code, title 15, section 6501(9), and the implementing regulations under Code of Federal Regulations, title 16, section 312.5.

Subd. 2. **Age estimation; requirements.** (a) When a new account holder has been on the covered social media platform for 25 hours or more within a six-month period, the covered social media platform has 14 days to estimate the age of the account holder using reasonable efforts, taking into consideration available technology and the data in the possession of the covered social media platform. If the covered social media platform is able to conclude with a percentage confidence score of 80 percent or greater that the user is 16 years old or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(b) When a new account holder has been on the covered social media platform for 50 hours or more within a six-month period, the covered social media platform has 14 days to use reasonable efforts to revise the covered social media platform's initial estimate of the age of the account holder. If the covered social media platform is able to conclude with a percentage confidence score of 90 percent or more that the account holder is 16 years of age or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(c) A covered social media platform shall update its estimate of the age of each account holder after every six months that the account holder is on the platform, or as often as the covered social media platform applies any form of data analytics or artificial intelligence to update the covered social media platform's estimate of any other demographic characteristics of the account holder for any reason, whichever period is shorter. If the covered social media platform is able to conclude with a percentage confidence score of 90 percent or more that the account holder is 16 years of age or older, the covered social media platform may treat the account holder to be other than a child for purposes of this section. Otherwise, the covered social media platform must treat the account holder as a child for purposes of this section.

(d) Nothing in this section shall be construed to create any duty on the part of a covered social media platform to request, collect, or retain any information from or about any account holder, except as provided under subdivision 7. The age estimate required by this section shall be derived based on information collected by the covered social media platform in the ordinary course of operation of the covered social media platform, and a covered social media platform shall have no obligation under this section to estimate the age of an account holder who has had an account with the covered social media platform continuously for at least seven years or to take any action with respect to the account.

Subd. 3. **Creation and maintenance of account of a child.** (a) A covered social media platform shall require applicants for an account to provide the month and year of their birth date as part of the account application process, and shall not provide a default birthdate in any form or query used to obtain that information.

(b) A covered social media platform may not create an account for a user identified as a child pursuant to this section, or change the terms and conditions of an account of a child, without first obtaining verifiable parental consent. A covered social media platform that is required to treat an account holder as a child pursuant to subdivision 2 must not maintain an account of a child without verifiable consent consistent with the process in subdivision 6, paragraph (c). Information collected for the purpose of obtaining verifiable parental consent shall not be used for any purpose other than obtaining verifiable parental consent and shall not be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

(c) A covered social media platform shall provide clear, simple, and easy-to-locate information through a link about the creation or maintenance of an account of a child and include that information in the terms and services agreement.

Subd. 4. **Privacy and parental limitations for account of a child.** (a) An account for a child shall have all privacy settings set by default at the most private levels.

(b) A covered social media platform may not change the privacy settings of an account of a child so long as the account holder remains a child.

(c) In the course of obtaining verifiable parental consent for the establishment or continuation of an account of a child, a covered social media platform shall prominently provide and explain an option for the parent to:

(1) monitor the amount of time the child spends using the covered social media platform;

(2) set daily and weekly time limits on use of the covered social media platform; and

(3) set limits on times of day when the covered social media platform can be accessed by the child.

(d) Information collected on the account of a child by the social media platform shall not at any time be sold, transferred, or disclosed, except to the extent necessary to comply with any other applicable state or federal law or regulation.

Subd. 5. **Prohibition on addictive interface; presentation of paid commercial advertising.** (a) A covered social media platform may not present addictive interface features in the display or feed of any account of a child.

(b) A covered social media platform may not present targeted paid commercial advertising in the display or feed of any account of a child.

Subd. 6. **Termination of an account of a child.** (a) A covered social media platform shall terminate an account of a child within no more than seven days after receipt of a request for termination from the account holder.

(b) A covered social media platform shall terminate the account of a child within 14 days of the receipt of a request for termination from a parent of the account holder. Upon receipt of the parent's request, the covered social media platform shall verify that the requesting party is a parent of the account holder by whatever means of verification the covered social media platform uses for purposes of ascertaining the validity of verifiable parental consent. A covered social media platform shall provide clear, simple, and easy-to-locate means for the parent of any child to request termination of any account of a child.

(c) A covered social media platform must terminate an account if it concludes, consistent with the age estimation requirements in subdivision 2, that an account holder is a child unless verifiable parental consent is obtained for the account. The covered social media platform shall provide 30 days from the date of the notice for the account holder to dispute the age classification or to provide verifiable parental consent. If an account holder disputes his or her classification as a child, a covered social media platform may rely on any commercially reasonable process to resolve the dispute. A covered social media platform shall make a reasonable determination of the dispute within 30 days of the completion of that process. In the event a covered social media platform concludes, after considering a dispute, that the covered social media platform is obligated to terminate an account, it shall terminate that account within seven days of making that determination.

Subd. 7. **Verifiable parental consent; records.** A covered social media platform must retain documentation sufficient to reasonably establish that it has obtained verifiable parental consent as required under this section.

Subd. 8. **Contract provisions.** (a) Contracts formed in violation of this section are void and unenforceable. No part of this section may be waived in a contract or terms of service agreement.

(b) If a covered social media platform permits a child to open or continue an account on the platform in the absence of parental consent sufficient for the formation of a binding contract with a minor under ordinary principles of contract law under the laws of this state, any purported contract pertaining to the account is void and unenforceable as contrary to public policy, including but not limited to any arbitration provision, limitation of liability, or limitation of remedies, without regard to whether the covered social media platform had actual or constructive knowledge that the account holder was a child.

Subd. 9. **Enforcement; remedies.** (a) A child or parent shall have a private right of action for a violation of this section. The court may award declaratory or injunctive relief, general and special damages, court costs and fees, reasonable attorney fees, and any other appropriate relief as a result of a negligent, reckless, or knowing violation of this section.

(b) If a covered social media platform's violation was reckless or knowing, a child or parent who prevails on a claim based on any violation of this section shall be entitled to recover actual damages or $10,000 in statutory damages, whichever is greater.

(c) If a covered social media platform's violation was part of a consistent pattern of reckless or knowing conduct, punitive damages may be awarded.

(d) A covered social media platform shall not be liable for any violation of this section if it has used reasonable efforts, taking into consideration available technology and the data in possession of the covered social media platform, to comply with the requirements of this section.

(e) A civil action for damages for a violation of this section must be brought within three years of the date the plaintiff knew, or reasonably should have known, of the alleged violation. However, this limitation period for the action shall be tolled until the holder of an account of a child reaches the age of 18.

Subd. 10. **Deceptive trade practices.** Any knowing or reckless violation of this section shall constitute a deceptive trade practice and a violation of section 325D.44. The attorney general shall have enforcement authority under section 8.31.

**EFFECTIVE DATE.** This section is effective July 1, 2027, and applies to accounts created before, on, or after that date."

The identity of a complainant is private.

The head of any agency may also withhold payments to a program participant in any program administered by that agency if another agency head has determined there is a credible allegation of fraud under investigation and the program participant is a subject of the investigation.

(b) The state agency head must send notice of the withholding of payments to the program participant within five days of taking such action. The notice must:

(b) Except for the identity of a complainant, after a determination has been made under subdivision 2, paragraph (e), that withholding of payments shall not continue, all data relating to a credible allegation of fraud under this section become public unless classified otherwise under state or federal law. The identity of a complainant is private.

(c) Any state agency may disclose any data classified as confidential or protected nonpublic under this section to any federal, state, or local government agency, or any law enforcement agency, if the state agency determines that access will help prevent fraud against public programs or aid the law enforcement process."

## ARTICLE 1

## THE READ ACT

Section 1. Minnesota Statutes 2024, section 120B.119, subdivision 7, is amended to read:

Subd. 7. **Literacy specialist.** "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board ~~as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher,~~ who has completed professional development approved by the Department of Education in structured literacy.

Sec. 2. Minnesota Statutes 2025 Supplement, section 120B.119, subdivision 10, is amended to read:

Subd. 10. **Oral language.** "Oral language," also called " expressive language" ~~or~~ and "receptive language," includes speaking and listening, and consists of five components: phonology, morphology, syntax, semantics, and pragmatics. Oral language also includes sign language, in which speaking and listening skills are defined as expressive and receptive

skills, and consists of phonology, including sign language phonological awareness, morphology, syntax, semantics, and pragmatics.

Sec. 3. Minnesota Statutes 2024, section 120B.119, is amended by adding a subdivision to read:

Subd. 10a. **Parent.** "Parent" means a student's parent or legal guardian.

Sec. 4. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 2, is amended to read:

Subd. 2. **Identification; report.** (a) Each school district must screen every student enrolled in kindergarten, grade 1, grade 2, and grade 3 using a screening tool approved by the Department of Education three times each school year: (1) within the first six weeks of the school year; (2) by February 15 each year; and (3) within the last six weeks of the school year. Students enrolled in kindergarten, grade 1, grade 2, and grade 3, including multilingual learners, students receiving special education services, and students enrolled in dual language immersion programs, must be universally screened for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language, and for characteristics of dyslexia as measured by a screening tool approved by the Department of Education. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and expressive ~~or~~ and receptive language mastery. The screening tool used must be a valid and reliable universal screener that is highly correlated with foundational reading skills. ~~For students reading at grade level, beginning in the winter of grade 2, the oral reading fluency screener may be used to assess reading difficulties, including characteristics of dyslexia, without requiring a separate screening of each subcomponent of foundational reading skills.~~ A district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to the Department of Education in the annual local literacy plan submission due on June 15.

(b) For students enrolled in dual language immersion programs:

(1) if students are screened in the partner language, they must be screened at the same interval as the screenings in English under paragraph (a);

(2) if the program provides instruction in foundational reading skills in English, the students receiving that instruction must be screened in English;

(3) if the program provides instruction in foundational reading skills in the partner language, the students receiving that instruction must be screened in the partner language;

(4) if no screener is available in the partner language, the districts must identify how students' reading proficiency is assessed and how the districts determine and provide targeted reading instruction in the partner language and supports to students identified as needing additional support in developing mastery of foundational reading skills; and

(5) the partner language screening tool must be approved by the district for kindergarten through grade 3 students.

(c) Students in grades 4 and above, including multilingual learners and students receiving special education services, who are not reading at grade level must be screened for reading difficulties, including characteristics of dyslexia, using a screening tool approved by the Department of Education, and must continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency. A parent, in consultation with a teacher, may opt a student out of the literacy screener if the parent and teacher decide that continuing to screen would not be beneficial to the student. In such limited cases, the student must continue to receive progress monitoring and literacy interventions.

(d) Reading screeners in English, and in the predominant languages of district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The district also must monitor the progress and provide reading instruction appropriate to the specific needs of multilingual learners. The district must use an approved, developmentally appropriate, and culturally responsive screener and annually report summary screener results to the commissioner by June 15 in the form and manner determined by the commissioner.

(e) An English language learner must be screened for characteristics of dyslexia according to the vendor's assessment guidelines.

~~(e)~~ (f) The district also must include in its local literacy plan under subdivision 4a, a summary of the district's efforts to screen, identify, and provide interventions to students who demonstrate characteristics of dyslexia as measured by a screening tool approved by the Department of Education. Districts are strongly encouraged to use a MTSS framework. With respect to students screened or identified under paragraph (a), the report must include:

(1) a summary of the district's efforts to screen for characteristics of reading difficulties, including dyslexia;

(2) the number of students universally screened for that reporting year;

(3) the number of students demonstrating characteristics of dyslexia for that year; and

(4) an explanation of how students identified under this subdivision are provided with alternate instruction and interventions under section 125A.56, subdivision 1.

Sec. 5. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 2a, is amended to read:

Subd. 2a. **Parent notification and involvement.** (a) A district must administer an approved reading screener to students in kindergarten through grade 3 within the first six weeks of the school year, by February 15 each year, and again within the last six weeks of the school year. A district must administer an approved reading screener to students in grades 4 and above who are not reading at grade level at least once per year until the student reaches grade-level proficiency. Schools, after administering each screener, must follow the language access plan under section 123B.32 and give the parent of each student who is not reading at or above grade level information from the screener about:

(1) the student's reading proficiency as measured by a screener approved by the Department of Education;

(2) reading-related services currently being provided to the student and the student's progress; and

(3) strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.

(b) For students enrolled in dual language immersion programs, the district must measure the student's reading proficiency in English or in the program's partner language, if available, according to subdivision 2. Following the district's language access plan under section 123B.32, the district must notify families with timely information about students' reading proficiency, including how the student's reading proficiency is assessed, any reading-related services or supports provided to the student and the student's progress, and strategies for families to use at home in helping students succeed in becoming grade-level proficient in reading in English or the partner language. The dual language immersion program may provide information about national research on reading proficiency for students in dual language immersion programs in the parent notification.

(c) A district may not use this section to deny a student's right to a special education evaluation.

Sec. 6. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 4a, is amended to read:

### THE READ ACT

Section 1. Minnesota Statutes 2024, section 120B.119, subdivision 7, is amended to read:

Subd. 7. **Literacy specialist.** "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board ~~as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher,~~ who has completed professional development approved by the Department of Education in structured literacy.

Sec. 2. Minnesota Statutes 2025 Supplement, section 120B.119, subdivision 10, is amended to read:

Subd. 10. **Oral language.** "Oral language," also called " expressive language" ~~or~~ and "receptive language," includes speaking and listening, and consists of five components: phonology, morphology, syntax, semantics, and pragmatics. Oral language also includes sign language, in which speaking and listening skills are defined as expressive and receptive skills, and consists of phonology, including sign language phonological awareness, morphology, syntax, semantics, and pragmatics.

Sec. 3. Minnesota Statutes 2024, section 120B.119, is amended by adding a subdivision to read:

Subd. 10a. **Parent.** "Parent" means a student's parent or legal guardian.

Sec. 4. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 2, is amended to read:

Subd. 2. **Identification; report.** (a) Each school district must screen every student enrolled in kindergarten, grade 1, grade 2, and grade 3 using a screening tool approved by the Department of Education three times each school year: (1) within the first six weeks of the school year; (2) by February 15 each year; and (3) within the last six weeks of the school year. Students enrolled in kindergarten, grade 1, grade 2, and grade 3, including multilingual learners, students receiving special education services, and students enrolled in dual language immersion programs, must be universally screened for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language, and for characteristics of dyslexia as measured by a screening tool approved by the Department of Education. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and expressive ~~or~~ and receptive language mastery. The screening tool used must be a valid and reliable universal screener that is highly correlated with foundational reading skills. ~~For students reading at grade level, beginning in the winter of grade 2, the oral reading fluency screener may be used to assess reading difficulties, including characteristics of dyslexia, without requiring a separate screening of each subcomponent of foundational reading skills.~~ A district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to the Department of Education in the annual local literacy plan submission due on June 15.

(b) For students enrolled in dual language immersion programs:

(1) if students are screened in the partner language, they must be screened at the same interval as the screenings in English under paragraph (a);

(2) if the program provides instruction in foundational reading skills in English, the students receiving that instruction must be screened in English;

(3) if the program provides instruction in foundational reading skills in the partner language, the students receiving that instruction must be screened in the partner language;

(4) if no screener is available in the partner language, the districts must identify how students' reading proficiency is assessed and how the districts determine and provide targeted reading instruction in the partner language and supports to students identified as needing additional support in developing mastery of foundational reading skills; and

(5) the partner language screening tool must be approved by the district for kindergarten through grade 3 students.

(c) Students in grades 4 and above, including multilingual learners and students receiving special education services, who are not reading at grade level must be screened for reading difficulties, including characteristics of dyslexia, using a screening tool approved by the Department of Education, and must continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency. A parent, in consultation with a teacher, may opt a student out of the literacy screener if the parent and teacher decide that continuing to screen would not be beneficial to the student. In such limited cases, the student must continue to receive progress monitoring and literacy interventions.

(d) Reading screeners in English, and in the predominant languages of district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The district also must monitor the progress and provide reading instruction appropriate to the specific needs of multilingual learners. The district must use an approved, developmentally appropriate, and culturally responsive screener and annually report summary screener results to the commissioner by June 15 in the form and manner determined by the commissioner.

(e) An English language learner must be screened for characteristics of dyslexia according to the vendor's assessment guidelines.

~~(e)~~ (f) The district also must include in its local literacy plan under subdivision 4a, a summary of the district's efforts to screen, identify, and provide interventions to students who demonstrate characteristics of dyslexia as measured by a screening tool approved by the Department of Education. Districts are strongly encouraged to use a MTSS framework. With respect to students screened or identified under paragraph (a), the report must include:

(1) a summary of the district's efforts to screen for characteristics of reading difficulties, including dyslexia;

(2) the number of students universally screened for that reporting year;

(3) the number of students demonstrating characteristics of dyslexia for that year; and

(4) an explanation of how students identified under this subdivision are provided with alternate instruction and interventions under section 125A.56, subdivision 1.

Sec. 5. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 2a, is amended to read:

Subd. 2a. **Parent notification and involvement.** (a) A district must administer an approved reading screener to students in kindergarten through grade 3 within the first six weeks of the school year, by February 15 each year, and again within the last six weeks of the school year. A district must administer an approved reading screener to students in grades 4 and above who are not reading at grade level at least once per year until the student reaches grade-level proficiency. Schools, after administering each screener, must follow the language access plan under section 123B.32 and give the parent of each student who is not reading at or above grade level information from the screener about:

(1) the student's reading proficiency as measured by a screener approved by the Department of Education;

(2) reading-related services currently being provided to the student and the student's progress; and

(3) strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.

(b) For students enrolled in dual language immersion programs, the district must measure the student's reading proficiency in English or in the program's partner language, if available, according to subdivision 2. Following the district's language access plan under section 123B.32, the district must notify families with timely information about students' reading proficiency, including how the student's reading proficiency is assessed, any reading-related services or supports provided to the student and the student's progress, and strategies for families to use at home in helping students succeed in becoming grade-level proficient in reading in English or the partner language. The dual language immersion program may provide information about national research on reading proficiency for students in dual language immersion programs in the parent notification.

(c) A district may not use this section to deny a student's right to a special education evaluation.

Sec. 6. Minnesota Statutes 2025 Supplement, section 120B.12, subdivision 4a, is amended to read:

Subd. 4a. **Local literacy plan.** (a) Consistent with this section, a school district must adopt a local literacy plan to have every child reading at or above grade level every year beginning in kindergarten and to support multilingual learners and students receiving special education services in achieving their individualized reading goals.
